PARK'S BOOK OF CHOICE DEPENDABLE SEEDS SEASON of 1934

GREENWOOD, SOUTH CAROLINA

All of Park's seeds are 5c. a Packet, and all are Guaranteed.

THE MOST BEAUTIFUL OF PRIMROSES

Do you want a rare and magnificent easily-grown flower for beds, pots, porches, boxes, baskets or the rockery? If so here it is—*Oenothera Tetraptera Rosea*—the most beautiful of all Evening Primroses. The seeds start promptly, the plants are dwarf, spreading and compact, and literally covered daily with large salmon-pink flowers, as represented in the engraving. I had trouble to find seeds of this glorious flower, but am now delighted to be able to supply my patron-friends with a pkt. of 35 seeds, for 5c. I know my friends will thank me for acquainting them with this charming Primrose, and I am highly elated that I have secured the seeds to supply them. I have many other fine Primroses, but this is absolutely the finest. See pages 27, 57, 40, and insert C.

Benary's Eureka Violet. Beautiful Royal Purple, large white center; splendid. 50 seeds 5c.

R K

WILL YOU KINDLY HAND EXTRA COPIES TO FLOWER LOVING FRIENDS

JAN 16 1934

INTRODUCTORY

DEAR Patron-friends: By the permission of kind Providence I have the pleasure of greeting you once more at the threshold of another New Year. I say pleasure advisedly, for I feel grateful and happy on account of the hearty support you have given me the past year, and the friendly and encouraging letters that have come to me daily, often accompanied by liberal orders. I appreciate and am thankful to you all for your earnest efforts to promote my welfare and increased trade among your flower-loving friends. I realize that my success in business is largely due to these efforts, and I enter into this New Year with increased energy and renewed zeal in the delightful vocation that has now been mine for more than two generations.

My friends, your faithfulness and loyalty in the past is a cogent inspiration to me to treat you better and more generously, if possible, in the future than I have done heretofore. It is true I have made some mistakes, for "to err is human;" but my errors were not intentional, and when they occurred I have always been ready and anxious to correct them. I want to so deal with every patron as to secure and merit his or her confidence. I try to do an honest business, and am willing always to do more than justice and fair dealing demand. I want to earn the friendship as well as the confidence of everyone who entrusts me with an order. I aim to send out seeds of only the new crop, such as will be sure to grow under favorable conditions. I send with every package a little booklet of "Hints" telling just how to sow, as also giving brief after-treatment. Still more, I guarantee all my seeds, and will replace such as fail, if my cultural directions are heeded and a full and careful report is sent me.

Another important element in my business system is to sell only seeds of the finest quality and true to name. This is even more needful than seeds of good vitality for the disappointment comes after weeks of labor and care have been spent in culture. All of my seeds are obtained of reliable growers, and of the best seeds they produce. They can, therefore, be relied upon to yield the best results. They will not prove disappointing.

Again.--In early life I adopted the motto "Big Sales and Small Profits" and this motto I have never discarded. I have no desire to become a millionaire. I believe in the old proverb "A Good Name is rather to be chosen than great riches, and Loving Favor rather than silver and gold." For this reason I sell any seeds offered in this Flower Book for 5cts., 22 packets \$1.00, 50 packets \$2.00, and 77 packets \$3.00. These seeds are packed free, sent by mail post-paid and warranted to reach you in good condition. If mistakes are found I cheerfully correct them. Send your money with the order. I guarantee its safety. Sums under \$1.00 send in 3-cent or 1-cent stamps. Now, while I appreciate and am thankful for even the smallest order, I also appreciate and am thankful for orders that embrace the orders of flower-friends in a community, and any person who gets orders at 5cts a packet amounting to \$2.00 can get 10 extra packets, selected from my flower book; and to any person who gets orders for 60 packets at 5cts each, \$3.00, I will send 17 packets. So you see, it will pay you to see your friends and neighbors and swell your order to two or three or more dollars, and thus get a nice collection for your effort. Extra books and order sheets will be sent on request. Also, I will mail my Flower Book free to any of your friends. I would far rather have 5 or 6 names of flower-lovers than 100 promises.

My Flower Book is issued and mailed about New Years. It is not like ordinary catalogues, but prepared to give information that flower-loving people will appreciate. A glance at its pages will reveal its useful scope. I aim to give truthful descriptions, indicate in some degree how the flowers can be best used, their height, time of blooming, etc. I show many of the good things by clear wood-engravings, and do the printing in my own well-equipped printing office. No expensive colored plates are used, and the economy thus realized is put into larger seed packets and popular prices. I have conducted my business in this economical way since I began (1868), and expect to continue in that line as long as life.

Flower-loving people are the most delightful people in the world. I have enjoyed every day of my long period of dealing with them. Its a joy to me when the seed season comes around, and I always anticipate the many friendly letters that come to me from my big floral family. I wish them all success and pleasure in their floral work, and remain, as ever--the flower-lover's friend,

Greenwood, S. C., Season of 1934.

GEO. W. PARK.

An Old Patron.--Dear Mr. Park: In 1884 I bought a packet of mixed Biennials and Perennials from you, and they came up fine. Now, after 50 years, many of their progeny are still thriving and blooming each year. Digitalis, Columbine, Sweet William, and others. I am now 76 years young, and am sending a small order. Mrs. A. C. Terry, Susquehanna Co., Pa.

Appreciated.--Dear Mr. Park: The seeds I ordered from you have come up wonderfully well, and I am so happy to be able to have so many different kinds of flowers. Your prices are much appreciated. Mrs. R. E. Wagner, Multnomah Co., Ore., April 25, 1933.

Catalogue.--Dear Mr. Park: I have had very large catalogue experience, and I want to congratulate you on your issue this year. The amount of real information you have packed into it in an unusually interesting way is wonderful. Chas. Rimes, Morris Co., N. J., March 1, 1933.

Antirrhinum, Cheiranthus.--Dear Mr. Park: I wish to express my thanks for the privilege of being able to purchase such wonderful seeds at such a low price. I was delighted with my Snapdragons, they were so large and of such beautiful colors. The Cheiranthus Allioni also was fine, many inquired what they were. Mrs. E. Preston, Barnstable Co., Mass.

REMARKS, NOTES AND SUGGESTIONS

GOD'S LOVE, AND BEAUTY.--- "My Father in Heaven, help me never to forget Thy love to me. It comes with the light of the morning, and it remains with the light of the stars of the night. It looks up at me in the beauty of the flower. It shines upon me in the smile of a friend. All beautiful things are the gifts of Thy love. Help me to be thankful, and to link every beautiful thing with Thee. Amen." JOHN HENRY JOWETT.

My friends, are these your sentiments? If not, why not? PARK.

THE past year was not very favorable for the germination of seeds. The weather was either too wet or too dry to promote successful sowing. However, many of my friends have sent in favorable reports. The *Ostrowskia* has been more or less complained of, yet a number of those who got the seeds were successful in raising plants. The seeds are considered difficult to start, and are mostly very tardy. Many persons were too impatient and neglected to care for the seed-bed before the seeds had time to start. The beauty of the plant, however, should prompt the sower to not be too impatient. The same may be said of *Delphinium*, *Meeonopsis*, *Dictamnus*, *Helleborus*, *Adlumia*, and many other seeds. It is always well to consult the index page and note the time required for germination. Those periods are not to be relied on entirely, but mostly indicate the time approximately.

Some years ago I brought from Bohemia a cluster of Pricel berries the seeds of which I took from the fresh fruit and planted in a labeled row in the garden. I expected to see the plants in the Spring, but was disappointed. Next Spring I felt sure the plants would appear, but, do you know, one morning in the fourth Spring I was surprised and delighted to find the plants standing like a row of little soldiers, smiling in the warm sunlight. Well, it taught me a lesson in patience in sowing I have never forgotten.

Benary's Giant Gloxinias.---These are of surpassing beauty. The plants are robust and are of good habit, while the enormous flowers are of splendid form and display the richest, rarest, and the most exquisite colors, rare and beautiful and contrasted in the most striking manner. They are real eye-openers, and make the beholder stand speechless in wonder and admiration. 100 seeds 5cts.

Dear Mr. Park: I just want to tell you about the many Gloxinias I have raised from your seeds of Benary's Giants. They are wonderful. Some of the blossoms measure over four inches across. The ones I raised last year drew the blue ribbon at the Flower Show this August. The seed I sowed last March yielded plants that were in bloom in just six months.--Mrs. Jas. Farrar, Franklin Co., Vt., Oct. 2, 1933.

Gloxinias, etc., Dear Mr. Park: I have a nice lot of Gloxinias and Christmas Cheer Begonias coming on, and my Sweet Peas bloomed so profusely and were so beautiful that everyone admired them. Miss K. Dukes, Orangeburg Co., S. C.

The Eureka is a beautiful Violet (Page 47) but for some reason which I do not know but much regret, a portion of the seeds sent out last year were not true. Now I will gladly send another packet to those who received these untrue seeds when they order seeds this season, if they let me know of the error.

The *Browallias* are easily-grown and continuous-blooming plants, the flowers rich in color and very pretty. *Browallia Elata* blooms well in the garden in Summer and is sure to bloom freely in the window in winter. *Browallia Roezli*, though rare, is one of the loveliest, and should be better known. The flowers are larger than

VISCARIA OCULATA

those of *B. Elata*, and of an exquisite heavenly blueshade. It is a very beautiful pot plant, and always greatly admired. The little engraving shows a flower of this handsome *Browallia*.

See Pages 16 and 21.

Have you ever noticed how tardy volunteer seeds are in germinating? Seeds of Larkspur ripen and drop in early Summer, but lie dormant until late Autumn. The same is true of Corn

Flower, *Calandrinia* and *Nemophila*, all of which germinate promptly if properly cared for. Should this not give us a lesson in patience in raising plants from seeds? Conditions surely have a lot to do with success.

A little annual that is quite showy and is becoming popular in Europe is *Viscaria Oculata*. It should be grown in a mass, not too thick, but thick enough to cover the bed, say three or four inches apart. The colors are rich and pleasing, and mostly show an eye. The new Dwarf varieties are preferable and are very attractive in a bed, the little bright flowers appearing in great profusion. See illustration.

The seeds can be sown where the plants are to bloom. Sow in rows three inches apart and cover an eighth inch deep with a mixture of sand and rich loam, then make the soil firm by pressing with a brick. The plants will come into bloom in a few weeks. For more information, see pages 32 and 48.

The Calico Flower.—One of the most easily-grown and charming of pot vines is *Aristolochia Elegans*, a flower of which is represented in the engraving. It starts readily from seeds, has graceful stems and foliage, and begins to bloom the first season, the peculiar and attractive flowers three inches across being white, red, yellow, purple, and brown so distinctly contrasted as to merit the common name of Calico Flower. It thrives in a compost of rich loam, sand and well-rotted stable litter thoroughly mixed, good drainage being provided. Water freely while growing and shift into larger pots as the plants grow. Provide a trellis as soon as the plants show a disposition to run. This is one of the beautiful tropical vines that can be grown in the window in winter and set out in summer. 15 seeds 5c.

Columbine.—For a shady place the various species of Columbine are well suited, and a mixture of the seeds will produce many kinds, all of which are handsome. The seeds germinate in from one to three months, so do not neglect the bed until the plants appear. They thrive in a rich, well-drained soil, and bloom mostly in the Spring, the flowers being very graceful and showy, and of the various colors, blue, white, shades of red and yellow, and some strikingly variegated. See page 37.

Delphinium.—Perennial Larkspur, Delphinium, is one of our best perennials, coming in long trusses, and if these are freely cut to prevent seed formation the blooming period will be prolonged throughout the season. The seeds do not germinate very promptly unless sown soon after they ripen, and I supply them fresh in Autumn, to be sown at once. The same seeds,

however, germinate fairly well the next season but require from one to three months to start, and many persons neglect the seed-bed before giving the seeds sufficient time to start. My seeds are always of the latest crop and will always produce plants under favorable conditions. See page 39.

To Turn Hydrangeas Blue.—Water with alum water, a spoonful of alum to a gallon of water. Continue this practice until blue appears.

Starting Seeds in Boxes. Get boxes 18 in. long, 12 in. broad and 4 in. deep. Fill in an inch of well rotted stable litter, then two in. of sandy woods earth or fertile loam, the surface sifted and pressed. Press rows, sow, and cover with fine sand. This will ensure fine stocky plants and thrifty growth.

Anemone and Water Lilies.—Dear Mr. Park: I planted Anemone seeds bought of you last year and got 45 plants. They are blooming now and are beautiful. All of the Pink and Blue Water Lilies are up, seeds of which came from you in February. Mrs. Wm. Klocke, R. 8 Box 486A, King Co., Wash., May 8, 1933.

Note.—Anemone seeds are sown as other seeds, covering them barely a sixteenth inch deep. The water lily (*Nymphaea*) seeds should be sown in pots of good earth and covered a sixteenth inch with sand, and the pot then sunk in a tub or pond of water, the pot sunk two or three inches under the water. The water will be warmer and germination promoted by full sunshine. *Nelumbium* or Egyptian Lotus seeds are hastened in germination by having the shell filed enough to admit the water. The seeds are as large as a filbert and should be covered a half-inch deep. See page 59.

Stock, Bismarck Giants.—Mr. Wm. Macdonald of California is getting a lot of fame for his Bismarck Ten Weeks Stocks by exhibiting in England and securing awards and commendations from the Royal Horticultural Society.

These indicate the great value of his strain and the high quality of his seeds. The plants grow 2½ feet high, and every branch is tipped with a huge spike of big double fragrant flowers. The seedlings start readily and quickly come into bloom, showing a wonderful range of colors from white to scarlet, from lilac to rich blue, and from canary to golden

rose. Perhaps there is not another strain known that quite equals Macdonald's Giant Imperial Bismarck Stocks. They are glorious in beds and excellent for cutting. You cannot err in getting seeds of this grand strain of Ten Weeks Stock. It is simply incomparable. Exquisite mixture direct from Macdonald, all colors, 60s. 5c. Don't omit it. See engraving, also page 31.

Damping Off.—I speak of this trouble in my "Hints" sent with the seeds, but some who buy seeds do not read the "Hints" and when the plants appear they are lost by "damping off." This is caused by a microscopic fungus that covers the soil. It can be controlled by frequently stirring the soil. An application of unburned coal-dust or of a mixture of lime and sulphur, equal parts, is a remedy. Be prompt, or the fungus will destroy your plants.

Closing Remarks. It is always a pleasure to answer enquiries, but I regret the answers are not always prompt on account of pressure upon my time. In such cases I ask your indulgence.

With best wishes, GEO. W. PARK

NEW GIANT EVERBLOOMING CARNATION

I gladly offer the Improved Giant Everblooming Chabaud Carnations, developed by Vilmorin of Paris, France, and my seeds are direct from his gardens. The seeds start in from five to ten days, the plants begin to bloom in six months, and bloom freely and continuously. They are splendid for beds, and when grown in pots bloom well in the window in winter. The plants are stocky and strong, stool out into fine clumps, and produce terminal clusters of large perfectly double, deliciously fragrant flowers of many rich and charming colors. I supply the colors separately or all mixed. The seeds have been carefully tested and are of known vitality, and the high quality and genuineness are guaranteed by the character of the growers. I am confident these glorious big improved Pinks grown by Vilmorin will more than satisfy and please all my patrons. Be sure to place at least one or more packets on your list. These fine colors, 75 seeds 5cts., Complete Special Mixture 75 seeds 5cts.

- | | | | | | |
|------------|---------------|-----------|-------------|------------|-------------|
| Snow White | Sulphur | Magenta | Flesh-color | Copper-red | Blood-red |
| Rosy Lilac | Yellow-flaked | Rosy Pink | Scarlet | Ruby-red | Salmon-rose |

METTE'S MARVELOUS PANSIES

Last year I described Mr. Mette's Triumph of the Giants, a strain celebrated the world over for its size, variety, and beauty. The above fine wood engraving shows the charming ruffled character of the flowers. They are glorious Pansies and will surely please you. Seeds direct from Mr. Mette. 50 s. 5c., 1-32 oz 50c.

FRENCH DOUBLE PICOTEE

The handsome wood engraving represents a flower of the beautiful French Double Picotee. About 90 per cent of the seedlings yield double flowers, and the various lovely colors, richly mingled and contrasted, together with the exquisite fragrance exhaled, always elicit unlimited admiration and praise. 35 seeds 5c.

SOME NOTES AND SUGGESTIONS

Liquid Fertilizer.—To make a good liquid fertilizer get an open-end barrel or metal drum and fill it with water; then sack a half-bushel of fresh stable manure and, place in the water. To enrich the water, punch the sack with a blunt stick until the water shows color, when it is ready to use. The water must be freely used to prevent it from becoming stale. Water with this liquid about once a week and you will be surprised at the increased growth.

Platycodon.—This is a very beautiful and tenacious hardy perennial that blooms the first season when started rather early in Spring. The plants grow about 2 feet high, and bloom throughout the season, are large and showy, and thrive even in sandy soil and hot sunshine. They should be better known. It is also known as *Wahlenbergia* and *Campanula grandiflora* (See page 32.) A writersays in the Eng. Garden:

This is a fine plant for the rockery, its neat bushy, compact, but vigorous growth at once arrests attention. The beautiful blue and white flowers are freely produced, are quite large, and of the bell-shape form. E. G.

Oenothera Missouriensis.—This makes a splendid rock-work plant when grown in dry sandy soil and in full sun. In rich soil it grows too freely to bloom well. Its long trailing stems with narrow shining leaves makes it valuable. Starts readily from seeds. Hardy perennial. 50 seeds 5cents.

JACOB VIS

DAVID VIS

Vis Brothers.—On another page are the pictures of Father Vis and one son, and here are the other brothers. You must admit that they are all good-looking, and what is more, they are as good as they look, when it comes to growing good seeds of choice flowers. You can always bank on anything that bears the name of Vis. They are reliable Dutchmen.

Nierembergias.—*N. Frutescens*, 2 ft., is of easiest culture from seeds, begins to bloom in three or four months after sowing the seeds, and continues to bloom freely till after frost. In a mild climate it retains it's narrow graceful foliage throughout the winter, and begin to bloom in the Spring, soon becoming a waving mass of little cup-shaped flowers, appearing in the distance like a lot of fluttering butterflies. It is really one of the most desirable perennials, and should be in every garden. It is also fine as a pot plant. It's relative *N. Gracilis* is low and rather drooping and is a lovely house plant for the window or rockery. 750 seeds 5cts.

Obelisk Flower.—A beautiful but much neglected flower is *Obeliscaria Pulcherrima*. It has a high rich brown "Obelisk" center surrounded by broad velvety crimson drooping petals (see cut.) Each petal is distinctly margined with gold. It is a near relative of *Rudbeckia*, but more attractive on account of its odd and charming appearance. It is very easily grown, and if its merits as a showy garden flower were better known it would be popular. 200 seeds 5cts. See page 27.

Pyrethrum Roseum.—No garden should be without these handsome and useful flowers. Equally showy and beautiful are both single and double kinds, but the single command attention by their grace and elegance, points that are lacking in the double. The single kinds are extremely light and effective, and last a long time in perfection. Beds wholly devoted to these make a really telling display, and where cut flowers are required in quantity they are simply invaluable. F. J. in English Garden.

Double Pyrethrum

I offer *Pyrethrum* seeds from Vis Brothers' splendid collection, Single Mixed 250 seeds at 5c., and of Double Mixed 100 seeds 5c., James Kelway, the rich deep velvety crimson *Pyrethrum*, 100 seeds 5c. Don't fail to add these to your order.

I find the following in the English Garden: "I do not wonder that these are being much grown for cutting purposes, for they are easily grown and flower with great freedom. From one bed a friend cut over 5,000 flowers, and there were many blossoms still open. He had a deep, strong, sandy loam which suited the *Pyrethrums* exactly. Plants are easily propagated from seeds, and when large the clumps can be divided and firmly planted in well manured and deeply dug soil. To avoid slugs during winter place around the stems coarse sand or fine ashes, these being the best preventives."

Verbascum Phoeniceum hybridum.—A perennial Mullein, and one of the very best for mixed borders in small gardens, the flowers white, lilac, violet, rose, blue, and purple. It continues blooming from May till August, and is very striking. H. D., in Eng. Garden. 5c. P. 42

Silene Orientalis.—This is a very desirable Catchfly having large, dense clusters of deep rosy-purple blossoms and glaucous foliage. It blooms the second year. In dry soil it lives for several years.

Note.—I have found this a very attractive plant for beds, clove-scented and fine for cutting. It starts readily from seeds, and mostly self-sows. Compacta is an improved sort 18 inches high. 5cts. See page 31.

Selection
OF
ALL

THE BEST NEW SWEET PEAS

The Sweet Pea has all the good qualities of a perfect annual for general cultivation. It is of easy culture, growing in almost any soil or sunny situation, begins to bloom when small, and if freely cut the flowers will continue to develop for a long period. The flowers are of charming shape, rich and varied in color, delicate in texture, and all of the choice varieties offered are deliciously scented and borne on long stems, four or more flowers on each stem. There is a bewildering variety of named sorts, and to determine the most desirable sort in each color, the National Sweet Pea Society recently appointed a committee of expert specialists to select the very best varieties, and their report embraced the 16 named varieties I offer as the best and most distinct and beautiful of the entire list; you cannot, therefore, err in getting these finest varieties.

Avalanche, rich-frilled, pure white giant frs; best pure white.
Bonfire, soft cherry, white wings; huge frs well frilled; fine.
Fortune, rich indigo; immense finely waved flowers; outstanding.
Glen Eagles, true heavenly blue; big frilled long-stemmed frs.
Grenadier, intense Geranium-red; huge sun-proof, frilled frs.
Huntsman, sun-proof vivid scarlet; big, bold, 4 to stem frs.
Mary Pickford, lovely cream-pink with tan; huge, frilled, fine.
Olympia, vivid purple; glorious big frilled frs; robust, free.

Pinkie, clear rose-pink; long-stem mammoth frilled frs; fine.
Sunset, rose, amber and gold; like a sunset glow; a choice sort.
Supreme, exquisite soft pink; giant frilled long-stem frs; lovely.
Tangerine, improved; rich tangerine-orange, best orange.
Warrior, rich velvety maroon; big full-frilled, long-stem blooms.
Wembley, rich lavender suffused blue; extra in size and form.
What Joy, rich deep primrose; exquisite frills, the best yellow.
The Prince, intense glowing crimson; frilled; best crimson.

The above cream of Giant Orchid-flowered Spencer Sweet Peas, packets of 75 seeds 5cts., or the 16 varieties (16 pkts) 65cts., or 1 ounce of each (16 ozs) \$1.50. All are new seeds direct from the California grower. I also supply the following novelties:

Christmas Varieties

Apollo, soft salmon-pink, big beautiful, waved long stem frs.
Duplex Gem, (double) lovely pale rose; an outstanding duplex.
Fandango, duplex, bright pink big frs in 4's, long stems, fine.
Fragrance, mammoth clear lavender, the best of all; splendid.
Pal, an outstanding sort, entirely new shade, rich rose-crimson; big bold frilled blooms, fine.

Sweet Pea Novelties

Bonnie Briar, huge rose-pink frilled frs, showing a glint of amber; the finest of all rose-pink kinds. Awarded Silver Medal by Scottish S. Pea Society. 15 s. 5c.
Eleanor Blue, the fascinating new shade; big waved frs, profuse, 4 or 5 to stem; will displace the s. 15 seeds 5cts.
Little Bo Peep, dwarf (not a Cupid) 1 foot high, branching, for beds or pots; salmon-pink. 15 s. 5c.

Dear Mr. Park: The Sweet Peas I got from you last Spring were just lovely. I got that 65cts. offer you had of sixteen packets. Mrs. E. F. Roll, Ravalli Co., Mont., August 22, 1933.

Dear Mr. Park: The Sweet Peas and double Poppies were wonderful. Everyone thought the Poppies were giant Dahlias at a distance, they were so tall and the blossoms were immense. The Sweet Peas sold at 50 cents a bunch, and that was a depression price. Mrs. O. Dukes, Columbia Co., N. Y., April 12, 1933.

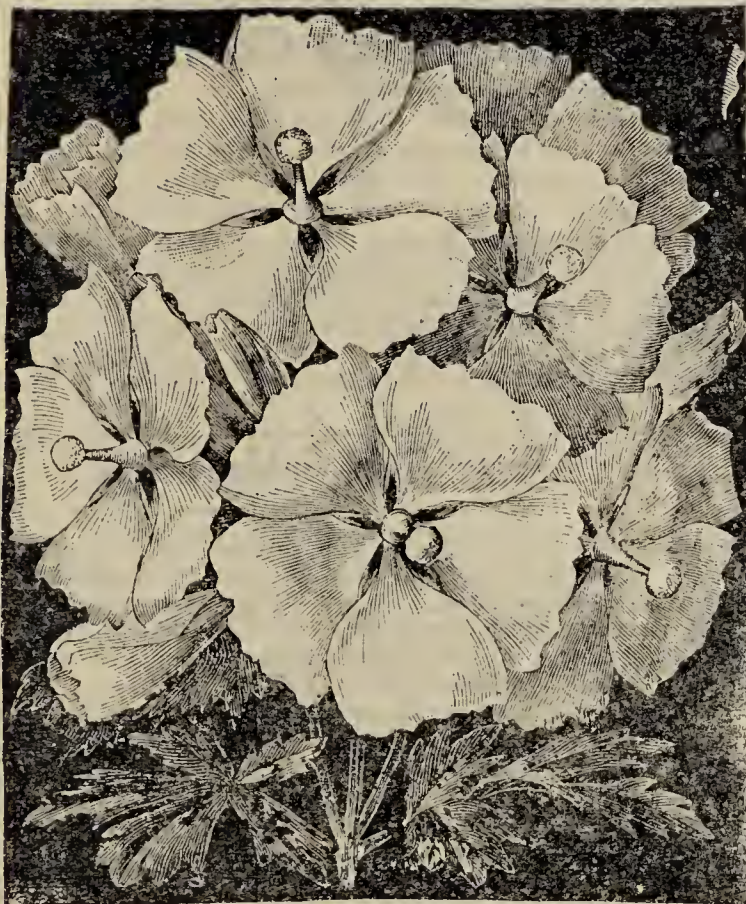

Dear Mr. Park: I find that flowers from your seeds are always outstanding. I made ten entries in the Flower Show and took five first prizes and four second prizes, the flowers being raised from your seeds. My Pansies, seeds purchased from you this Spring, are now a riot of color. They are wonderful. Also the Double Portulaca. I have too many to mention, but they are all fine. My Sweet Peas from you were extra fine. I did not see any finer at the Show. G. B. Cliff, Wasatch Co., Utah.

TOBACCO STEMS.—Chopped up, these are a first-class mulch, not only retaining moisture in the ground and enriching the soil, but is a reliable insecticide. Apply it to rows of Sweet Peas when they are a few inches high, and weave some into the wire trellis. It is a sure protection against lice. Apply them around Asters to kill root lice. Spray infested plants with tobacco tea as hot as the hand will bear, or dip the plants quickly into hot tobacco tea to rid them of insects. This is the mission of tobacco, a poison so active that one drop of nicotine will kill a dog. The stems can be obtained for a trifle from any cigar factory, or the plants are as easily grown as corn. Start seeds in a box or bed and transplant two feet apart. When in full bloom cut the stalks and hang up in a shed to cure. 1000 seeds Insect-killing Tobacco 5cents.

Beautiful Flowers and Delicious Fruits

Why not grow both on the same vine? You can do it by sowing seeds (15 seeds 5cts) of *Passiflora Edulis*. There is no more beautiful flower than *Passiflora Edulis*, shown in the illustration, and the large egg-shaped purple fruits, showy and pretty as a flower are delicious as a dessert. The foliage is also charming, and no vine will excite more admiration or praise, as well as curiosity and interest. Add it to your order. Seeds large and plants of easy culture. Following extract is from the English Garden:

It is hard to give a reason for the neglect of this vine for its fruit, as it bears enormous crops of most luscious fruits, a valuable addition to the dessert. Its culture is of the simplest, it requires but little care. It thrives well and bears three crops a year.--English Garden.

The Showy Musk Mallow

A showy and very handsome perennial of the easiest culture is *Malva Moschata*, shown in the engraving. Seeds germinate in five or six days, and the plants bloom freely the first season and remain, being a hardy perennial. The flowers are large and very attractive, pleasantly scented, and come in fine terminal clusters throughout the season. Young plants often spring up from fallen seeds. This is a splendid garden flower and excellent for beds or groups. The plants, two feet high, stool out, branch, and become a mass of big flowers, always showy and admired. You make no mistake in getting this fine perennial. It will please you and stay by you. Colors: Pure Rose and Pure White, Separate or Mixed, 200 seeds 5cents.

White Musk Mallow.—Those who would like to grow a beautiful white delicately scented hardy flower should get the white Musk Mallow. Its flowers are transparent and perfumed like musk. It will grow almost anywhere, flowers freely and continuously, and looks well in a cut state.--English Garden.

The rose variety is just like the white except in color. Both are beautiful.

Other Malvas.—*M. Mauritiana* is a handsome annual 5 feet high; flowers axillary, deep purple. Page 25. *M. Alea* is a perennial, 4 ft., bearing clusters of rosy purple fls, leaves palmate, light green, downy. See page 40.

A FINE BEGONIA FOR BEDS OR POTS

Christmas Cheer is a very desirable pot plant for winter-blooming, and one of the easiest to grow. The plants, started from seeds in the Spring, become globes of charming crimson-scarlet flowers, often two inches across, produced in elegant clusters. The plants do well in beds in summer, as well as in pots in winter. Directions for sowing these and other small seeds go with every package. Packets of 500 seeds 5cents.

Dear Mr. Park: Begonia Christmas Cheer came up in hundreds. I couldn't save all the plants, but succeeded pretty well. A mouse ate his supper off of my little *Primula Obconica*, so I must try them again. Mrs. C. O. Marlin, Wayne Co. O.

Dear Mr. Park: Seeds which I got from you this Spring have germinated nearly 100%. Plants are strong and rugged and I could not ask for any better. W. H. Crandall, Washington Co., R. 1., April 14, 1933.

Grand New Large Early-flowering Cosmos

An Annual of more than Ordinary Beauty and Utility

The old-fashioned Cosmos bloomed so late that Jack Frost came and destroyed the plants just when the buds were ready to open, but this trouble has been entirely overcome by the new Early-flowering race I here offer. The seeds start in five days, and the plants begin to bloom in about three months, and continue to bloom freely throughout the season, when not allowed to form seeds. I need hardly tell you that Cosmos are among the most graceful, showy, and beautiful of garden flowers. They are not only showy in beds, but are charming as cut flowers for room or table decoration. Plants grow three feet high, branch freely, and become veritable little trees of rich bloom. The graceful form and rich beauty of the flowers of this splendid race of Cosmos are well shown in the above handsome wood-engraving. Colors: White, Pink, Purple, Crimson, separate or mixed. 50 seeds 5cts. See also page 21. Don't fail to add one or more packets of this splendid Cosmos to your order.

New Giant Schizanthus

Finest of all Schizanthus

Several New Races of Schizanthus have lately been introduced, but the newest and finest of all are the Elegant Chislehurst Hybrids recently disseminated by Vilmorin, of Paris, France. These hybrids are readily grown from seeds, and can be sown in a bed to stand three or four inches apart, or grown in four-inch pots, three plants in a pot, for room decoration. The flowers are orchid-like, displaying lovely rich colors and variegations, and their beauty cannot be described—the flowers must be seen to give an idea of their exquisite beauty. The plants branch freely, and the clusters of charming flowers are produced in such abundance as to almost hide the pretty foliage. This is one of the good things of easy culture, and deserves a place in every collection. Don't forget it. 150 seeds 5cts. See page 31.

Marvelous Flowers.—Dear Mr. Park: The flowers I grew last year from your seeds were marvelous. I have never seen such Wallflowers and English Daisies. The Munstead Primulas planted in September are wonderful healthy plants, now in bloom. The Schizanthus grown in pots are two feet high and such a mass of blooms that the whole house is a mist of their lovely blossoms. I am highly pleased with your seeds and am looking forward to trying some of the things new to me. Mrs. H. C. Sloan, Orange Co., Calif., March 12, 1933.

A Good Rare Edging.—A lovely flower-edging can be obtained by the use of Gamolepis Tagetes, a rare little plant recently found in South Africa. It grows about six inches high, branching freely, and the bright golden flowers, fragrant and beautiful, are borne in such profusion as to almost hide the charming lacinated foliage. Seeds germinate in ten days, and the plants started in Spring bloom until frost. 100 seeds 5cents.

Benary's Super-Giant Double Petunia

This is the last word in Double Petunias. The flowers are of enormous size and marvelous beauty, each bloom a prodigious featherball, rich in color and deliciously scented. This surpassing strain has been developed by years of careful selection, hybridization, and culture. It is truly a "Triumph of the Giants" in huge Double Petunias. Mr. Benary is a specialist in Petunias, and this is his latest and best. It is simply a world-beater, and stands unrivalled. If you want something of surpassing beauty, get these Super-giant Petunias. New-crop seeds, which I receive direct from Mr. Benary, 25 seeds 5cts., 125 seeds 20cts.

Special Note.—I regard Benary's Petunias the finest in the world. They surely cannot be excelled. He has given them his best attention for years, and his seeds are always reliable. I offer them with entire confidence, feeling that they will give unbounded satisfaction to all who grow them. New-crop seeds direct from Mr. Benary of all except Hufeld's Canary Bird which are direct from Mr. Hufeld.

The seeds I offer of Giant Single and Double Petunias are from Benary who is a noted specialist. When in Europe, I visited Benary's and was surprised to see 50,000 potted Petunias on "stair steps" under open sheds, and especially at the huge size of the flowers and odd beautiful colors and variegations. I had never seen such Petunias before. All of Benary's fine Petunia seeds are saved from artificially fecundated blooms, and are absolutely dependable.

Alba, large white flowers, yellowish throat, fine.
Camilla, new pink, red veins, dark throat.
Canary Bird, Hufeld's handsome new yellow.
Dark Copper Red, new splendid analine red, perfect.
Fimbriata, tyrian rose, flowers fringed, superb.
German Empress, bluish white, veined violet blue.
King Alphonso, rich crimson, boldly ruffled.
Maculata, new, copper and white, blotched; rare.
Miranda, carmine, scarlet throat, waved, frilled.

Prince Wurtemberg, dark crimson, black throat.
Princess Wurtemberg, pink, veined purple, showy.
Quadricolor, pink, veined purple, yellow markings.
Yellow Throated, purple, rose, white, yellow throat.
Silver Rose, pink flushed rosy carmine, splendid.
Titania, rich dark crimson, white margin.
Semi-dwarf, fringed, new, splendid, mixed colors.
Benary's Prize Varieties Mixed, Single, 100 s. 5c.
Benary's Giant Double, 30 seeds 5cts.

Complete Special Mixture of above Superbissima, Ruffled Giant Petunias, pkt. of 100 seeds, 5c.

Further Remarks about Petunias

If I were limited to one flower with which to decorate my home I would choose Petunias. Plants start readily from seeds, endure moisture, drought, hot sun, cold, and neglect better than any other flower, and produce a wealth of big fragrant, rich colored flowers from Spring until frozen. Fine for pots in Winter, the new dwarfs blooming freely and perpetually.

For showy everblooming bedding plants I especially recommend the Vis Improved Compact Petunias. The flowers are not so large, but the plants become a waving mass of lovely flowers, sweet-scented and showy. They are splendid for beds, borders, baskets and pots, and bloom well in the window in winter.

Senator, rich violet purple, white throat, beautiful. | **Snowball**, a mass of pure white flrs., very floriferous.
Rose of Heaven, fiery rose, a favorite color, effective. | Any color or all mixed, 1000 seeds 5cts or 1-32 oz 15cts.

For a bed or border, set Senator 8 inches apart, then Rose of Heaven, and border with Snowball. 1-32 oz (about 9000 seeds) of each variety will cost 45cts. Start the seeds in a box or bed and transplant when large enough. The plants begin to bloom in a few weeks, and will bloom until after severe frost.

Petunias.—Dear Mr. Park: I am so delighted with my Petunias, of which you sent me seeds. I can't tell you how much I enjoy them, they are simply gorgeous. Mrs. G. L. Schafer, Wyoming Co., N. Y., July 2, 1933.

Dear Mr. Park: I raised the most beautiful Petunias I have ever seen from seeds of your Ruffled varieties. They were equal to any Petunia seeds for which I paid 25cents a packet. Mrs. Geo. Shondrick, Guernsey Co., Ohio, July 27, 1933.

The Golden Thistle.—This (*Scolymus hispanica*) is a striking plant two feet high, with very branching stems and variegated spiny leaves. It bears dozens of fine, showy flowers, and the long white-flesh roots, an inch thick, are eaten like Salsify or Cardoon, and can be lifted and stored for winter use. Sow and treat as Salsify. It's a "flower-vegetable." Do you want to try it? 100 seeds 5cts.

Pleased.—Dear Mr. Park: I had the prettiest flowers last year from your seeds I have ever grown. I used to buy of D., but find I get the same thing of you for much less money. Grace Fenn, Livingston Co., Mich.

TORENIA, Improved Large-flowd.

In 1876 a beautiful annual was found in Cochin, China that proved to be a species of *Torenia*, and it was named *Torenia Fournieri*, after the discoverer. This had charming blue and purple flowers, and was a favorite. However, under the skillful hand of florists it was improved in size, color, and form until we have, today, compact plants that bloom with great freedom, and develop huge flowers of various rich colors and variegations. These greatly improved sorts I offer here as follows:

Giant Princess of Montenegro, blue, purple, and golden yellow. 75 seeds 5cts.

Giant The Bride, lovely pink and white. 75 seeds 5c.

Giant Varieties Mixed, 100 seeds 5cts.

All *Torenia*s can be grown in pots or bedded out. They are well adapted for the South, where they thrive in the hot sun, or in dry soil that would kill many plants. A bed of *Torenia*s seen at a distance resembles a bed of Pansies. The plants start readily from seeds and do well in beds or pots. When grown in pots they are fine plants for the market. See p. 32.

Hufeld's Super-giant Daisy

When the *Monstrosa* varieties of *Bellis Perennis*, the double English Daisy, were developed we thought the last stage of improvement of that splendid perennial had been reached; but here comes that German hybridizer, Fritz Hufeld, with a Super-giant race that surpasses all others. He calls it "Le Grand Fuselier," and describes it as follows:

"This is the biggest English Daisy in existence. The enormous full-double flowers give rather the idea of a finely-formed Double Aster than that of an English Daisy. The first flowers measure from two to two and a half inches in diameter, being borne on strong stems a foot in length. This race is unsurpassed in regard to size and the perfect form of the absolutely double flowers." See eng.

I supply seeds direct from Mr. Hufeld, 300 seeds, Pure White, Pure Rose, or in Mixture, 5cents.

Also **Hufeld's Glory of Frankfort**, dark red, quilled, the only real dark red Daisy; makes a charming border, fine for cutting.

Hufeld's Giant Chevreuse, the new Italian Daisy, bears bright red flowers of enormous size.

A FINE CUT FLOWER

The new *Amberboa Muricata Rosea* is a hardy annual that deserves a place in every garden, not only as a showy bedding plant, but to afford flowers for cutting. Plants grow two feet or more in height, branch freely, and are covered with lovely bloom from July until October. The flowers are rosy-pink in color, two to three inches across, borne on long stems, and very graceful. See engraving. They keep well when cut, and are excellent to work into designs or bouquets. Add it to your order. 50 seeds 5cts. See page 17.

To Destroy Beetles.--To get rid of the beetles

that eat the Aster and Dahlia flowers, as also to destroy the Mexican Bean beetle, place some Slug-shot in a coarse sack and shake over the plants. The thin film of dust thus deposited is a complete remedy. "Slug-shot" can be obtained at almost any drug store. This is not a paid-for notice, but the remedy is so effective I want my friends to know of it.

A SPLENDID LASTING PERENNIAL

In the little engraving I show flowers of *Platycodon grandiflorum*, the Chinese Bell Flower. It is easily grown from seeds, and when established will last for years. Started early the plants will bloom the first season, and being hardy, will make a fine display in the garden, year after year. Plants grow about 18 in. high and bloom throughout the summer. If you want a beautiful lasting perennial, one that does not need petting, be sure to get this one. It will prove an annual source of delight to you and your friends. Colors: White, Blue, or both Mixed, 75 seeds 5cts., Dwarf White, Blue, or Mixed, 75 seeds 5cts., Duplex White, Blue, or Mixed, 40 seeds 5cts., Complete Special Mixture, 100 seeds, 5cts.

Platycodon.—This is undoubtedly of the first rank among the whole host of hardy plants. In no sense is it an every-day looking plant, even prior to the flowering, and still less so when the richly colored blossoms expand, for then it is one of the most valuable of choice hardy garden plants. It is deserving of all care, as it is deserving of all praise.—English Garden.

A RAPID VINE

Here is an attractive and handsome foliage vine represented in the engraving. It is *Humulus Japonicus Variegatus*, popularly known as Variegated Japanese Hop. Anyone can grow it from seeds, which come up promptly, and the vines will quickly cover a trellis, summer house or wall with the distinctly contrasted white and light and deep green foliage, dense and graceful. The flowers are small white clusters, but not conspicuous. As a foliage vine however, it is hardly excelled for hiding unsightly buildings or stumps, its rapid growth and density well fit it for the purpose. Sow in Fall or early Spring. It thrives in almost any soil or situation. Give support as soon as they begin to run. 50 seeds 5cts.

NIEREMBERGIA FRUTESCENS.—One of the most enduring and handsome of perennials is *Nierembergia frutescens*, a shrubby species from Chili. Easily propagated from seeds, the little plants soon begin to bloom, and keep blooming and increasing all season. They grow two feet high, become a mass of slender, flax-like branches and foliage. Their lovely cup-like blue and white flowers; an inch across, seen at a distance appear as a fluttering swarm of pretty butterflies. In winter the plants retain their handsome green color, and quite early they don their fresh foliage, and swing their exquisite chalcies to the breeze. My friends, if you want a charming everblooming perennial for either house or garden, here it is. I am sure if you knew of its beauty and usefulness you would not be without it. It thrives in heat or cold, rain or drouth, sand or clay, cultivated or neglected, has no enemies, increases from self-sown seeds, and is always profusely in bloom. It never tires nor sulks, but greets you with a nodding, loving smile every time you come into its presenee. Can you ask for more? Packets of 750 seeds 5cts.

CENTAUREA AMERICANA

I am pleased to call your special attention to a very charming American annual, *Centaurea Americana*. The plants spring readily from the large seeds, and bloom throughout Summer and Autumn. The plants grow three feet high, branch out well, and bear on long stems the large, elegant showy lilac-blue or lavender fls, showy in the garden and hardly surpassed for cutting, being about as lasting as a Corn Flower. The beauty and utility of this splendid annual for a garden show, as also for cutting recommends it to all, and it seems strange that it is not generally cultivated. The seeds are sure to start, and the plants sure to grow and bloom. The flowers resemble those of *Scabiosa Japonica* in form and color. 25 seeds 5cents.

The Glorious Sunset

You may apply this to the very attractive flower represented in the engraving. *Hibiscus Sunset* is an improved variety of *Hibiscus Manihot*, a species found in Eastern Asia. The plants start readily from seeds and bloom during Autumn, the big yellow flowers with a central crimson eye coming in clusters at the tips of the branches. May be grown in pots as well as garden beds. Plants grow from 6 to 12 feet high, and the flowers are from 6 to 7 inches across and quite attractive. 40 seeds 5cts.

I can also supply *Hibiscus Trionum grandiflorum*, the beautiful large-flowed "Flower-of-an-hour." 15 seeds 5cents.

Pot Marigold.—We sowed patches of this annual (*Calendula*) in the kitchen garden in April, and the plants began to flower in July, and kept in bloom throughout the season. At times they bloomed more freely than any other annual, and the large flowers were exceedingly showy. I do not know of a better late-flowering annual. J. Muir in English Garden.

Note.—I have all the improved varieties of the old Pot Marigold (*Calendula*). See pages 20 and 48. They are fine for window pots in Winter also. Park.

The Giant Spider Flower

Here is a first-class annual from South America, the finest of all the whole Spider Flower (*Cleome*) family. It grows three feet high and forms a pyramidal tree as shown in the engraving. The plant is clothed with charming green foliage, and the big spider-like flowers borne in elegant terminal clusters are of the most beautiful shades of white, lilac, rose, and glowing carmine-crimson. A group or bed in the garden or on the lawn is wonderfully attractive. It blooms freely from July until cut down by frost. Easily grown from seeds, and requires no special care. This is one of the good new things that deserves general cultivation. Why not add it to your list? 75 seeds 5c. See pg. 21.

Sanvitalia Procumbens fl. pl.—This very charming little annual might appropriately be called "Trailing Sunflower." It is one of the most beautiful and free-blooming annuals I have ever seen. It endures almost any treatment, and grows in almost any position. The flowers are not unlike miniature Sunflowers, and produced in such quantities as to hide the foliage. The seedlings begin to flower early in Summer and continue until October. English Garden.

Note.—The *Sanvitalia* is also fine for the Rockery, and resists drouth. It is a desirable annual. 100 s. 5c.

A Fine Golden Annual

A very beautiful golden-flowered annual is *Cosmea Klondyke*. It's massive lacinated foliage is dark green, and richly clothes the plant from the ground to the top. The big rich orange flowers come in masses at the summit late in autumn, at which time the plants have attained a height from six to ten feet, the top freely branched and very showy. This plant will retain it's foliage firm and unaffected during a drouth, while many other plants wilt and suffer. In a bed or border in the background this *Cosmea* can hardly be excelled for showiness and beauty. It should be a "must have" in every garden. 40s 5c.

A Grand Novelty

The New Tom Thumb Antirrhinum, Little Pinkie, grows seven inches high, branches freely, and is smothered with spikes of charming bright rosy-pink flowers, larger than most Tom Thumb Snapdragons. It is just the thing for rockeries, beds and edgings, and as a pot-plant for the window, it is hardly excelled. It's a little beauty You'll like it. Direct from the originator. 100 seeds

5c. For other beautiful Snapdragons see pages 18 and 52.

A Charming Garden Annual

This double-flowered *Gaillardia* is one of the most free-blooming, showy, and beautiful of our Summer annuals. The plants start readily from seeds, begin to bloom early, and continue blooming until the ground freezes, rivaling the *Calendula* and *Pansy*. The flowers are produced on long strong stems, are double to the center, as large as a *Chrysanthemum Aster*, and come in rich colors, white, cream, yellow, red, variegated red and white, and red with yellow. If started in midsummer the plants will bloom during autumn, endure the winter, and make a fine display the next season. The flowers are showy in the garden, and last well when cut for bouquets or floral designs. This is one of the good things that every gardener should have. Once planted, it will take care of itself by volunteer plants. It is not only valuable as a garden flower, but excellent for cutting, as it has long, strong stems and lasts a long time in water when cut. I offer new-crop seeds of Benary's Special Mixture, all colors, 50 seeds 5c., See page 23. Be sure to add it to your list.

A Splendid Novelty

Here is a new race of *Giant Streptocarpus* Hybrids that will be eye-openers to many who grow fine window plants. For thirty years the European plant-breeders have been hybridizing and selecting, using the finest known species and varieties; and these earnest efforts have resulted in a magnificent strain of Hybrids, the flowers of which are surpassingly beautiful in size, form, rich and varied colors, and free and continuous-blooming. The foliage, too, has been more or less improved.

These new and beautiful Hybrid *Streptocarpus* are as easily raised from seeds as *Gloxinias*, and the seeds are of *Gloxinia* size, so of course, must be carefully sown. Started early in Spring the plants will begin to bloom in August and will continue freely in bloom till Winter. The flowers are trumpet-shaped, about 2 in. long, very graceful, and wonderfully varied in color, ranging from white to rich blue and crimson, the throat and lower segments often splashed with white or purple. You will be more than pleased with these glorious new flowers, and when in bloom in your window they will be the wonder and enthusiastic admiration of all who pass. If you grow *Gloxinias* and *Calceolarias*, don't fail to get this. 150 seeds 5cts.

Notes, Extracts from Letters, Etc.

Mimulus Duplex.--The little engraving shows a flower of this pretty, free-blooming *Mimulus*. Seedlings come quickly into bloom and in a sandy soil and shady situation branch and display their lovely flowers, yellow richly spotted with brown. Those who are fond of odd and handsome flowers will find this a desirable addition to their collection. Any person can grow it either indoors or in a shady bed, and it is always admired. 1000 seeds 5cts. See page 26.

A Good Investment.--Dear Mr. Park: I do not know of any investment which has brought me greater delight than the \$2.00 which I invested in seeds from you this spring. Plants which I always supposed were only for the expert in a well equipped conservatory have become mine in my own modest flower room. I could not have such as *Achimenes*, *Gesneria*, *Tetranema*, and *Streptocarpus* at the price of some seedsmen. The *Freesia Ragioneri* germinated 100%. Friends to whom I have recommended your seeds were also well pleased with results. Rev. R. H. Walker, Chester Co., Pa., Aug. 28, 1933.

All Germinated.--Dear Mr. Park: I would like to take this opportunity to thank you for your generosity and the excellent service given all orders. Of the 75 varieties of flower seeds ordered from you this Spring I haven't had a failure as far as germination is concerned. All the little plants are stocky and of good color. I am eagerly awaiting the flowering period. Mrs. F. V. Wiltsie, Onondaga Co., N. Y., May 1, 1933.

Note.--The fact that Mrs. Wiltsie was successful with so many seeds reflects more credit to her skill, care, and patience than to the vitality of the seeds, for the same seeds sown by someone else might have been a complete failure. I regret to say that I get an occasional complaint saying "I sowed 50 packets of your seeds and failed to raise one plant from them." It simply annoys me to know that 50 packets of my good seeds have been wasted by the carelessness and slovenliness of the sower.--Park.

Salpiglossis.--It is impossible to exaggerate the beauty of this old-fashioned but too much neglected annual. The flowers have almost the appearance of jewelled enamels, and vary very much in color, from straw to beautiful purple and gold. It grows tall, and is best where it can rest upon other annuals or bestaked.--E.G.

Always Good.--Dear Mr. Park: When I was a child my mother used your seeds in her flower beds, and she still says, "you can't go wrong with Park's Seeds." Mrs. A. E. Dauphinee, Barnstable Co. Mass., April 12, 1933.

Skimmia Japonica. This is not grown as a window plant so much as it deserves to be. It is a capital subject for cool rooms, corridors, and similar places, where the berries are safe from the attacks of birds. Being of slow growth, it may be kept for several years in the same pot.--English Garden.

New Double Daisy. I ask special attention to the new Giant Double Daisy described and illustrated on page 10. The seeds I offer come from the great German florist, Mr. Fritz Hufeld, and the enormous size and rich beauty of the flowers will doubtless surprise and please all who grow them. It is not often I can offer such a grand novelty as this splendid big Daisy, and I trust many of my friends will avail themselves of it. It's a perennial of more than ordinary merit. 5c. For full description see page 10.

Vis' Super Giant Pansies. See page B. They're the largest and finest Pansies in the world.

Was Skeptical.--Dear Mr. Park: I am much pleased with your seeds. I confess I was skeptical about choice seeds for 5cents, but had better luck with them than with those I paid a big price for. I have been telling my friends about them, and will send for more in the Spring. Mrs. R. E. Hair, Ingham Co., Mich.

Erysimum Pulchellum.--A very pretty little hardy perennial is *Erysimum Pulchellum*, a near relative of the Wall-flower. The plants are a foot high, tenacious, and in the Spring are covered with clusters of beautiful yellow flowers as shown in the little illustration. For an edging or for the rockery it is very desirable. It thrives in good soil and partial shade. 200 seeds 5c. See page 57.

Carnation Grenadin.--It is strange that this beautiful *Carnation* is not generally grown, especially by florists, as it is invaluable for bouquets, button-holes, and table decoration. It is astonishing what a quantity of bloom even a single plant will produce. The seeds should be sown in Spring in fine loamy and leafy soil, water sparingly until the plants appear. Treat as an annual.--English Garden.

Note.--*Carnation Grenadin* is a hardy sort blooming the first season. I can supply the seeds in colors: White, Scarlet, and Rose, Separate or Mixed, 50 seeds 5cts. See page 38.

Gilia Tricolor.--Have you ever seen this exquisitely beautiful little annual? Sow the seeds in Spring and the lovely bloom-clusters will delight you throughout the Summer. The

flowers are yellow, violet, and white strikingly contrasted. It is one of the good little things that should be in every garden. 800 seeds 5cts. See page 23.

A Pretty Bog Plant.--*Myosotis Palustris Semperflorens* is a very pretty plant for the edge of a pond or stream, and takes care of itself when once established. It is not showy, but its modest little blue clusters, illustrated, are in evidence continually from Spring till snow flies. It revels in shade and moisture, and is just the plant for a shady nook in the rockery. See page 26.

For a Hanging Basket. *Linaria Cymbalaria* is a lovely plant for a hanging basket, drooping in long flowered festoons. It's easily grown from seeds, and does well in the sunshine or in dense shade. It is also fine to cover a *Gladiolus* or *Rose* bed, shading the ground, promoting the growth and health of the plants.

Another very beautiful plant for a bracket pot is *Panicum plicatum variegatum*. It has admirable foliage and droops very gracefully. Still another fine plant is *Asparagus Sprengeri*. The seeds are a month or more in starting, and the plants grow slowly, but are tenacious and increase with age. The beauty of this plant is enriched by the scarlet berries that are so freely borne in autumn.

Saponaria

Saponaria Ocymoides is a hardy perennial of great beauty, blooming in clusters so freely as to form a carpet of lovely pink color. For the rockery and beds or edgings it is hardly surpassed; full of bloom on Decoration Day, and excellent for the cemetery. Easily grown, blooms 2nd season. 500 s. 5cts.

Bodger's Aster

These are all Wilt-resisting, and when you sow them you can depend upon having fine flowers instead of wilted plants and dried up buds. Cultivate every fortnight till the buds appear, then muleh the bed liberally with chopped tobacco stems to kill lice and enrich the soil. Mixture 150 seeds 5cts.

Vinca Rosea

A beautiful, free and continuous-blooming plant for beds in the Summer and for pots in Winter is *Vinca Rosea*. It endures the hot sun, drouth, and wet spells, and has no enemies. It is a "must have" when known. White, White with eye, Rose, Carmine, separate, 250 seeds 5cts., all mixed 500 seeds 5cts.

Martynia

Vigorous, rather prostrate annuals 2 feet, that propagate from self-sown seeds when once introduced. The flowers are showy and handsome and borne in terminal racemes. Colors: Fragrans, Lutea, Tricolor, and Proboscidea. Sep. 15 seeds 5c., all mixed 25 seeds 5c. See page 25 for other splendid varieties.

Nasturtium

In Europe I saw Dwarf Nasturtiums used for beds and borders, and was surprised at their showiness and beauty. Why not in America? They are easily grown. Sep. 30s. 5c., mx. 50s. 5c., oz. (about 250 s.) 15c., 1/4 lb 50c.

Sweet Alyssum

Little Dorrit, is a splendid everblooming annual for beds, edgings and pots; a mass of white sweet bloom all season. A lovely window plant in winter. Little Dorrit is perhaps the best of all for a white carpet or edging, as well as for pots. See page 17. 300 seeds 5cents.

Virginia Stock

This charming, free and perpetual-blooming annual should be more popular for beds as well as pots. It blooms freely in lovely clusters (see cut) and the flowers are bright and showy. They are also fine for window pots for winter-blooming. Sow where plants are to stand and thin out; it is more showy in masses; blooms till after severe frosts. Red, white, crimson, carmine, yellow. Each, 1000 seeds, 5cts., all mixed, 1500 a. 5cts. Sec page 32.

FOR BEDS.—In Europe the Tom Thumb Compact Hybrid Dahlias are becoming popular for beds. The plants grow about a foot high, stool out and branch (as indicated in the engraving) and the exquisite and showy single and double blooms come in great abundance and make a grand display. The plants are as easily grown from seeds as a Zinnia, and come into bloom about a season. No insects trouble them, and if watered during a drouth they will bloom continuously throughout the season. I offer a fine strain of the finest seeds, and 80 per cent of the plants will be true. Colors: white, yellow, crimson, pink, scarlet, and variegated, single but often showing double flowers. Finest Mixture, all colors, 5c. 5 packets for a large bed 20cts. Page 22.

Agatheae Coelestis.—As a winter flower, the charming Daisy-like blossoms of this are very beautiful, the color good and the flowers on good stems. Few things are more profuse flowering. Particularly is this true of old plants that have been cropped over once or twice during Summer. Such plants grown in 8 inch pots will yield a surprising lot of bloom, useful alike for small vases or table decoration during winter. The plant is easily managed. English Garden. 50 seeds 5cts. See page 43.

PARK'S SPLENDID SPECIALTIES

All New-crop Seeds, Best Quality.
 One Packet 5c. 22 Packets \$1.00, 50 Packets \$2.00.

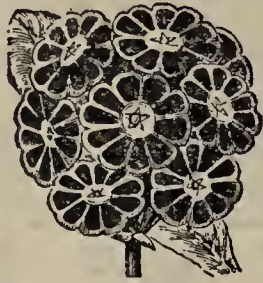

Giant Aster

Mette's Giant Prize is the grandest Aster in cultivation. Mr. Mette, the famous seed-breeder says so, for he grows all kinds. Plants 3 feet high; big fluffy Chrysanthemum-like flowers up to 8 in. across; marvelous colors. If you want the best Aster here it is in Mette's seeds; you'll not regret having them

Browallia

The New Beautiful Browallia Viscosa is like B. Elata, but the fls. are larger, much richer blue, and more freely produced. Good for pots or beds, ever-blooming and fine for winter-blooming in the house. Pinch the tops off to promote a strong bushy growth. It is of the easiest culture. It's a good thing.

Auricula

Beautiful beyond description are the big clusters of Kelway's New Giant Auricula, each flower 1 1/2 in. across, exquisite in color and variegation. I offer seeds of this grand plant direct from Kelway, the originator. Treat as a Primrose and the flowers will be a glorious surprise to both you and your friends.

Balsams

Benary's Camellia-flwd. Balsams are as double as Camellias, are like Camellias in form, waxy in texture, and of the most varied colors. Mr. Benary has given this flower his special attention for years, and his strain is unsurpassed. Plants 20 inches high, becoming wreaths of rich flowers. Don't omit this.

Carnation

Vilmorin's New Giant Carnation is decidedly the finest of Carnation Pinks. Seedlings bloom early and continuously, the huge fls. full-double, richly scented and of exquisite colors; fine for pots or beds, hardy, easily grown. Be sure to add it to your order; it's indispensable. A good winter bloomer.

Coxcomb

Benary's Improved Dwarf Glasgow Prize Coxcomb is a splendid bedding plant. Seedlings start easily, begin to bloom early, and improve in beauty until frost. Set 8 in. apart; the big crimson combs a foot broad seen against the lovely foliage is showy and greatly admired. Seeds direct from Benary. Fine for pots.

Cineraria

If you want a magnificent display of window flowers in winter get seeds of Kelway's fine strain. Plants start readily from seeds, grow freely, and come into bloom in a few months. They are compact, bear immense fls. of richest colors and variegations, and the big trusses of bloom last for weeks.

Gaillardia

Gaillardia Lorenziana fl. pl. is an everblooming annual a foot high, branching each branch bearing a big double flower, like a Calendula, lasting for weeks. Colors: white, yellow, red, cream, red tipped with white, scarlet white tip. All in Benary's special mixture I offer. Plants bloom till winter.

Cyclamen

Among blooming pot-plants for the window in winter Vilmorin's Improved Cyclamen are hardly excelled. Almost every seed will produce a plant; the lovely waxy flowers show many exquisite colors. Plants have handsomely marked foliage, and bloom throughout the winter. My seeds are fresh.

Annual Phlox

Drummond's Phlox, a favorite for many years, has been greatly improved. The plants are now dwarf and compact, produce larger flowers in larger trusses, and the new colors and variegations are marvelous. For pots or beds they are glorious masses of rich bloom; last for months; showy and beautiful.

Gloxinias

The last word in Gloxinias is Benary's Giant Strain. There is nothing better known. The flowers are of monstrous size, exquisite colors, and variegations. Pure white, red bordered white, deep violet with white border and spotted throat, white and pink, vivid scarlet with white throat, azure blue, mix.

Schizanthus

Recently improved hybrids of Schizanthus have been introduced, but their flowers never appealed to me until the Chislehurst Giant Hybrids appeared, and I confess it was a case of "love at first sight". I enthusiastically declared they far surpassed all others. Get seeds I recommend; you'll thank me.

Dianthus

Nobilis, fl. pl. the glorious Royal Pink. Plants bushy, thrifty free-blooming, flowers large, full-dble, of fine form, showing rich lovely colors from white to deep crimson, exquisitely variegated, and splendid in beds, fine for cutting. This is one of the most beautiful of Pinks, the seedlings bloom early, abundantly and continuously the first season. Fine mixture. 100s.

Tithonia

Speciosa. A beautiful half-hardy perennial, blooms freely the first season; grows 12 feet high, branching, and each plant becomes a pyramid of elegant rich scarlet flowers the size of a Zinnia. 35 seeds 5c.

Dear Mr. Park: You really should have seen my Tithonias. People raved over the unusual flowers. Your seeds are fine I'll tell the world so. Mrs. J. Hogge, Warwick Co., Va. 1933.

Nasturtium

One of our most showy and beautiful annuals. Seeds start readily, plants grow thriftily, and each becomes a globe of lovely, fragrant flowers of all colors from pearly white to darkest crimson, many charmingly variegated; are splendid for beds and table decoration. Dwf., mixed 50.

Pansy for Beds

There is no more charming or attractive flower for beds than Vis' Bedding Pansies. Plants should be 5 in. apart, and the large, bright, deliciously scented flowers make a glorious carpet. Started early the plants bloom in June and later sown in September they bloom early in spring.

Amaranthus

Sunrise.—This is one of the showiest and most beautiful of variegated-leaved annuals. The plants grow three feet high, the foliage is bright crimson and golden yellow richly contrasted with green. Will grow in rather poor soil and in full sunshine the colors become more brilliant.

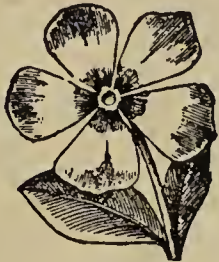

Mignonette

This is not a very showy annual, but its handsome spikes of bloom are freely and continuously produced, and the rich odor from the flowers makes the garden air sweet with perfume. The plants grow a foot high, branch into a mass of foliage, with fragrant spikes, red, white, yel.

Vinca Rosea

This is a half-hardy perennial, but seedlings start quickly and bloom freely and continuously the first season. The beautiful Phlox-like clusters, come at the tips of the richly foliaged branches and are showy in pots or beds. The plants revel in the hot sun, and stand dry weather.

Mirabilis

This is so easily-grown from seeds and so beautiful that it is always in a list of flowers for children. The plants start quickly from seeds, soon come into bloom, and every evening and morning show an array of beautiful frs. in many lovely colors and variegations. Mixed. See page 26.

Kaulfussia

This is a lovely little hardy annual six inches high, and form a compact tuft of foliage, making a carpet of purple, azure, white and crimson, showy and beautiful. If Gladiolus bulbs are set among the plants the beauty of the bed is enchanted. Colors separate or mixed. 150s. 5c.

Godetias

These are hardy annuals of great beauty in beds and borders. They grow a foot high, branch and bear their large, showy flowers in abundance, the colors being white, rose and crimson in many shades, some prettily spotted and blotched. The flowers are both single and double. 5c.

Petunia

I offer here Benary's finest seeds of Double Lilliput Petunias. Each packet contains 75 seeds saved from carefully hand fecundated flowers; plants will yield 50 per-cent fine double flowers. These frs., not large but fragrant and freely produced; fine for beds or pots. All colors, 5c.

Carnation

Chabaud Everblooming, Sluis Bros. Holland Distinct strain. Very large double richly-scented frs. of the finest texture. Seedlings bloom perpetually in six months. Plants robust, very free blooming, 90 per cent double; fine for beds or cutting; hardy. Extra Select, all the fine colors, 75s

Don't waste your money on old seeds. Park's seeds are always of the new crop. They grow.

B

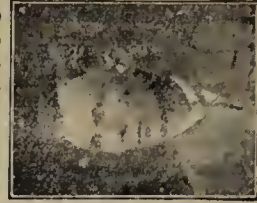

Vis Brothers' New SUPER-GIANT PANSIES

The Largest & Finest of all Pansies
When the Swiss Roggli Pansies were introduced we thought the acme of size, color and variegation in Pansies had been reached. They were indeed wonderful. But we are now surprised to find a strain developed by Vis Brothers of Holland that surpasses everything hitherto known in Pansies. The flowers are not only giants, but Super-giants, their size being enormous—larger than all others, and what is more, they include a range of colors and variegations that have never been approached in giant Pansies. Messrs. Vis have grown the seeds for me from special re-selected plants and flowers. Not a seed has been saved for me from what might be termed inferior flowers in size and color even in this grand strain. My seeds can, therefore, be absolutely relied upon to yield the finest—the very finest Pansies in the world without any exception. Price: 50 seeds 5c. 1-32 oz., 50c.

Dear Mr. Park: I find your seeds first-class. My Pansies last year were the largest and most beautiful I ever saw; some as large as a tea-cup, and all of the loveliest colors. Mrs. C. W. Harden, Iowa Co., Iowa, March 31, 1933.

JOHN VIS, SR.

JOHN VIS, JR.

News Item.—Years ago Mr. John Vis, Sr. began the growth of Pansies as a specialty. The Holland climate, cool and moist, he found especially adapted to their culture, and he began to improve them in size and color until he became famous as a Pansy-grower. Later his three sons, David, John Jr., and Jacob grew up in the business, all devoting their best efforts to pansy development. The result is that what they don't know about Pansy development is hardly worth knowing. They thoroughly understand their business, and their Super-giant Strain is a World-beater—a strain that surpasses all other known Pansies. This firm is absolutely honest and dependable, and their name attached to any flower is a surety of its superior value. It is a pleasure for me to introduce and picture to you these reliable seed-growers of Holland.

PARK'S CHOICE Dependable Flower Seeds

Part One - Annuals and Perennials Blooming the First Season

NOTE: Feet or Inches tell the height of the plants; ha, hardy annual; hha, half-hardy annual; hb, hardy biennial; hhb, half-hardy biennial; hp, hardy perennial; hhp, half-hardy perennial; wa, window-garden annual; wp, window-garden perennial; figures at end of description indicates the number of seeds in a packet.

TERMS: 1 packet 5 cts.; 22 packets \$1.00; 50 packets \$2.00; 77 packets \$3.00; 130 packets \$5.00, all mailed. Safe arrival of both money and seeds guaranteed.

☞ Always name a few substitutes in case of shortage; otherwise due cards will be sent.

☞ 3-ct. Postage Stamps will be accepted for small sums. All orders given prompt and careful attention. Any errors cheerfully corrected.

☞ I am always glad to hear of the success of my patrons, for their pleasure is more to me than their money. Address GEO. W. PARK, Greenwood, South Carolina.

ABRONIA Umbellata, Sand Verbena, hha, 1ft. Sweet lilac fls.; likes sun and sand; rockery or beds; remove husks in sowing. 20 seeds.

ADONIS Aestivalis, Flos Adonis, hha, 1ft. Rich red flat petals, fringed foliage; for beds. 100 seeds.

Alepica, hha, 1ft. New; vivid red flowers 3in across; showy in beds; start tardily, can be fall-sown. 20 s.

Autumnalis, Pheasant's Eye, hha, 1ft. Intense red with black eye; coneave petals; good for beds. 100 s.

AGERATUM, Mexican Floss Flower, hha, 18in. Showy, everblooming, the brush-like little fls in clusters; fine for masses in beds; blue and white.

☞ The following are improved varieties, about 6in high, dwarf and bushy, well suited for beds and edgings. Little Blue Star is a miniature. About 500 seeds.

Blue Ball, large-flowered dark blue, compact habit; re-selected; regarded as one of the finest.

Blue Perfection, free-blooming, mauve, compact; a fine variety.

Fraseri, deep amethyst-blue, dense habit; early, free-blooming; popular for beds.

Little Dorrit, azure blue, compact; also white, fine.

Little Blue Star, small blue fls in great profusion, dwarf and compact, miniature.

Imperial Dwarf Blue also **Imperial Dwarf White**, popular sorts for edgings and beds.

Mauve Beauty, large mauve fls, dwarf, compact, very free-flowering; fine English variety.

Princess Victoria Louise, light blue with white center; very free-flowering, compact, beautiful.

Swanley Blue, large free-flowering; compact, very fine deep blue, an old fine bedding sort.

Capella, dense umbels of beautiful chamois flowers. Complete Special Mixture of all, 700 seeds.

AGROSTEMMA Coeli-rosa, Fringed Crimson, hha, 1ft. Rose of Heaven; free-blooming; very showy and beautiful in masses, also white and mixed. 750 s.

ALONSOA, hha, 1ft. Beautiful free and continuous-blooming, for beds or pots, fine. 200 seeds.

Albiflora, white; **Linifolia**, scarlet; **Gracilis**, scarlet, for pots; **Miniata**, dwarf, rich red; **Mutisii**, dwarf, chamois; **Myrtifolia**, 2ft., carmine; **Warscewiczii**

Compacta, brilliant tomato-red, fine. Separate or in Complete Special Mixture.

ALTHEA Semperflorens, Annual Everblooming Hollyhock, ha, 6ft. Started in March plants bloom freely in autumn; single, mixed colors. 50 seeds.

Double, saved only from fine fls, mixed, 25 seeds.

Double Fringed, fls beautifully fringed, mixed. 25 s.

Double and Single in splendid mixture. 50 seeds.

ALYSSUM Sweet, ha, 6 inches Everblooming, white, sweet clusters, a mass of bloom throughout the season; splendid for beds and edgings. You can hardly keep house without it. 1000 seeds 5 cts, ¼ oz. 10 cts.

Common White, trailing, free-blooming. Oz. 25 cts.

Carpet of Snow, procumbent; fine for beds.

Lilac Queen, compact, erect; lilac flowers.

Little Dorrit, improved Gem, erect; dense; long and free-blooming; best for edgings, beds or pots. The little plants are a perpetual sheet of sweet bloom.

Minimum, 2in, grows close to the ground.

Primrose Queen, 4in, rich primrose color; new. Complete Special Mixture, ¼ oz. 10 cts, oz. 25 cts.

AMARANTHUS, hha. Very showy plants easily grown from seeds. I offer the finest sorts, and the mixture affords much pleasure; attractive in beds and groups, and make a fine display for months. 300 s.

Abyssinicus, 6ft. Bold, showy plants; bear long red drooping tails; fine for beds

Bicolor ruber, 3ft. Base of leaves fiery red, upper half maroon; for pots or sunny beds.

Amabilis Tricolor, 3ft. Rose, gold and glowing red; variegated; good for pots or groups.

Caudatus, Love Lies Bleeding, 3 feet. Long pendent red tails, also white, rich in beds; fine for decorating.

Coleifolius, Firebrand, 2ft. Resembles Coleus.

Melancholicus ruber, 1ft. Red foliage; for beds.

Monstrosus, Giant Prince's Feather, 4ft. Rich red flowers on densely packed erect spikes.

Salicifolius, Fountain Plant, 3ft. Elegant for pots. When full-grown the long graceful wavy leaves are brilliantly tipped with orange, carmine and bronze.

Tricolor Splendens, Joseph's Coat Improved, 2ft. Richly variegated yellow, green and red, easily grown.

Tricolor Aurora, 2ft. Red, yellow and dark green, with a large rich earmine head; very showy.

Speciosus Aureus, Golden Prince's Feather, 2 feet. Elegant golden spikes; showy in borders, fine.

Sunrise, 3ft. A beautiful variety of the Tricolor family, the foliage is green, yellow, brilliant red, showy.

Oriflamme, 2ft. Umbrella Amaranthus; the massive top leaves rich carmine; fine for pots or beds.

Complete Special Mixture all varieties. 500 seeds.

AMBERBOA Muricata Rosea, ha, 2ft. Rose; very free-blooming; fls single, Aster-like, 2in. across long-stemmed, useful for cutting; a splendid easily-grown garden plant. 50 seeds.

AMBROSIA Mexicana, ha, 2 feet. Feathered Geranium. Very fragrant, fern-like foliage, dense spikes of small yellowish green flowers. 200 seeds.

ANAGALLIS Grandiflora Pimpernel, hha, 6 in. Charming dwarf annuals for pots, beds and edgings.

Plants compact, very floriferous and blooms from May till Fall. Intense Blue, Deep Vermillion. Red, Flesh and mixed. 300 seeds.

ANCHUSA Affinis ha, 3ft. Azure Blue, 50 seeds

Barrelieri, hp, 2ft. Blue with white tube and yellow throat; in clusters; earliest, blooms in May, 30 seeds.

Capensis, Cape Forget-me-not, hb, 2ft. 50 seeds.

Italica Dropmore, hp, 3ft. Lovely gentian blue; an improved Italica; showy in beds, fine to cut. 35 seeds.

Lisadel, hp, 3ft. New, large rich blue fls. 25 seeds.

Sempervirens, hp, 2ft. Rich blue in short spikes. 30 s.

NOTE: All Anchusas must be started early to bloom the first season. The flowers are good for bees, beautiful in beds, and the long, loose sprays are fine for bouquets. The plants thrive and bloom in any garden.

ANEMONE Coronaria, St. Brigid, Kelway's Strain; the beautiful Poppy Anemone, hp, 1ft. Very beautiful tuberous plants, the fls large, Poppy-like in many rich colors; seedlings bloom in six months, and plants can be had in bloom according to the time seeds are sown; remove the cotton from the seeds before sowing. Plants like a sandy, well-drained loam and partial shade. Kelway's Langport Strain is unsurpassed, the flowers being double, 50 seeds.

BARTONIA Aurea, ha, 2 ft. Large, showy golden flrs; fine; likes sun and sandy soil. 500 seeds.

BELLIS, See Daisy, page 22.

BIDENS Dahlioides, hp, 2 ft, Compact, free and long-flowering; flrs of various colors. 60 seeds.

BOLTONIA Glastifolia, hp, 4 ft. A branching, free-blooming autumn flowering plant; flowers daisy-like, an inch across, white flushed lavender. 150 seeds.

Latisquama, hp, 2 ft. Aster-like, free-blooming, showy violet flrs. Not unlike Perennial Aster. 150 s.

BORECOLE Excelsior, hb, 2 ft. Striped curled. Palm Tree, hb, 6 ft. Palm-like, fine for winter beds.

BRACHYCOME Iberidifolia, hha, 6 in. Beautiful, free-blooming plants for beds or pots; flrs Cineraria-like. Blue, White, Rose or mixed. 1000 seeds.

BROWALLIA. There are several species recommended, all fine for pots or beds. Everblooming, profuse; do well in summer or winter; likes moist, porous soil; sun or shade. Fine for winter bouquets.

Elata Grandiflora, hha, 2 ft. Improved large-flwd, borne in clusters at the tips of branches; self-sow; free and long-blooming. Blue, White, Mixed. 500 s.

Roezli, hha, 18 in. Flowers azure blue with gold tube, twice the size of Elata, blooms from spring till fall; plants compact. An exceedingly pretty species. 40s.

Speciosa Major, hha, 3 ft. Mostly for pots; flowers large; not unlike a Petunia; almost continuously in bloom. Blue, White, and Mixed. 40 seeds.

CACALIA Coccinea, ha, 18 in. Flora's Paint Brush Scarlet, Golden Yellow, Mixed. 250 seeds.

CALANDRINIA, ha. Fleshy leaves, Portulaca-like.

Grandiflora, 1 ft. Flrs 2 in across, cup-shaped, open in the sun, likes sand, fine rose color. 500 seeds.

CALCEOLARIA Scabiosifolia, ha, 1 ft. A pretty, easily-grown annual from Chili; flowers yellow, borne profusely during summer; for pots or beds. 200 seeds.

CALENDULA Officinalis fl. pl., ha, 1 ft. The old Pot Marigold Improved, appearing in many varieties; flowers full double and reach 4 in across when plants are disbudded. I offer the best kinds and my seeds are first class; plants continuous-blooming, often showing their bright flrs until freezing weather.

Balls Orange, best double; immense orange flowers.

Campfire, huge full-double orange flowers.

Favorite, sulphur striped cream-white, brownish tint.

Meteor, full double; yellow with orange border.

Orange King Improved, intense orange, splendid.

Radio, new, quilled; very double, golden flowers.

Sulphur Crown, Lemon Queen, giant full-double flrs.

Pluvialis, Cape Marigold, ha, 1 ft. Large single white and maroon flowers; very handsome. 100 seeds.

Pongei fl. pl. Large double white flowers; known as Double Cape Marigold; a pretty annual. 100 seeds.

Trianon, Royal Marigold, large dble flrs; fine sulphur yellow with charming brown shadings; rare. 100 seeds. Separate or in Complete Mixture. 100 seeds.

CALLICHROA Platyglossa, ha, 1 ft. A pretty composite; Aster-like; yellow, white border. 200 seeds.

CALLIOPSIS. Those I offer are beautiful very free-blooming annuals, of easy culture, showy in beds and bloom for weeks during summer. Seeds may be sown in Fall or Spring where plants are to bloom and thinned to 4 or 5 in apart.

Drummondii, Golden Wave, ha, 18 in. Crimson and gold, in bloom appears as a wave of gold. 100s. ½ oz 15c

Coronata, ha, 2 ft. Large flrs, orange, red spots. 500 s.

Cardaminifolia, ha, 2 ft, Yellow, crimson, mixed. 500s.

Tinctoria, ha, 3 ft. Red with gold border. 1000 seeds.

Crimson King, ha, 9 in. Bushy plants covered with rich crimson flrs; long-blooming, fine for beds. 500 s.

Garnet, ha, 1 ft. Scarlet, free-blooming, beds. 500 s.

Radiata, ha, 1 ft. Showy mixture; fine for beds. 300 s.

Beauty, ha, 9 in. Dwarf, golden yellow and purple. 500s.

Superba, ha, 18 in. New bizarre shades, fine. 300 seeds.

Hybrid fl. pl., ha, 3 ft. Showy flrs, various colors. 500s

Mayfield Giant, hp, 2 ft. Large yellow flrs on long, strong stems; fine for cutting; new. 40 seeds.

Nana Aurea, ha, 6 in. Gold yellow and brown. 500 s. Complete Special Mixture, all varieties, 100 s. ½ oz 15cts.

CALLIRHOE Lineariloba, ha, 2 ft. Leaves with narrow lobes; flrs Malva-like; pretty; rare. 50 seeds.

Pedata, ha, 3 ft. Upright, branching; showy; cup-shaped cherry-red flowers; easily grown. 50 seeds.

CAMPANULA, Annual. These are all, with the exception of *Macrostyla*, less than 1 ft. high. They are very pretty and bloom freely, the blue and white bells are always admired. Fine for beds edgings and rockery. Sow seeds early where plants are to bloom.

Attica, (*Drabifolia*) ha, 4 in. Neat little branching rock annual from Greece; open Blue or White bells; either color, separate or mixed. 300 seeds.

Lorei, (*Ramosissima*) ha, 1 ft. Erect, branched plants.

Speculum (*Specularia*) *Venus'* Looking-glass.

Speculum Grandiflora, ha, 1 ft. Pretty in beds or vases; free-blooming. Blue, White, Mixed. 1000 seeds.

Speculum Procumbens, ha, 6 in. Low, spreading; lovely bells in profusion. Blue, White, Mixed. 1000 s.

Fragilis, hp, 6 in. Spreading; finest sort for hanging baskets, vases or rockery; blue bells with white throat beautiful; free-blooming; July and August. 50 seeds.

Macrostyla, ha, 2 ft. Peculiar Bellflower from the Taurus Mts; stems rigid, curious calyx, flowers large veined and gaping; odd and showy; purple. 100 seeds.

Candytuft Umbellata

Convolvulus Minor

CANDYTUFT, ha. Old, popular, beautiful, bushy garden annual of easy culture from seeds. Those here offered bloom the first season. Sow early where plants are to bloom and thin to about 5 or 6 in.

Affinis, 6 in. White; for beds and edging. 1000 seeds.

Amara, 1 ft. Common Candytuft; white; fine. 1000 s.

Coronaria, **Giant Hyacinth-flw'd**, 1 ft. Huge white umbels; splendid for beds and borders. 1000 seeds.

Rocket Empress, 1 ft. white flowers 500 seeds.

Little Prince, 1 ft. Spreading; white heads; 250 seeds.

Pectinata, 1 ft. Fine foliage and showy white umbels; bears drouth well; sow early; fragrant. 500 seeds.

Umbellata, 1 ft. Very beautiful varieties of many rich colors; the flowers are freely borne in big umbels and make a grand display in beds or borders. White, Carmine, Purple, Cardinal, Lilac, Mixed. 750 s. ¼ oz. 15c.

Queen of Italy, 9 in. Exceedingly free-flowering dwarf compact sort with evergreen foliage; pink heads; superb for edgings or the rockery; excelent. 300 seeds. Complete Special Mixture, above varieties. 750 seeds.

CANNA, hhp, 3 ft. Crozy's finest mixed. 10 s.

CANNABIS Gigantea, ha, 8 ft. Easily grown; majestic foliage; good for background or specimen. 50 s.

CAPSICUM, Pepper, White Prince, hha, 18 inches. Cream turning, yellow, finally brilliant orange. 100 s.

Tom Thumb, hha, 18 in. Small, round, red. 100 seeds.

Little Gem, hha, 1 ft. Erect, small, garnet. 100 seeds.

CARDUUS Benedictus, ha, 3 ft. Blessed Thistle. 30s

Kernerii, hb, 3 ft. Branching, fine big rosy flrs. 25 s.

Marianus, ha, 2 ft. Fine blotched foliage, rose. 40 s.

CATCHFLY Silene Armeria, ha, 1 ft. Very pretty flrs in clusters; for beds and cutting; mixed. 1000 s.

CELOSIA Cristata, **Coxcomb**, hha, 18 in. Huge broad combs in many showy colors, fine. 150s.

Cristata Nana, Dwarf, hha, 1 ft. Large combs, richest colors, unexcelled in quality. Orange, Rose, Blood Red, Cardinal, Separate or Complete Mixture. 150 s.

Glasgow Prize, hha, 1 ft. Like Empress but has bright green foliage; superb for a showy bed. 100 seeds.

Empress, hha, 1 ft. Huge bright crimson combs; bronze foliage; splendid for beds; fine display till frost. 100s.

Magnifica, hha, 2 ft. Branching, each branch tipped with a big showy plume; beautiful, lasts well when cut. Scarlet Crimson, Golden Yellow. 150s. mixed 250s.

Dwarf Crimson Exhibition, hha, 1 ft. Saved from prize flrs and enormous combs; for pots or beds. 50 seeds.

Globosa, hha, 2 ft. Crimson-scarlet heads, 6 in across; not unlike a huge *Chrysanthemum*. 75 seeds.

Plumosa, **Parrot's Feather**, hha, 2 ft. Big feathery plumes of surpassing beauty; scarlet and orange mixed. 50 s.

Childsii, **Chinese Wool Flower**, hha, 2 ft. Many showy colors in mixture; excellent for beds. 250 seeds.

CENTAUREA, ha, a genus embracing many of our most useful and beautiful garden flrs. All are easily grown, showy in gardens and fine for cutting.

Americana, 3 ft. Largest, most showy of all Centaureas, 5 in across; fine for beds, also cutting; should be better known. July and August; Blue. 25 seeds.

Cyanus, **Corn Flower**, 2 ft. Showy in beds and excellent for bouquets. I offer only the double-flowered, being larger, more showy and attractive. Sow in fall or spring. Double Azure, or Emperor William, is one of the finest, lasting well when cut. It is a treasure for the florist. My seeds are extra select and will be found superior. White, Purple, Blue, Rose, mix. 300s. ¼ oz 15c

Nana Compacta Victoria, 9 in. This is decidedly the best for beds. The plants are bushy, and are literally smothered with exquisite blue flowers. 300 seeds.

Dpressa, The Queen, 1 ft. Rich blue with vivid red center, not unlike *Cyanus*; fine. 50 seeds.

Imperialis, Royal Sweet Sultan. These are glorious annuals, 3 ft high, branching and covered with large fringed fls of exquisite form. They are giants compared with the common Sweet Sultan. The fls are on long stems, range in color from pure white to rich blue and purple, are borne abundantly from mid-summer till late autumn. They are sweet-scented and excellent for cutting. *Favorita*, brilliant rose; *Graziosa*, intense lilac; *Gigantea Alba*, white; *Iphigenia*, delicate pink; *Rosea*, bright rose; *Purpurea*, vivid purple-rose; *Splendens*, dark purple; *Variabilis*, white changing to rose. Complete Mixture. 75 seeds.

Moschata, Sweet Sultan, 2 ft. Large fragrant fls; for cutting. Blue, White, Rose, Yellow; Mixed. 50s

Odorata, 2 ft. Beautiful in the garden and fine for cutting; fls large; deliciously fragrant; lasting. Blue, White, Yellow tinted rose, and Mixed. 50 seeds.

Complete Mixture of *Centaurea*, 250 seeds; $\frac{1}{2}$ oz 15cts.

CENTAURIDIUM Drummondii, ha, 2ft. *Centaurea*-like; clear citron yellow flowers. 40 seeds.

CENTRANTHUS Macrosiphon, ha, 2 ft. Free and long-blooming, showy; for beds and borders; 500 seeds

CERINTHE Major, Honeywort, ha, 18 in. Leafy racemes of brown and yellow fls; liked by bees. 100 s.

CHAENOSTOMA Fastigiata, hhp, 9 in. Tufts of small bright fls; very pretty; showy. 300 seeds.

CHEIRANTHUS Allioni, hb, 18 in. This is the brigest of orange-colored flowers, and very free-blooming; easily grown, and when sown in spring will bloom from July until November. Fls in fine clusters; fragrant; should be in every garden. 150 seeds.

Kewensis, hhp, 2ft. The Winter-blooming Wallflower. Started in spring they bloom during autumn; flowers sulphur passing to golden and purple violet, very sweet-scented; of easy culture. 75 seeds.

Linifolius, hp, 9in. Splendid for rockery or border; very floriferous, lilac, sweet-scented clusters. 100 seeds

CHELIDONIUM Majus, Great Celandine, ha, 2ft. yellow fls in clusters; showy. 250 seeds.

CHENOPODIUM Atriplicea, ha, 3 ft. Clusters of reddish purple fls; plants erect; slightly branched. 50

CHRYSANTHEMUM, Annual. These improved varieties are of easy culture and bloom abundantly during summer; showy; fine for cutting.

Coronarum fl. pl., ha, 4ft. Showy in beds. White, Golden Yellow, Sulphur Yellow or Mixed. 500 seeds.

Dwarf Compact Golden Queen, 2ft. Yellow; also **White Pearl**, white; plants compact; double; fine for beds. 500 s.

Carinatum Dunnett Double, 18 in. Large double fls, free and long-blooming, valuable for cutting; White, Golden Yellow, Dark Copper Red, Purple, or Mixed. 150 s.

Eclipse, 18in. Orange with scarlet ring; single. 500 s.

Golden Feather, 15in. Golden foliage, fls variegated. 500s

Radiatum 18 in, wheel-shaped, odd but showy. 500 seeds.

Segetum North Star 20in, white with black center; **Morning Star**, primrose yellow; **Evening Star**, large golden yellow. Separate or Mixed. 100 seeds.

Tricolor Eldorado, 2ft, golden with brown disk. 100 s.

Tricolor Double Fringed, 30in. Flrs large, double, fringed, in many colors, making a fine display in beds throughout summer and fall; fine for cutting. 100 s.

Inodorum, Bridal Robe, hb, 18 in. Flrs double, pure white plants compact, fine foliage; good for cutting. 150 s.

Complete Special Mixture above varieties. 500 seeds.

CINERARIA Lobata, hhp, 3 ft, Showy plants, fls in clusters, yellow with calyx-like bracts. 100 s.

CLARKIA, ha, 2 ft. One of the most beautiful and easily grown garden plants. Seedlings start readily, begin to bloom early, and keep up the display for many weeks; showy in beds and fine for cutting. I offer only double varieties of *Clarkia Elegans*, as they are very much superior to the single-flowered. *Clarkia Pulchella*, single-flowered is pretty and worth growing, although the double sorts are more admired. Sow in spring and thin to (inches apart, or sow earlier in a protected bed and transplant. Sep. 1500 s. mixed 2000s.

Elegans, Apple Blossom, pale pink; **Brilliant**, carmine-rose, **White Prince**, pure white; **Deep Lilac**; **Purple King**, rosy purple; **Queen Mary**, rosy-pink; **Ruby King**, ruby red; **Salmon Queen**, salmon-pink; **Scarlet Queen**, brilliant also finest mixed.

Pulchella Integripetala, 1 ft. **Mrs. Langtry**, white, crimson center; **Marginata fl. pl.**, red, white border; **Pulcherrima fl. pl.**, magenta-red, showy. 1500 seeds.

Complete Mixture of *Clarkia*, 1500 seeds, $\frac{1}{2}$ oz 15cts.

CLEOME Grandis, Spider Flower, hp, 3 ft. Easily-grown; showy; fls rosy mauve, clustered. 100 s.

Gigantea Hybrida, ha, 3 ft. Showy plants, fls white to lilac, rose and crimson, mixed. 75 seeds.

Pungens, ha, 3 ft. Flowers rose, in clusters. 100 seeds.

Speciosa, ha, 3 ft. Rich crimson, beautiful. 50 seeds.

Complete Special Mixture, all varieties, 100 seeds.

CLINTONIA Pulchella, ha, 6 in. Flrs rich blue with gold eye; spreading, baskets or rockeries. 350 s.

COLLINSIA Bicolor, ha, 1 ft. Handsome, showy for beds and borders. **Candidissima**, White, **Carnea**, flesh; **Bicolor**, violet and white; mixed. 1000 s.

Grandiflora, ha, 1 ft. Large flowered, excellent for beds and borders; charming. White, Red, mixed. 1000 s

FENZLIA Dianthiflora, ha, 4 in. Very pretty little annual for pots or rockeries; rose flowers. 100 seeds.

GAILLARDIA. This should be better known.

Plants start readily from seeds, soon come into bloom, and if kept from seeding, will keep up a continuous display. The grandiflora varieties have been much improved in size and colors, and a bed properly cared for will bloom freely for years, beginning early and continuing until checked by frost. The same may be said of *G. Lorenziana*, the exquisite free-blooming double varieties. The flowers are not only glorious in beds, but very desirable for cutting. Sow in a sunny bed and thin to 6 in apart, or sow and transplant. I particular recommend the Grandiflora and Lorenziana Gaillardias.

Amblyodon, ha, 2 ft. Texas annual; blood-red. 75 seeds.
Picta, ha, 1 ft. White, Yellow, Rosy-white, Scarlet, Quilled, separate or in complete mixture. 150 seeds.

Godetia, Duchess of Albany

Choice Godetias

When in Europe I saw no flowers that were more attractive than those of Godetia. The beds were glorious sheets of rich color of rose, red, white and variegated, each variety occupying a different bed. The plants start readily from seeds. Sow early in rows 6 in apart and thin out. I offer choice new-crop seeds of the finest single and double varieties and the flowers will be a revelation to those who have never grown them.

- Single-flowered varieties, ha, 800 seeds.

A beautiful free-blooming plant for beds; fls bright and showy. Rose and white, Scarlet and White. 75 s.

Cruikshanksi, 4 ft. One of the best; plants branch freely, each branch tipped with a big spike of various colored flowers; very showy and beautiful. 25 seeds.

Hartwegi, 2 ft. Showy, free and long-blooming; sweet-scented flowers in big racemes; for beds and cutting.

Blue, White, Azure, Rose, Red, and Mixed. 50 seeds.

Hirsutus, 2 ft. An easily grown plant with large flowers.

Blue, White, Red or Mixed. 10 seeds.

Hybridus Atrococcineus, 2 ft. Considered the finest of all annual Lupins; long, graceful spikes of vivid crimson-scarlet flowers with white tip; fragrant; splendid. 50s.

Sub-carnosus, Texas Blue Bonnet. 1 ft. Native of Texas, where it shows a sheet of rich ultramarine blue. 40 s.

Mutabilis Versicolor, 3 ft. White, yellow, rose. Mix. 35 s.

Luteus Romulus, 2 ft. Pale yellow, large fragrant fls in big spikes; good for borders. 30 seeds.

Sulphureus Superbus, 18in. Spikes of beautiful sulphur-yellow flowers; fine for beds or borders. 25 seeds.

Complete Special Mixture of above. 75 seeds.

LYCHNIS Arckwrightii, hp, 18 in. New; brilliant fls in lovely colors; glorious in beds. 60 seeds.

Chalcedonica, hp, 2ft. Rich scarlet, showy; flowers in big heads; very desirable border plant. 100 seeds.

Haageana, hp, 1 ft. Very attractive plants; fls large and bright, long-blooming, mixed colors. 200 seeds.

Viscaria Splendens, ha, 1ft. German Catch-fly; fine for beds; brilliant red; very showy, easily grown. 1000 s.

MALOPE Grandiflora, ha, 3 feet; showy for large beds and borders; fls large Hollyhock-like; long-blooming. Colors: White, Rose, Red. Sep. or mx. 500s.

MALVA Crispa, ha, 7ft. Pretty foliage. 500 s.

Mauritiana ha, 4ft. Purple, easily-grown. 500 seeds.

Moschata, hp, 2 ft. Showy, rose, white, mixed 200 s.

MARTYNIA Fragens, hha, 18 in. Flowers reddish-purple with a crimson throat. **Lutea**, yellow flowers in clusters. **Tricolor**, with bark spots. **Proboscidea**, Devil's Claws, white, yellow violet; easily grown. 25 seeds.

MATRICARIA Capensis, fl, pl, ha, 2ft. Feverfew, branching plants bearing masses of pure white fls, perfectly double; showy; fine for cutting. 200 seeds.

Alba Plennissima, 2ft, double, pure white, splendid. 200 s.

Eximia, fl, pl, 2 ft, large pure white double flowers. 200 s.

Golden Ball, 8in, fls double in masses; rich golden yellow; excellent for beds; very beautiful. 200 seeds.

Silver Ball, like Golden Ball; but white fls. 200 seeds.

Complete Special Mixture of Matricarias. 250 seeds.

MATTHIOLA Bicornis, 18in., ha. A little plant bearing a profusion of lilac fls, deliciously scented. 2000 seeds.

Marigold African Double

Myosotis Forget-me-not

Mirabilis Four O'clock

MARIGOLD, Tagetes, African, hha, 3ft.

Branching erect plants, a mass of big double blooms in summer and winter; thrives in good soil in a sunny place; one of our most showy and beautiful yellow-flowered garden annuals. Lemon and Orange, separate or mixed. 40 seeds.

Quilled Lemon, also Quilled Orange, 3ft, large double showy flowers. Separate or mixed. 40 seeds.

Dwarf Lemon, also Dwarf Orange, 18 in. Large double flrs; fine for beds and cutting. 50 seeds.

Tagetes Signata Pumila, 1 ft, plants become a globe of yellow bloom; fine for beds, blooms till winter. 50 s

Tagetes Lucida, 18 in, deliciously fragrant, yellow. 50

Fire Cross, deep orange yellow blotched crimson, pg 48

Complete Mixture African and French Marigolds, 200 s

MEDICAGO Intertexta, Calvary Clover, ha, 8 in.

A little plant cultivated as a curiosity on account of its peculiar seed-vessels. 15 seeds.

Scutellata, ha, 10 in. This trailer has snail-like seed-vessels and is interesting for that reason. 20 seeds.

MESEMBRIANTHEMUM Spectabilis, hha, 1 ft.

crowded eaves; pretty red flrs 2 in. across. 25 seeds.

Cordifolium Variegatum, 6 in, rosy purple flrs. 50 s.

Tricolor, in, very pretty, rose, white or mixed. 100 s.

MIGNONETTE, Improved Large-flowed.

These are popular garden subject on account of their delightful fragrance. The flowers are not particularly attractive, though much improved. The colors range from white to deep red, as well as shades of yellow. I offer the finest sorts known, all large-flowered.

Large-flowered Improved, ha, 15 in, very fragrant. 2000 s.

Golden Queen, compact, free-blooming; large golden flowers on long spikes, showy and beautiful. 500 seeds.

Diamond, 15 in, lovely pure white, fragrant, showy. 500 s.

Bismarck, 1 ft, considered one of the best; an improved Machet; robust, compact, with huge spikes of richly scented red bloom; fine for pots or beds. 500 s.

Giant Pyramidal, 18 in, large spikes of red flrs. 500 seeds.

Goliath, 1 ft, bears mammoth spikes of double red flrs.

Gabriele, 15 in, big reddish spikes; beds or pots. 500 s.

Machet, Benary's Famous Strain, 15 in. This is the best of Mignonettes; plants strong, compact, very free-blooming; flrs large in thick spikes. Colors: Rosy red, Golden yellow, Pearl white, sep or mixed, 200 s.

Victoria Perfecta, 1 ft, brilliant red in fine spikes. 300 s.

Complete Mixture, all the fine varieties, 500 seeds.

MIMOSA Pudica, hha, 2 ft.

Sensitive Plant, prostrate with pretty pinnate leaves that droop when touched; pink flowers. 50 seeds.

Spagazzini, Tree Sensitive Plant, fine for pots, 20 seeds.

MIMULUS Cardinalis, Monkey Flower, hp, 18 in.

Deep scarlet, orange, and red mixed, choice. 1000 s.

Cupreus Bismarck, hhp, 6 in, Rich crimson-scarlet; dwarf free-blooming; fine for pots and rockeries. 1000 seeds.

Duplex, Hose-in-hose, hp, 6 in. Large-flowed Imperial; flrs beautifully spotted on white or yellow ground. 500

Queen's Prize, hhp, 6 in. Very large flrs richly spotted, free-blooming; lovely pot plant; likes sand, moisture, and shade. 1000 seeds.

Quinquervulnerus Maximus, hp, 1 ft. Large-flowed mx. 500 s.

Tigrinus, 8 in, hp, beautiful golden flrs spotted brown; free-blooming, fine for pots or beds. 1000 seeds.

Fire King, hp, 8 in. Giant; very large and attractive; fiery scarlet; splendid for pots. 1000 seeds.

Complete Special Mixture of Mimulus, 1000 seeds.

MIRABILIS, Four-o'clock.

A beautiful tuberous-rooted flower, the branching plants literally covered every evening and morning with bright-colored, often variegated, flowers, the prevailing colors crimson and gold. Plants are easily grown from seeds and thrive in any rich sunny bed. The tubers are hardy South, but must be protected North.

Tall Mirabilis, hhp, 2 ft. Makes a beautiful bed or border; blooms continuously all the season. Colors: Carmine, Crimson, Chamois, Red and white, Lilac, Yellow, White, Yellow and red. Sep or mixed, 30 s.

Tom Thumb Mirabilis, hhp, 1 ft. Striped-leaved; very dwarf and compact; fine for edgings and beds. Colors: Carmine, Dark Crimson, Tricolor, White, White and red, Yellow and red; sep or mixed. 30 s.

Longiflora, 2 ft. White, Violet, or mixed. 20 seeds.

Complete Special Mixture of Mirabilis, 30 seeds.

MYOSOTIS, Forget-me-not.

These are modest but very beautiful flowers for a moist shady place, and are easily started from seeds. The flowers are in clusters, and the plants are almost continuously in bloom.

Alpestris, hb, 5 in. One of the best for either garden or rockery; flowers are in fine clusters and very fragrant in the evening. Colors: Blue, White, Rose, mx. 500 s.

Victoria, hb, 8 in. Dwarf, globular plants covered with bloom, central flrs double; best for borders and pots; free-blooming. Azure, Rose, Indigo, Mixed. 500 s.

Elsie Fonrobert, hp, 6 in, large-flowered, blue, choice.

Stricta, Royal Blue, hb, 1 ft, pillar-like, large. 500 s.

Dissitiflora Perfection, hp, 9 in, large blue; free. 250 seeds

Sylvatica, hp, 6 in, Wood Forget-me-not, blue. 500 s.

Oblongata Perfecta, hp, 1 ft, sky blue, winter-bloomer. 500

Sutton's Royal Blue, hb, 6 in, rich indigo blue, long stems, free-blooming, very fine. 500 seeds.

Isolde Krotz, hp, 6 in, large-flowed, long-blooming. 300 s.

Complete Special Mixture of Myosotis, 600 seeds.

Marigold Tall Scotch Striped

Nicotiana Crimson King

NEMESIA Strumosa, large-flow'd, hha, 1 ft. Splendid for beds and pots; flrs rich and varied, come in great abundance, and are wonderfully attractive and beautiful. 250 seeds.

Strumosa Nana Compacta, hha, 8 in. Magnificent bedding and pot plants, rivalling Phlox in show and beauty yet rarely seen in gardens. Plants branch and the flrs are so abundant as to make a sheet of rich color. 300 s
Blue Gem also **White Gem**, hha, 1 ft. Here is one of our loveliest, most free-blooming little annuals; the flrs appear in wonderful profusion and richly decorate as edgings, small beds, rockeries, or the ground of rose-beds. A celebrated Horticulturist writes, "No Gentian of the Alps given the best of rock gardens could do so much for beauty." 300 seeds.

Versicolor, 1 ft, blue, lilac and white mixed; small. 300 s.

Lilacina, 1 ft, profuse; pink and lilac, gold eye. 300 s.

Triumph, 1 ft, large, showy flrs, free-blooming, compact, rich colors; fine for pots and beds; splendid. 500 s.

Complete Special Mixture of *Nemesia*. 500 seeds.

NEMOPHILA Atomaria, Holborn Blue Bell, ha, 6 in.

Makes a beautiful bed; sow either in Fall or Spring and thin to 4 in apart; dark blue. 500 seeds.

Crambeoides, light blue, beautiful, showy. 500 seeds.

Discoidalis, blackish purple edged white. 500 seeds.

Insignis Marginata, Blue, White, beautiful. 500 seeds.

Purpurea Rubra, rosy lilac, fine for beds. 250 seeds.

Maculata Purpurea, lilac and white; fine, showy. 500 s.

Complete Special Mixture *Nemophila*. 600 seeds.

NICANDRA Physaloides, ha, 3 ft. A Peruvian

plant; flrs large, cup-like, blue, drooping. 100 seeds.

NIEREMBERGIA Frutescens, hp, 2 ft; blue flrs.

Excellent for cutting. See page 13.

Gracilis, hhp, 1 ft. Beautiful white flrs. See page 57.

NICOTIANA Affinis, hha, 2 ft. Star-like white

deliciously-scented flrs, showy, free and continuous-blooming; a fine garden or pot plant thriving in any sunny situation. 500 seeds.

Affinis Hybrida Grandiflora, hha, 18 in. Charming

large-flow'd, sweet-scented hybrids many colors. 500 s.

Sanderæ Hybrida, hha, 2 ft, in many colors. 500 s.

Crimson King, hha, 18 in. Splendid for beds; flowers

rich velvety crimson, the brightest of *Nicotianas*. 500 s.

Crimson Bedder, hha, 15 in. A fine new bedding plant free-blooming; flowers rich crimson, a mass of bloom throughout the season; one of the best. 200 seeds.

Grandiflora Purpurea, hha, 5 ft, wine-red. 500 s.

Macrophylla Gigantea, hha, 7 ft, huge; red flrs. 500 s.

Sylvestris, hha, 6 ft. Pretty, free and continuous-blooming; large trusses of white, sweet-scented, flrs,

drooping, very attractive, always admired. 500 seeds.

Suaveolens, hha, 18 in. Flrs white, in panicles. 150 s.

Complete Special Mixture of *Nicotiana*. 800 seeds.

NIGELLA, ha. Beautiful, easily-grown; flowers large and charming; foliage lace-like; self-sows.

Miss Jekyll, 18 in. This is the best variety, the flrs very double, borne freely, makes a fine display; colors: Blue, White, or Mixed. 300 seeds.

Hispanica, 18 in. Fine for cutting, mixed colors. 500 s.

Diversifolia, 2 ft, flrs charming light blue, fine. 300 s.

Complete Special Mixture of all varieties. 500 seeds.

NOLANA Atriplicifolia, ha, 6 in. Large-flowered,

flrs lavender blue, yellow throat, handsome. 100 seeds.

Grandiflora Alba, ha, 6 in. A fine pot, bed, or basket

plant; flrs large, Cornflower blue, beautiful. 100 s.

NOTOBASIS Syriaca, hha, 2 ft. Syrian Thistle, handsome. 35 seeds.

NYCTERINIA Capensis, hha, 1 ft. White, reverse

brown, blooms at night, vanilla-scented, odd. 1000 s.

Selaginoides, hha, 6 in. Pink with yellow eye, excel-

lent for pots, borders, and rockeries. 1000 seeds.

OBELISCARIA Pulcherima, ha, 18 in. The pretty

Obelisk Flower; large showy flowers on long stems,

velvety crimson with gold edge and brown center,

rare and beautiful. 200 seeds.

OCYMUM Basilicum, 1 ft., fine pot plant; attractive.

OENOTHERA Evening Primrose. Annual and per-

ennial flowers of much beauty, the prevailing color,

yellow, bright and attractive. The following do well

in rich soil and a sunny situation:

Acaulis, ha, 6 in. Large and beautiful white and golden

flowers, stemless, May to September. 300 seeds.

Afterglow, hb, 3 ft, yellow with red calyx. 500 seeds.

Lamarckiana, hb, 4 ft, flrs 4 in across, yellow. 1000 s.

Drummondii, hb, 2 ft, flrs 3 in across, yellow. 500 s.

Fruticosa Major, hb, 2 ft, large golden flrs; see p.

Clutei, hb, 4 ft, large soft yellow; splendid. 250 seeds.

Trichocalyx, hb, 2 ft. Considered the finest; flowers

large, white, sweet-scented; easily-grown. 250 seeds.

Taraxacifolia, ha, 6 in, flrs large white and yellow. 300 s.

Complete Special Mixture of varieties, 500 seeds.

OXALIS Tropaeoloides, ha, 4 in. Pretty; easily-

grown; flowers yellow. 250 seeds.

Valdiviana, hp, 6 in, yellow flrs; free-blooming. 300 s.

Cloth of Gold, hp, 6 in. Masses of golden clusters in

summer, sweet-scented; a bulbous perennial. 500 s.

Complete Special Mixture of *Oxalis*. 500 seeds.

OXYURA Chrysanthemoides, ha, 18 in. Yellow

shading to white, yellow disk, free-blooming. 100 s.

Pansies, Re-selected Giant-flowered

THESE are so well and favorably known that a description of their exquisite beauty and usefulness in the garden is unnecessary. They are simply indispensable, and if I were to name a half dozen of our best seedling flowers the Pansy would be one of them. There is, however, much difference in the strains, some being greatly superior in the vigor and free-blooming quality of other plants, as well as the great size, form, variety and richness of colors and variegations. I am pleased to say that the seeds I offer are from Pansy specialists, all of the new crop, and cannot be surpassed in quality, regardless of claim or price. I challenge comparative trial. They are simply unrivalled. See pages 4 and 5, for fuller illustration of Mette's Triumph of the Giants, finest known.

Benary's Exhibition, finest of blotched Pansies, huge frilled blooms, richest and most varied colors. 50 seeds.
Benary's Non-Plus-Ultra, exceedingly rich mixture; blotched; frilled; wonderfully effective. 100 seeds.
Cassier's Giant Blotched, largest-flowered class of blotched Pansies; saved only from choice plants. 50 seeds.
French Giant, large stained, rare colors, blotched. 100 s.
Giant Mastadon, enormous frs. of the richest colors; new; saved from selected plants only. 100 seeds.
Kelway's Blue Boy, rich ultramarine blue; the finest Pansy of it's color. 50 seeds.
Mette's Triumph of the Giants. See pages 4 and 5.

Adonis, light blue with white eye.
Alba Pura, lovely pure white, fine.
Apolla, bronze, blotched, fringed.
Apricot, self-color, new and rare.
Canary, ruffled; yellow, black eye.
Aurora, brilliant red, edged white.
Cardinal, magnificent cardinal-red.
Dark Blood Red, fringed, fine, choice.
Dark Blue, splendid velvety blue.
Emperor Fredrick, dark red, edged.
Emperor William, ultramarine blue.

Apricot Queen, compact, free-blooming, frs medium size, pretty, apricot shaded yellow, with darker center.
Bedding Mixture, choice mixture of all colors, for beds, Holland-grown, extra fine. 200 seeds. 1-4th oz. 20 cts.
Curled and Fringed, richest colors, finest mixed. 200 seeds.

Eros, brown, yellow eye and border.
Fairy Queen, light blue, white-edged.
Freya, black violet, silver-edged.
Germania, giant ruffled frs; extra.
Gold King, yellow dark eye; fine.
Gold Queen, bright yellow, self.
Indigo Blue, very attractive.
King of Blacks, coal-black, showy.
Light Blue, dark center, beautiful.
Mad. Perret, red shades on white.
Mette's Mammoth, 5-blotched, showy.

Peacock, blue, white edge; beautiful.
Pretiosa, violet on crimson ground.
Prince Henry, rich blue, dark eye.
Psyche, velvety violet, white ground.
Purity, large pure white; beautiful.
Quadricolor, a rich blending of colors.
Snowflake, spotless white; showy.
Solfatara, sulphur, dark blue spots.
Triumph, huge flowers fine mixture.
Victoria, vivid red, with violet spots.
Vulcan, rich dark red, 5-blotched.

Mette's Compact Bedding, very free and long-flowering, graceful, compact, finest blend. 200 s. 1-4th oz. 25c.
New Spencer, large-flowered, frilled and fringed, and almost double; rich colors, greatly admired. 250 seeds.
Park's Giant, mixture of all Giant-flowered varieties. 300 s.

GIANT, WINTER BLOOMING PANSIES

These are unusually hardy, and bloom very early in spring; indeed where winters are mild they bloom throughout the cold months with a little protection, as a cold frame or lath house they will bloom during the Northern winters. Started in August or early September, so as to come into bloom by winter, you may often dig fine frs out from beneath the snow. I offer only the giant-flowered varieties, as follows: **Celestial Queen**, sky blue, beautiful.
Charm of March, rich velvety blue. **Helios**, pure golden yellow without eye. **Ice King**, silvery white with dark blue eye. **Jove**, purple-violet, upper petals azure shading to white. **Jupiter**, deep purple, top petals white. **March Beauty**, velvety dark blue, superb. **Mars**, cornflower blue. **North Pole**, pure snow-white. **Winter Sun**, golden yellow with a distinct dark eye. **Woden**, very dark almost black. These colors separate or mixed, 200 seeds. 1-16 oz. 15 cts.

Note: I would call special attention to my offer of the famous Roggli Swiss Giant Pansies. The seeds were grown for me by a Holland specialist, and were saved from selected plants with large-flowered rich colored blooms. I am confident they cannot be excelled. You will find them not only of the highest quality in size, form and exquisite colors. Under favorable conditions every seed will germinate and give you a sturdy plant.

PORTULACA the BEAUTIFUL ROSE MOSS

These are among the most beautiful, free-blooming of our hardy annuals.

The plants are low and spreading, and the seedlings begin to bloom when small, and increase in size and beauty with age. The single frs are cup-shaped, and the double appear like little double roses, and in a bed the display is wonderfully attractive throughout the summer. The plants like sandy soil and a sunny exposure, grow and bloom freely, and are never troubled with diseases or pests. They will endure more hot sun and drouth than almost any other flower. They should be generally grown. Double-flowered, Benary's Prize Strain; White, Orange, Striped, Rose, Salmon, Purple, separate 300 seeds. Double complete mixture 500 seeds. The single-flowered are gorgeous in a mixture of colors. Pkts. Mixed 600 seeds 5c, or 1-16 oz. 15c. Large-flowered Parana, 500 seeds 5 cts.

Quadricolor

Yellow Throated

Hybrid Compact

Giant Dble Fringed

PETUNIA FINEST NAMED VARIETIES

IF I were asked to select the best all-round flower for the ordinary home, I would unhesitatingly name the Petunia, and especially the Dwarf Compact Single-flowered. The plants are readily started from seeds, soon come into bloom, becoming a glowing mass of exquisite, showy, and deliciously fragrant flowers, and remaining so throughout the season if not allowed to exhaust themselves by seeding. The plants will endure more neglect, suffer less from either wet or dry weather, and prove decorative to a degree surpassing that of any other flower. Then, too, when once given a garden bed it will provide an abundance of plants every spring from self-sown seeds. Still more, if plants are cut back and potted in Autumn, they will continue to bloom in a sunny window during winter. Could we say as much for any other flower?

Hybrid Compact, hhp, 1 ft. 1000 seeds, each variety.

Adonis, carmine-red with white throat, attractive.

Belle Etoile, white star on purplish-crimson ground.

Brilliant, free-fring, brilliant carmine, white center.

Erfordia, **Rosy Morn**, brilliant rose with a broad white throat, beautiful, profuse bloomer; excellent.

General Dodds, darkest red, pots or beds, admirable.

Gloria, dazzling carmine-rose with white throat; fine.

Inflata, purplish carmine, for balconies and baskets.

Lord Courtney brilliant rose with yellow throat.

Maculata, striped and blotched, magenta red; white.

Marginata, frs red with green margin, odd, showy.

Multiflora, spotted and starred, splendid mixture.

Norma, free-flowering; violet blue with white star.

Rose of Heaven, fiery rose, free and long-blooming.

Snow Queen, large pure white flowers, floriferous.

Stellaris, rose, star-like with white stripes, splendid.

Venosa, beautifully veined in prettiest shades; fine.

Complete Mixture of the above 1000 seeds; 1-32 oz 15c.

Balcony Petunias. These grow in prostrate form, the branches long and drooping, especially adapted for porch boxes, pots, baskets and urns. I offer the following: White, Rose, Dark Red, Red and White starred, Violet blue and Mixed. 100 seeds.

KELWAY'S and BENARY'S FINEST GIANT PETUNIAS

These Giant Hybrids are robust in growth and develop beautiful, rare and vivid combinations of color. They will be a revelation to those who know only the old-fashioned Petunias. The seeds here offered are of unsurpassed quality. There's none better at any price.

Kelway's Perfect Model, Magnificent large flowers, from selected plants, beautifully striped, 100 seeds.

Kelway's Choice Single Fringed, exquisitely crenellated, finest colors in splendid mixture, 100 seeds.

Kelway's Royal Blue, true velvety blue, exceedingly free-blooming, unsurpassed for beds or borders. 75 s.

Kelway's Giant, complete mixture of Kelway's Giant flowered single Petunias, plain and fringed. 100 seeds.

Erfurt Dwarf Compact Double-ruffled, free and long blooming; rich colors, veined, blotched, throated. 100 s

SPLENDID DOUBLE PETUNIAS

Lady of the Lake, pure white, large, fringed. 25 seeds.

Brilliant Rose, charming color, showy, fringed. 25 s.

Kelway's Perfect Model, carefully fecundated from finest double flowers, brightest colors mixed. 30 seeds.

flowers both single and double, of enormous size, most selected and saved with greatest care, mixed. 30 seeds.

Kelway's Choicest Double Fringed, large-flowered, selected and saved with greatest care, mixed. 30 seeds.

Benary's Giant Double, superb mixture of all giant-flowered double Petunias, rich variety of colors. 30 seeds.

Petunia Hybrid Double, Small-flowered varieties. 50 s.

Azaleiflora, 14 in. high, pure white, very pretty.

Striped and Blotched, free-blooming, fine mixture.

Lilliput, 10 in, selfs, spotted and striped, fine colors.

Hybrid Double Mixed, free-blooming, fine for beds.

NOTE, Seeds of Double and Large-flowered Petunias require to be sown with special care, and those who do not have the patience to sow such seeds should get the small single-flowered compact varieties. These Double Petunias are all produced by careful hand fecundation, and it is criminal to get them and plant in a box or bed as you would plant Phlox or Zinnias.

New Giant Perfection. The latest in Annual Phlox. Plants grow 9 in high, branch freely, and are literally covered with huge broad clusters of showy frs, very rich and varied in color; making a marvelous display in beds or pots. Colors: Pure White, Violet, Yellow, Blue, white eye, Purple, Dazzling Red, Fiery Scarlet, Rose, Scarlet, white center, Salmon Rose. 75 seeds. Complete Mixture, 150 seeds; 1-16 oz. 15cts.

PHLOX Drummondii

This is one of our best annual flowers.

At the North plants should be started in beds or boxes and transplanted, but at the South the seeds may be sown in the fall where the plants are to bloom. They mostly reseed, and cover the ground with volunteer plants. They like rather sandy, rich soil, and will grow in any garden. Seedlings begin to bloom when quite small and continue throughout the season. The bright flowers in many colors and variegations appear in big, broad clusters. A carpet bed of the plants in special colors makes a glorious display. I offer choice new-crop seeds of the finest races, and can supply the colors separately or all in special mixture. They are hardy annuals and can be sown early; plants grow one foot high; set plants six inches apart.

Improved Grandiflora, 1 ft. Splendid large flowers in big broad clusters; one of the finest for beds and borders, exceedingly showy when grown in masses. All the brightest and best colors mixed. 200 s. 1-3 oz 25c.

Fimbriata, 1 ft, beautiful fringed, fine mixed. 100 seeds

Cuspidata, 1 ft, starry sorts in mixture, showy. 100 s.

New Dwarf Compact, 6 in, very attractive in beds or pots, finest mixture of all choice colors. 150 seeds.

Poppy Double-flowered Fringed

Rudbeckia Bicolor Superba

POPPIES, Bright and Showy as Paeonies

POPPIES are old-fashioned flowers, but how showy and beautiful they are! Once in the garden they mostly take care of themselves. The large double ones are as handsome as Paeonies, and quite as showy and pleasing, while the single flrs exhibit a wonderful variety of shades and variegations, and are always admired. In garden beds and borders they are truly gorgeous, and a few seeds scattered about the vegetable beds make bright and beautiful the vegetable garden without detriment to the growing plants. Poppies should adorn every home and it pays to use only the improved varieties, such as I offer. The seeds may be sown either in Fall or early Spring. Do not let the plants crowd if you would have the best results.

Double Paeony-flowered, ha, 18 in. Huge double flrs not unlike a Paeony in appearance; the petals are broad and over-lapping. They are of easy culture and very satisfactory. Colors: White, Brilliant Rose, Salmon Pink, Cochineal Red, Cardinal Red, Striped, Deep Purple, Pansy Violet, or Mixed. 2000 seeds.

Primrose Dame, large-flowered, sulphur yellow; showy.

Purple King, beautiful rich purple, free-blooming; fine.

Snowden, lovely pure white, handsome, very choice.

Complete mixture of Tufted Pansies 100 seeds.

Bosniaca, hhp, 4 in. A lovely violet for the rockery; frs deep purple in great abundance. 50 seeds.

Gracilis, hp, 6 in. Deep purple, fine rock species of tufted habit; trailing, spring-blooming. 50 seeds.

Little-Johnny-Jump-Up, hp, 4 in. The old-fashioned violet found in old gardens; tenacious. 100 seeds.

VIRGINIA Stock, ha, 1 ft. Showy everblooming annuals, sown in spring or fall; repeated sowing keeps up the display all season. Sow where the plants are to bloom and thin. Red, White, Crimson, Carmine, Yellow. Separate or in complete mixture 1500 seeds.

VISCARIA New Compact, ha, 8 in. These are pretty border plants that may be sown in spring or autumn; colors exceedingly bright and a bed of the blooming plants is always greatly admired. Blue, White, Red or complete mixture 1500 seeds.

Cardinalis, ha, 1 ft. Flame Flower, beautiful rich scarlet glorious in beds, very attractive. 1500 seeds.

VITTADENIA Triloba, hp, 9 in. A pretty spreading plant with rosy mauve and white frs. 250 seeds.

WAHLENBERGIA or Platycodon, hp. One of the best hardy perennials, producing very showy frs during the entire season. They form large clumps and are excellent for planting in permanent borders or among shrubbery, easily grown from seeds, which begin blooming in August if sown outdoors in April.

Grandiflora, 13 in. Large-flowd, Blue or White. 75 seeds.

Duplex, 18 in. Double, very fine, Blue or White. 40 s.

Mariesi, 1 ft. Dwarf, large open bell-shaped frs. Rich Blue, Pure White or Mixed. 75 seeds.

Complete Special Mixture Wahlenbergia 100 seeds.

WALLFLOWER. These are easily-grown and very beautiful sweet-scented frs, but it is only recently that a race of Wallflowers has been developed that will bloom the first season. The plants grow 2 ft high producing big spikes of deliciously scented frs, very showy in beds and good for cutting.

Early Wonder, 2 ft. Developed by the famous German florist, Mr. Benary. Shows elegant double frs in five months from seeds, and will bloom freely in winter in pots when started in mid-summer. My seeds are direct from him, and I can supply all the finest colors in mixture. 100 seeds.

Early Parisian, 1 ft. Beautiful single-flowd varieties that bloom in four months, and are very desirable for beds in summer and pots in winter. They are of easy culture and sure to bloom, frs large, in fine spikes and very fragrant. Light Brown, Blood Red, Cream Yellow, Yellow with black bud. Sep. or mixed 200 s.

WHITLAVIA Grandiflora, ha, 1 ft. Very pretty annual with lovely bell-shaped flowers, easily grown. Blue also White. 1500 seeds.

Gloxinoides, 1 ft. Variegated blue and white. 1500 seeds. Complete Special Mixture, all varieties. 1500 seeds.

Hybrid Verbenas

Dahlia-flow'd Zinnias

VERBENAS, SUPERB HYBRIDS

THE Hybrid Verbenas are among the most beautiful and useful of our flowers. Seedlings begin to bloom early and continue freely until winter, the lovely fragrant clusters making a fine display in either beds, borders or pots. In pots they bloom until Christmas. The common hybrids bloom more freely and are really more showy than the Grandiflora and Colossal varieties, but the flowers are not so large nor produced in such large clusters. They are all deliciously fragrant and continuous-blooming.

Mammoth Queen, 18 in. These are of enormous flrs and clusters, and always call forth enthusiastic expressions of admiration. I offer the finest kinds. 50 s.
Snow Queen, Giant-flow'd, lovely pure white, beautiful.
Rose Queen, Superb variety, charming soft rose, fine.
Scarlet Queen, Huge vivid scarlet, white eye; gorgeous.
Salmon Queen, Bright salmon-rose, white eye, beautiful.
Auricula Queen, Various colors, large distinct eyes.
Golden Queen, large clusters of golden yellow flrs, fine.
Special Mixture Mammoth Queen varieties, 75 seeds.
Mammoth Varieties, hhp, 18 in. These are readily grown from seeds, easily transplanted and give general satisfaction. The flowers are of all colors and are showy throughout the season. **Royalty**, vivid blue shades. **Firefly**, dazzling scarlet. **Miss Wilmott**, salmon-rose. **Luminosa**, fine pink. **Striata**, charmingly striped.
Fairy Queen, lovely soft pink. **Purple Cloak**, dark purple-

red with white throat. **Rose and Carmine** shades. 50 s.
Colossea, lovely pink shades, flrs over an inch across, in large umbels; also rose with white eye; huge. 40 s.
Grandiflora Etna, intense Geranium-red with cream-yellow eye, flowers in large trusses, 40 seeds.
New Royal Bouquet, 18 in, upright, each plant becoming a bouquet of many shades and variegations. 40 s.
Complete Special Mixture Mammoth Verbena, 100 s.
Dwarf Compact. These are especially desirable for beds and pots as they bloom freely and continuously. Many fine colors in mixture. 75 seeds.

OTHER CHOICE SPECIES: **Aubletia Grandiflora**, hp, 15 in., Rose Vervain, reddish-purple. **Drummondii**, hp, 15 in, rosy violet in fine clusters. **Erinoides**, ha, 1 ft, from Peru, Moss Verbena, small flrs in fine clusters, profuse. Violet, White, mixed. **Venosa**, hp, 2 ft, for beds; free-blooming, flrs purple-violet; easily grown. 100 s.

Bodger's Unrivalled Dahlia-flow'd Zinnias

It is not uncommon for these Zinnias; under favorable conditions, to grow from six to nine inches in diameter, double to the center. My seeds are direct from the originators, saved from their best strain.

Buttercup, rich cream-yellow flrs, abundantly produced.
Canary Bird, hha, 3 ft, soft Primrose, very beautiful.
Crimson Monarch, largest and best red, flowers often 8 in across, borne freely on strong, thrifty plants.
Dream, lavender-blue, one of the best, always admired.
Eldorado, charming shade of rose on salmon, splendid.
Exquisite, tyrian rose, huge flowers, most pleasing.
Golden Dawn, enormous flowers, perfect form, golden.
Golden State, vivid orange yellow, large, handsome.
Lemon Beauty, enormous flrs, yellow, brown shadings.
Luminosa, bright deep pink suffused salmon, new, fine.

SOME OTHER CHOICE ZINNIAS

Achievement, 3 ft, quilled, beautiful rich colors. 35 seeds.
Crispa, 2 ft, double, crested petals, fine for cutting. 35 s.
Early Wonder, 1 ft, early-flowering, first of a new race, masses of lovely rose flrs on long stems. 15 seeds.
Gracillima, 1 ft, fiery scarlet flowers, beautiful. 35 seeds.
Grandiflora Robusta, 3 ft, huge flrs, mixed colors. 35 s.
Haageana Perfection, 1 ft, compact, free-blooming, good for beds, double orange and lovely rare shades. 35 s.

Meteor, rich glowing dark red, very large, floriferous.
Old Gold, glowing shade of old gold, large, splendid.
Old Rose, one of the most beautiful, distinct and fascinating; extra large flowers; charming, well named.
Oriole, huge plants, large dble orange and yellow flrs.
Polar Bear, immense size, snow-white flrs, charming.

Pumila Picotee Delight, 1 ft, new salmon rose, very double, every petal curled and distinctly margined. 35 s.
Scabiosa-flowered, 3 ft, branching, free and continuous-blooming, flrs double, crested, many rich colors. 20 s.

Some Fine Easily-grown Palms

The flowering splendid Palms are readily grown from the fresh seeds I supply, and are of the easiest culture. The seeds require from two to six months to germinate, so do not be impatient if the plants do not show up promptly. Complete Special Mixture of all varieties, 5 cts.

Areca Lutescens, an elegant graceful Palm; leaves shining green with yellow stems; beautiful.
Brahea Filifera, magnificent gray-green leaves with tiny thread-like filaments, robust growth.
Chamaerops Excelsa, a robust Palm with orbicular leaves at top of trunk, somewhat glaucous.
Latania Borbonica, splendid big leaves, spreading; popular, easily-grown fountain-like Palm.

Phoenix Canariensis, one of the best for house culture; the leaves arched, giving a graceful effect.
Phoenix Robelina; very handsome, vigorous Palm with gracefully recurved leaves, fine house plant.
Sabal Palmetto, the beautiful native Palm of Florida, big flower clusters honey-producing; almost hardy.
Seaforthia Elegans, a splendid Palm from Australia; very graceful in form; likes heat, fibrous loam and sand.

Bean Scarlet Runner

Canary Bird Vine

Lophospermum Scandens

Ipomoea Coecinea

BEAUTIFUL ORNAMENTAL VINES

BEAN Scarlet Runner, hha, 15ft. An easily-grown vine bearing freely large clusters of rich showy scarlet flrs. followed by big pods of edible beans. 15 seeds; oz. 10c.

BENINCASA Cerifera, hha, 15ft. A handsome Gourd-vine; large leaves and big showy golden flrs 4in across, followed by white fruits 15in. long; used for preserves

BRYONIA Dioica, hhp, 8ft. A strong-growing tuberous-rooted perennial with racemes of small whitish flowers and red fruits; a good cover vine. 15 seeds.

Pedata, similar to above, handsome foliage; fast grower.

CYPRESS Vine, hha, 25ft. Easily-grown, very beautiful vines in both foliage and flrs; numerous bright flrs that stay open all day and bloom from early summer till frost. Colors: Scarlet, Rose, White or Mixed. 50 s.

DOLICHOS Lablab, hha, 20ft. A free-growing bean-like plant with purple flrs in great abundance, followed by reddish-purple pods that are as attractive as the flrs; a pretty vine to cover stumps, old buildings, trellises or for shade. I supply separate colors or all mixed. 15.

Giganteus, 6ft. Violet-red flrs, resembles Sweet Peas. 12.

Japonicus Albus, 2ft. A fine variety with white flrs. 12 s.

Violaceus, 2ft. Lovely violet-colored flrs, choice. 12 s.

New Dwarf Pink, 2ft. Showy pink flrs, fine for beds. 12 s.

ECBALLIUM Elaterium, ha, 6ft. A handsome trailing plant with cordate leaves and golden flrs an inch across; followed by oblong rough-hairy seed-pods that when ripe detach from the stem and violently eject the seeds from the stem end; curious and pretty. 20 s.

ECHINOCYSTIS Lobata, ha, 30ft, Wild Cucumber. A graceful rapid vine with inflated baloon-like fruits.

GIANT GOURDS or PUMPKINS. These are interesting as they often grow from 100 to 150lbs, and are of various colors. They have a tender rind and are edible.

Very Large Tours, 100lbs, gray and green; edible, inferior.

Potiron, mammoth yellow, keeps for winter, fine flavor.

Etampes, large, bright red, flesh orange, thick, sweet.

Gray Boulogne, gray, often 3 ft across, good flavor, fine.

HUMULUS Japonicus, Japanese Hop Vine, see pg 11.

Cobea Scandens "Cathedral Bells"

Here is a very beautiful, rapid-growing free-flowering vine too much neglected. It starts readily from seeds, planted edgewise, and will grow 30 ft. in a season, producing large graceful, showy purple and white bells throughout summer and autumn. Both foliage and flowers are surpassingly attractive. This vine has no enemies, and will grow in sun or shade. It is a perennial south, and will last for years. In the north it is grown as an annual. It also makes a fine pot-plant for winter-blooming when given a sunny window.

Purple, White, or Mixed.

Hercules Club Gourd

Maurandia Vine

Corsican or Dish Gourd

Thunbergia Alata

IPOMOEAS. These are among the most desirable of vines. They are readily started from seeds, grow rapidly, bloom freely throughout the season, and cannot be surpassed for covering old walls, buildings or trellises. Give strong support early. Most of the species are annual, but some are herbaceous perennials with tuberous roots. All are of easy culture.

Bona Nox, hha, 20ft. A vigorous vine bearing clusters of long-tubed bright lilac flowers throughout summer; a handsome trellis or wall vine; the Evening Glory. 10s.
Coccinea, hha, 30ft. Lovely vine with small graceful foliage and lovely scarlet flowers somewhat like Cypress-vine, open all day; graceful and of easiest culture. 20s.
Grandiflora Rubro-coerulea, hhp, 40ft. Heavenly Blue, early-flowering; most beautiful of all Ipomoeas. The flrs. are large and of the most exquisite blue imaginable.
Hederacea, hha, 15ft. The beautiful Ivy-leaved Ipomoea. lovely sky-blue flrs, free and continuous-blooming. 25
Huberi, hha, 15ft. Flrs of many colors, variegated foliage.
Imperialis, Japan Morning Glory, hha, 20ft. New giant-flower; very beautiful large flrs in many bright colors.
Leari, hhp, 25ft. A rapid vine with intense blue flowers till October; likes a warm, sunny place and good soil. 5
Limbata Elegantissima, hha, 20 ft. Vigorous vine, flowers dark blue striped white; very handsome. 30 seeds.
Mexicana, hhp, 30ft. A tuberous-rooted vine; flrs flesh with deep center. produced freely in big clusters. 30 s.
Nil Grandiflora hha, 30ft. Vigorous vine with large bell-shaped sky-blue flrs in abundance, graceful, showy. 15
Noctiflora Moon Vine, hhp, 20ft. A splendid vine, free and long blooming, flrs large, pure white, deliciously scented; charming. Black-seeded or White-seeded. 12 seeds
Sanguinea, hha, free growth, pretty foliage, scarlet flrs.
Scarletina, hha, 10ft. Pretty brick-red flrs, attractive. 8s
Setosa, Brazilian Morning Glory, hha, 30ft. Hispid vine with big clusters of showy red flrs, start early. 8 seeds.
Viola Vera Praecox, hhp, 40ft. Heavenly blue flrs. 12 s.

LAGENARIA. This species includes many varieties of hard-shell gourds of various shapes and sizes, the flrs are white, showy, fragrant and pretty.

Vulgaris Leucantha, a vigorous vine with branched tendrils and broad leaves, the fruit club-shaped, often called Hercules Club; sometimes attains a length of 6ft, and is used by some people as food, easily grown.
Dipper or Siphon, a handsome vine, the fruits having a long neck; used for dippers, bird-houses, etc.
Bottle Gourd, large, bottle-shaped with a long neck.
Powder Horn, fruits large, incurved like a powder-horn.
Sugar Trough, very large, used as troughs, lard-tubs, etc.
Corsican, Dish, big depressed fruits, used for receptacles.

Minima, very small, used for pipes and children's toys.
LATHYRUS Azureus, Lord Anson's Pea, ha, 3ft. Flowers blue, solitary, on long stems, a pretty variety. 25s
Rotundifolius, hp, 5ft. Large coppery-red flrs, long stems.
Tingitanus, ha, 6ft. Large purple and red flrs, handsome.

LOASA Lateritia, hhp, 5ft. A beautiful vine, red flrs. 100
LOPHOSPERMUM Scandens, hhp, 20ft. A lovely perennial vine with silvery foliage and large tubular rosy flrs; useful for window or out-door culture. 75 seeds.

LUFFA, Dish-rag Gourd, hha, 15ft. Very handsome vine in foliage, flrs and fruit; easily grown; always admired
Acutangula, golden flowers and long showy fruits. 15 s.
Macroparpa, yellow flowers, very large smooth fruits, 15
Marylandica, very interesting, large showy fruits. 12 s.
Cylindrica, a handsome variety; beautiful flrs and fruits.
Sooly-qua, a small-fruited variety; showy and attractive

MAURANDYA, hhp 6ft. Large-flowered, very free and long-blooming; graceful foliage; fine for trellises or to cover low fences. Colors: Rose, Purple, White or mixed

MINA Lobata, hha, 20ft. Flrs bright rosy-crimson changing to orange, then to yellow, disposed in scorpioid racemes; corolla salver-shaped with a swollen tube. 25s.

MOMORDICA Balsamina, Balsam Apple, hha, 6 ft. A pretty African vine, showy yellow flowers with brown spots, rich orange fruits; exceedingly handsome 30s.

Charantia, Balsam Pear, 6 ft. Similar to the Balsam Apple, pear-shaped; fruits are used in making salves. 30s

NASTURTIUM Giant Fragrant. The old-fashioned Nasturtiums of our childhood have been greatly improved, but they still recall the hallowed associations of by-gone days. The vines are stronger, the flrs larger and fragrant and the colors and marking more varied. The foliage, also, shows different graceful forms and charming variegations. I offer the finest varieties.

Asa Gray, beautiful creamy white, odd, very effective.

Atropurpurea, brilliant deep crimson, a choice variety.

Brilliant, fiery scarlet, dark foliage, extremely beautiful.

Butterfly, lovely yellow with showy salmon spots.

Cardinal, glowing scarlet with handsome dark foliage.

Chamaeleon, beautifully flaked and spotted, dark-leaved.

Cloth of Gold, golden foliage, brilliant red flowers.

Edward Otto, brownish-lilac flrs, odd, attractive, choice.

Fimbriatum, fine fringed varieties, rich colors mixed.

Firefly, bright orange yellow with cardinal spots, fine.

Golden Queen, golden foliage, sunflower-yellow flowers.

Gunter's Hybrids, dark leaved varieties in mixture.

Hederifolium, Ivy-leaved, beautiful colors in mixture.

Jupiter, pure orange yellow, large-flowered, attractive.

Kermesina, beautiful rich crimson, one of the showiest.

King Theodore, rich blood-red with dark foliage, fine.

Princess Victoria Louise, cream-yellow with red spots.

Ruby King, raspberry-red with dark foliage, charming.

Schillingi, flowers yellow spotted maroon, very pretty.

Twilight, chamois tinted salmon rose, a charming color.

Complete Special Mixture, above varieties, 50 s, oz 15c.

OVIFERA GOURDS. These are vines with tendrils and yellow flrs, bearing small fruits of various shapes, sizes and colors. They are easily grown, will trail, and produce their little hard-shelled gourds freely; sometimes called bitter-boxes, used for children's toys.

Bicolor, green and golden yellow, variegated, fine.

Miniature, round, dark green with gold stripes, choice.

Orange, resembles an orange in size, shape and color.

Nest Egg, the shape and color of an egg, very useful.

Pear Gourd, shaped, yellow and white, also Pear striped

Apple Gourd, shape of an apple; creamy-white, pretty.

THUNBERGIA Alata, hha, 30ft. This is a beautiful easily-grown vine, blooming continuously from early summer until severe frost, and if cut back and potted will bloom all winter in the house. The flowers are an inch across, of colors from pure white to rich orange, some spotted or eyed with black and white. It is one of our most desirable vines and should be better known

Oculata, lovely yellow with a big black eye, beautiful.

Alba Oculata, white with a large dark eye, pleasing.

Alata, nankeen or buff, showy and beautiful, effective.

Bakeri, pure white flowers, fine for a trellis, attractive.

Aurantiaca, beautiful deep orange, one of the prettiest.

Aurantiaca Oculata, rich orange with a large dark eye.

Fryeri, honey-yellow with a distinct white center, fine.

Complete Special Mixture of above varieties, 25 seeds.

Gibsoni, large orange flowers; seeds germinate tardily.

TRICHOSANTHES Colubrina, Serpant Gourd, hha, 15ft.

A handsome vine, the flrs pure white, long-fringed, very pretty, fruits 5ft long, coiled like a serpent, 15 s.

VICIA Gerardi, 4ft. lovely climber, racemes of blue flrs.

Snowdrift, 6ft. a quick-growing beautiful climber, with pretty foliage and superb white flowers in abundance.

Sweet Peas, Christmas, Grandiflora and Cupid

SEE ALSO PAGE 6 FOR GIANT SPENCERS IN BEST VARIETIES

The Giant Christmas Spencer Sweet Peas are very large, ruffled, fragrant flowers of all colors that develop from ten days to two weeks earlier than other varieties; this is their peculiar merit. I offer the finest Giant Christmas Spencers, as follows: **Aviator**, dazzling scarlet; **Blue Bird**, rich azure blue; **Glitters**, intense orange scarlet; **Harmony**, clear lavender; **Giant Rose-pink**; **Madonna**, pure white; **Warbler**, rich mauve-purple; **Yarrowa**, rose, bluish wings. Separate, about 50 seeds. Mixed, 60 seeds. Oz. 25 ets.

Grandiflora. These are large-flowered and free-blooming, come in all the fine colors. I supply a splendid mixture. Pkts, 75 seeds 5ets. Oz. 8ets.

Cupid, in finest mixture, 75 seeds 5ets. Oz. 8ets. These are bushy varieties that do not need support; they bloom profusely and are fine for beds and cutting.

NOTE. Sow early in a trench running north and south, covering a fourth inch deep, and drawing the soil in as the plants grow. When the soil is level, cover it with tobacco stems and supply a chicken-wire trellis into which tobacco stems have been woven. This will effectually ward off an attack of plant lice, which recently have been troublesome in some sections. The tobacco stems act as a fertilizer. Many growers prepare the soil by spading two feet deep in autumn, stirring into the bed a liberal application of rotted stable litter. When thus prepared the plants grow vigorously, and the flowers and clusters are of the largest size.

Acroclinium

Ammobium Alatum

Gomphrena Globosa

Statice

Xeranthemum

EVERLASTINGS or STRAW FLOWERS

The Everlastings have straw-like petals, and when cut and dried in the shade, they retain their form and color, and can be used with dried Grasses in bouquets and designs. Some of them, as *Acroclinium* and *Rhodanthe*, should be cut as they begin to open, for best results, others should remain until fully developed.

Acroclinium, ha, 18 in, 200. Lovely everlasting; graceful, free-blooming, easily grown, pretty double flrs. Rose, Pure White, Mixed.

Ammobium Alatum Grandiflorum, hb, 3 ft, 1000. A showy white everlasting of free growth; flrs double, profuse, keep well; cut early.

Celosia Spicata, hha, 2 ft, 50. A pretty garden flower and valuable everlasting from tropical Asia; flowers rosy white in fine spikes.

Gnaphalium Foetidum, hp, 2 ft, 100. Heads numerous, golden yellow; desirable everlasting.

Gomphrena Globosa, hha, 2 ft, 150. Beautiful free-blooming and continuous-blooming annuals of easy culture; splendid for beds and a first-class everlasting, retaining its form and color indefinitely; thrives in any soil and will endure drought and hot sun. It is a flower that should be generally cultivated for its beauty in beds as well as for drying. Colors: White, Flesh, Rose, Carmine, Variegated, or Mixed.

Globosa Compacta Rubra, 6 in. For pots and beds.

Aurea Superba, 1 ft. Long orange heads, showy.

Gypsophila Elegans, 18 in, ha, 1000. Small-flowered plants, the flowers appearing as a light cloud, being held on thread-like stems and are very numerous. Very graceful and almost indispensable for bouquets, also good for drying. Large-flowered White, Carmine, Rose; or Mixed.

Muralis, ha, 6 in, 1000. Lovely plants for the rockery or edging; flowers rose, in profusion.

Helichrysum Monstrosum fl. pl., ha, 30 in, 150. Very beautiful large double flowers, showy in beds and one of the best for drying. Will grow in any good garden soil, free and continuous-blooming. Colors: Cream White, Pure White, Fiery-red, Bronze, Yellow, Rose, Crimson, Salmon-rose, Sulphur or Mixed.

NOTE: These *Helichrysums* should be found in every garden. They are the largest and best of everlastings, start readily from seeds, and are of easy culture. I cannot too highly recommend them.

Helipterum Corymbiflorum, ha, 1 ft. A handsome white-flowered everlasting, the plant branching and blooming in corymbs. 50 seeds.

Sanfordi, Big corymbs of showy yellow flrs.

Lonas Inodora, ha, 1 ft, 300. Small golden flrs in dense terminal heads.

Molucella Laevis, ha, 18 in, Shell-like flrs. 35 s.

Physalis Franchetti, hp, 30 in, 100. Chinese Lantern; large orange-scarlet balloon-like fruits in long racemes; dry and keep well for winter decorations; edible when fresh, beautiful.

Polycolymna Stuartii, hha, 2 ft, 35. White, interesting, easily-grown plant, flowers dry well.

Rhodanthe, hha, 1 ft, 150. Excellent for pot and market plants, as well as fine for beds and drying; free and long-blooming; always admired. **Maculata**, Rose; **Maculata alba**, white; **Manglesii**, beautiful rose. Special Mixture.

Statice, Sea Lavender. These are of many kinds, and all are showy in the garden and excellent for bouquets either green or dry.

Bonduellii, hha, 3 ft, 15 heads. Yellow; a good border species and a fine everlasting.

Dumosa, hp, 2 ft, new, pure silvery gray; fine.

Incana Nana Hybrida, hp, 1 ft, 200. Mixed colors.

Latifolia, hp, 2 ft, 100. Small lavender; panicles.

Macrophylla, hha, 2 ft, large-leaved, azure, flrs.

Sinensis, ha, 18 in, 100. White and Yellow, fine.

Sinuata, ha, 1 ft, 10. One of the finest species for either garden or drying.

Spicata, ha, 6 in, pink flowers in dense terminal spikes in summer; pretty.

Suworowii, hha, 18 in, 200. Bright rose in large spikes; strikingly beautiful.

Complete Special Mixture, all varieties. 5c.

Xeranthemum, ha, 2 ft, very beautiful everlasting, flrs large, double, long-stemmed and lasting.

Imperial, double, large-flowered, dark red 100 s.

Superbissima, globular flrs of great beauty. Colors: White, Rose or Mixed. 100 seeds.

BIENNIALS AND PERENNIALS

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drought, regardless of neglect and improper attention. They are easily grown from seeds, except a few which are tardy and will lie dormant in the ground for several months, or a year or two, before germinating. All are readily transplanted and will generally thrive in the soil and exposure of an ordinary garden. When you make out your order do not forget to select a few perennials. Once started, they will afford you as much satisfaction and pleasure as anything that you can grow. Directions for making out-door beds and sowing seeds are sent with each package.

Achillea The Pearl

Anthemis Nobilis

- ACANTHUS Lusitanicus**, 3 ft., broad, glossy cut foliage; showy purple flrs. in spikes. 8
ACHILLEA Ageratum, 3 ft., heads of showy golden yellow flrs.; very attractive. 150
Filipendulina Parker's, 2 ft., robust gold heads. Kelewayi, 2 ft., showy, bright red heads. 100 s.
The Pearl, 2 ft., double, white; splendid. 100 s.
ACONITUM Napellus, 3 ft., dark blue spikes; fine for borders; lasts for years. 15 s.
Lycotomum, 3 ft., yellow, in spike-racemes. **Uncinatum**, 7 ft., deep blue, handsome. 15 s.
Willsoni, 8 ft., from China, blue flrs. 10 s.
Tauricum, 4 ft., beautiful deep blue flrs. in dense upright racemes; June. 15 s.
ADENOPHORA Potanini, 18 in., hardy Bell-flower; light blue, large drooping bells. 40 s.
ADLUMIA Cirrhosa, 20 ft., lovely biennial vine; pretty foliage; handsome pink flrs.
AETHIONEMA Grandiflora, 1 ft., lovely rose flrs. in long racemes; splendid. 10 s.
AGROSTEMMA Coronaria, 2 ft., showy phlox-like flrs. White, violet, bicolor, red or mixed. **Flos Jovis**, 1 ft., rosy clusters, fine. 100 s.
Waikeri, 2 ft., brilliant rose-purple. 100 s.
ALSTROMERIA Chilensis, 2 ft., tuberous plants; lily-like; in masses; mixed colors.
ALYSSUM Argenteum, 2 ft., silvery foliage, yellow flrs.; neat for the rockery. 100 s.
ANEMONE Japonica, 2 ft., rose and white flrs.; beautiful; free-blooming; autumn.
ANTHEMIS Kelwayii, hp, 2 ft. Handsome, continuous-blooming; flrs. golden yellow also white. 200 s
Nobilis, Cammomile, hp, 1 ft. Fragrant cut foliage; white, gold disk; for beds; medicinal. 100 seeds.
Tinctoria, Golden Marguerite, 2 ft, gold shaded white. **Macedonica**, 6 in., free-blooming plant for edgings or the rockery, flrs white, very pretty, easily grown. 150 s
ANTHERICUM Lilastrum Giganteum, 2 ft., flrs. large, white, lily-like; fine. 25 seeds.
ARMERIA Formosa, 2 ft., fine, mixed. 50 s.
- ASCLEPIAS Tuberosa**, 1 ft., showy clusters of orange and scarlet flrs.; summer. 35 s.
ASPHODELUS Luteus, 4 ft., yellow fragrant flrs. in long racemes; lily-like. 8 s.
ASTER, Perennial. These are fine autumn flrs. mostly blue and red shades. They are among our best perennials; some bloom well the first season.
Alpinus, 1 ft., large, beautiful, profuse. **Goliath**, 2 ft., largest flrs., soft blue, fine. 50 s.
Amellus, 2 ft., blue and rose shades. 50 s.
Cassubicus Grandiflora, 2 ft., large blue flrs.
Diplostephioides, 1 ft., large, light blue; charming; pots or beds; splendid. 50 s.
Snowflake, 2 ft., large white flrs.; fine. 50 s.
Horizontalis, 3 ft., large showy flrs.; splendid.
Grandiflorus, 3 ft., large-flowd. branching plants; blooms first season; lasts for years.
New Double-Flowered, 3 ft., fine double and semi-double flrs.; blue and red shades mixed. Complete Special Mixture all varieties. 100 s.
ASTILBE Davidii, 6 ft., long graceful panicles of rosy-lilac flrs.; rare; beautiful. 300 s.
AUBRIETIA, 6 in., spreading plants that form a sheet of early spring bloom; lovely red and blue shades; very beautiful. **Eryth.** large blue, splendid. **Graeca**, light blue, floriferous. **Purpurea**, violet, fine. Separate 150 seeds; mixed 250 seeds.
BAPTISIA Australis, 4 ft., azure; pea-like flrs. in racemes; a fine perennial. 25 seeds.
BETONICA Grandiflora, 2 ft., hardy border plant; flrs. reddish purple in large heads.
BOCCONIA Cordata, 8 ft., Plume Poppy; panicles of chamois flrs.; heart-shaped leaves. **Microcarpa**, 9 ft., amber buds, buff flrs. 100 s.
Thunbergii, 7 ft., flesh buds, coffee-colored flrs.; red veined foliage; fine. 100 s.
BUPHTHALMUM Saicifolium, 2 ft., large yellow flrs.; willow-like foliage; handsome.

AQUILEGIA, the Beautiful Columbine

I have a splendid collection of these graceful, showy, and beautiful perennials, all hardy, easily-grown, free-blooming, and greatly admired. They delight in moist soil and partial shade, and are easily started from seeds, which require from four to six weeks to germinate, according to conditions.

- Alpina**, 2 ft, blue flrs, 3 in across, 2 or 3 on a stem; rare. 150 s.
Superba, 2 ft, new, superb, flrs blue, white corolla. 150 s.
Baicalensis, 2 ft, beautiful blue with snow-white corolla.
Californica Hybrida, 3 ft, sepals and petals tinged orange, long carmine-like spurs, canary corolla. 100 seeds.
Canadensis, 1 ft, old rose and golden yellow; graceful. 100 s.
Caryophylloides fl. pl. beautiful striped varieties. 100 seeds.
Chrysantha, 3 ft, chrome yellow, long spurs, blooms all summer, a splendid perennial. 150 seeds.
Grandiflora Alba, 2 ft, a sort with large snow-white flrs.
Double-flowd, 3 ft, golden yellow, the best double, 75 s.
Coerulea, Rocky Mountain Columbine, 2 ft, sky blue with white corolla, one of our loveliest, fine. 50 seeds.
Citrina, 2 ft, lemon yellow, long spurs; **Rose Queen**, rich rose, white corolla; **Double-flowd**, white, yellow, blue.
Erecta Nana Atrovioacea, 1 ft, choice dble violet-blue. 50 s.
Flabellata Alba, 1 ft, pure white, early-flowering. 30 s.
Glandulosa, 3 ft, large, nodding, lilac blue, white tips.
Formosa, 1 ft, large double flrs, nodding, graceful. 50 s.
Haylodgensis Hybrids, long-spurred, splendid; mixed.
Helena, 2 ft, large flowers, violet blue. 50 seeds.
Hybrida Vernalis, 2 ft, semi-double, long-spurred. 100 s.
Jaetschaui, 3 ft, large golden flrs, peach spurs. 50 s.
Nivea Grandiflora, 3 ft, large semi-double. 150 seeds.
Olympia, 3 ft, big blue flrs, lovely white corolla. 100 s.
Scott Elliott's Long-spurred, mixed colors, fine. 100 s.
Siberica, 1 ft, large dble, blue, rose, red, sep or mx. 50 s.
Skinneri, 2 ft, yellow with scarlet spurs, profuse. 50 s.
Stellata fl. pl., 3 ft, double, erect flrs, mixed. 100 seeds.
Truncata, 3 ft, old rose with yellow, early, fine. 100 s.
Vervaneana fl. pl., rosy-lilac, variegated foliage. 100 s.
Vulgaris fl. pl., 2 ft, in many colors and forms, often blooming throughout the season; can be grown along streams or in by-ways. Mixed colors, 300 seeds.
 Long-spurred varieties in splendid mixture. 200 seeds.
 Complete Special Mixture all sorts, single and double.

Campanula medium Doube

Digitalis, Foxglove

Helleborus Niger

Wallflower Large-flower

CAMPANULA, Perennial Bellflowers

THESE beautiful Bellflowers are hardy perennials, lasting for years. Many of them are fine for beds, and all are excellent garden flowers. Barbata, Carpatica, Garganica, Rotundifolia Superba, Pusilla and Sarmatica are unsurpassed for the rockery, see also page 58.

Alliariaefolia, 3 ft., big cream nodding bells, 300 seeds.
Carpatica, 1 ft., beautiful large open long-stem bells; fine for beds and rockeries; White, Blue, Mixed, 300 s.
Garganica, 6 in., rotate blue flowers; fine for window boxes or baskets; blooms all summer; seeds small, 100s
Grandis, 3 ft., large blue saucers; very showy. 150 s.
Glomerata Superba, 2 ft., large clusters, violet, 150 s.
Latifolia, 2 ft., very large blue bells, free, 150 seeds.
Alba, 2 ft., very large pure white, profuse, 150 seeds.
Macrantha, 4 ft., deep violet flrs, fine for borders, 150s.
Alba, 4 ft., pure white, large, fine, 150 seeds.
Michauxioides, 5 ft., azure, nodding, showy, 150 seeds.
Pyrabilis, 2 ft., pyramidal; big blue bells; fine, 25 seeds.
Persicifolia Grandiflora, 3 ft., beautiful large open bells in July, in terminal and axillary racemes; showy;

Blue, White, separate or mixed. 300 seeds.
Telham Beauty, 3 ft., new; huge blue bells, 100 seeds.
Giant-flower Double, lovely blue and white mx. 100s.
Pyramidalis, Chimney Bell Flower, 5ft.; big branching plants, forming a pyramid of long racemes laden with charming blue or white bells; elegant in borders or beds, blooming freely during summer. Colors: Blue and White, separate or mixed, 500 seeds.
Compacta, 3 ft., a dwarf form, free-blooming; mx, 250s
Rapunculius, 3 ft., small, lilac bells narrow spikes, 300 s.
Rotundifolia, 1 ft., Scotch Blue Bells; lovely. 100 s.
Turbinata, 1 ft., splendid spreading perennials, free-blooming, showy; flowers large, open bells; fine rock plant, Blue, White; separate or mixed, 150 seeds.
 Complete Special Mixture Perennial Campanulas. 250 s

Campanula Medium, Canterbury Bells

The Canterbury Bells are biennials, easily grown from seeds, and when in bloom are the most attractive of garden flowers. They grow two feet high, becoming pyramidal little trees literally covered with large, exquisite bells, graceful in form and rich in color.

SINGLE: White, Lilac, Deep Lilac, Rose, Carmine, Striped, and Light Blue 250 seeds. Mixed 750 seeds.
DOUBLE: White, Lilac, Deep Lilac, Rose, Carmine, Striped, Light Blue, 250 seeds. Mixed 750 seeds.
Calycanthema (Cup and Saucer) White Blue, Rose,

Don't forget the splendid "Bell Flowers" when ordering.
 Striped, Lilac, Carmine, Deep Blue, separate 250 s.
 The colors in Complete Special Mixture, 750 seeds.
Praecox, Single, early-flowering. White, Rose, Blue, Striped, separate or mixed 250 seeds.
 Complete Special Mixture of all the above, 1000 seeds.

CANARINA Campanula, 4 ft., large yellowish red-nerved bells with deep red border. 25 s.
CATANANCHE Coerulea, 3 ft., flrs. blue, 2 in. across; long stems; fine for cutting. 50 s.
Bicolor, white with blue eyes, fine. 50 s.
CEBATHA Carolina, 20 ft., lovely vine; small white flrs., followed by scarlet berries that hang till Christmas; handsome. 20 s.
CEDRONELLA Cana, 2 ft., evergreen mint; crimson, sweet-scented flrs. in spikes. 25 s.
Canariensis, 2 ft., charming lemon-scented

foliage, light rose flrs., easily grown. 20 s.
CENTAUREA Babylonica, 8 ft., handsome perennial; many golden flrs.; showy. 25 s.
Macrocephala, 3 ft., big golden heads, 25 s.
Montana, 2 ft., superb large blue flrs. 20 s.
Ruthenica, 4 ft., pinnate foliage, yellow flrs.
CEPHALARIA Alpina, 8 ft., Scabious-like yellow flrs.; beautiful; easily grown. 50 s.
Tartarica, 8 ft., yellow; tall, showy. 50 s.
CHAMAPEUCE Diacontha, 4 ft., deep lilac flrs., with white-spined leaves. 20 s.

CARNATIONS, Finest Hardy Varieties

If I were limited to a half dozen perennial flowers, one of them would be the Improved Large-flowered Carnation. The plants start readily from seeds, stool out into fine clumps, begin to bloom in five months, and bloom continuously. If potted they will bloom in the sunny window in winter. The flowers are large, perfectly double, deliciously fragrant, and some in rich colors, some striped and blotched. The plants will last for years, requiring a little protection at the far North. To protect simply place a board frame a foot high around the bed and fill it with dense, nude brush. This will protect other plants as well as Carnations.

Chabaud Carnations, colors: Snow White, Cochineal Carmine, Sulphur Yellow, Vivid Dark Red, Rosy Mauve, Pale Rosy Lilac, Copper Red, Ruby Red, Dark Blood Red, Bright Scarlet, Yellow Ground. Finest quality of seeds, direct from Vilmorin, Separate colors or in splendid mixture, 75 s.

Margaret, Benary's Improved, 1 ft. large, very double and fragrant; colors: White, Dark Red, Rose, Scarlet, Violet, Pure Yellow, separate or in splendid mixture, 100 seeds 5 cts.

LILIUM Regale, new, hardy, tenacious; flrs. large, white with pink, richly scented.

Auratum, Gold-banded Lily, sweet-scented.

Giganteum, long tubular white flrs. 15 s.
Martagon, purplish-rose, spotted black. 15 s.

LINDELPHIA Spectabilis, 2 ft., pretty blue flrs., in racemes; a fine Boragewor; showy.

LINUM Narbonense, 2 ft., rich blue panicles; a showy and beautiful perennial.

Flavum, golden bell-shaped flrs., in heads. 50

LOBELIA Cardinalis, 2 ft., the beautiful Cardinal Flower; one of our finest perennials; bright scarlet spikes; likes moist soil and partial shade; blooms throughout autumn.

SYPHILITICA, 2 ft., spikes of big blue flrs.

LYTHRUM Roseum Superbum, 3 ft., rose flrs.

Salicaria, 3 ft., rich purple flrs., in spikes.

MALVA Alcea, 5 ft., rose; handsome. 25 s.
MECONOPSIS Cambrica, 1 ft., Welsh Poppy; large, showy sulphur flrs.; rock plant. 350 s.

Balleii, 2 ft., new, from China; glorious sky-blue Poppy-like flrs., with showy golden anthers; a very beautiful garden perennial.

MONARDA Didyma, 2 ft., Cambridge scarlet; an elegant fragrant mint.

Hybrida, 3 ft., showy; the flrs. of various colors in big heads. 100 s.

MORENA Longifolia, 3 ft., admirable foliage, pinkish-crimson tubular flrs., in whorls.

OENOTHERA Fraseri, 2 ft., golden flrs.

Odorata, 2 ft., large yellow-red fragrant flrs., in early spring; biennial.

OMPHALODES Linifolia, 1 ft., racemes of pretty white flrs.; blooms first year.

ONOPORDON Acanthium, 5 ft., a bold, silvery plant with big purple flrs. Biennial. 50 s.

Salteri, 11 ft., an imposing ornamental plant; foliage lacinated, silvery; stems snow-white, flrs., in profusion; very showy and beautiful.

OROBUS Niger, 3 ft., purple, pea-flrs., 25 s.

LEUCANTHEMUM, Maximum Giant Field Daisy

The Giant Field Daisies are splendid perennials, hardy and lasting. The flrs are large, up to five inches across, very showy and long-blooming in beds, and fine for cutting. I offer the finest varieties:

Etoile d'Anvers, 4 ft., big white flowers, very free.

Hybridum, 2 ft., new Early Spring Daisy; splendid.

King Edward VII, 3 ft., robust, big white flowers.

Mrs. C. Lothian Bell, 3 ft., new and very beautiful.

Shasta Daisy, 2 ft., Alaska, pure white, charming.

California, 2 ft., large yellow Daisies.

The Prince, 2 ft., new, very large white flowers.

The Speaker, 3 ft., robust plants, big showy flowers.

Ulginosum, 5 ft., Giant Ox-eye Daisy, robust branching plants literally smothered with flrs 2 inches across, white with gold center. Perfectly hardy and lasts for years when once established.

Complete Mixture of above beautiful Giant Daisies.

LUPINUS, FINEST HYBRIDS

The Hybrid Lupines are beautiful easily-grown perennials. The plants are from 2 to 5 feet high, branching and terminating in long, dense, erect spikes of lovely bloom in rich and varied colors. A bed of them should be in every flower garden. I offer the finest sorts:

Arboreus Aureus, 5 ft., yellow; **Snow Queen**, white, both handsome, separate or mixed.

Golden Spire, 5 ft., new, long golden yellow spikes, one of the most showy and beautiful.

Douglasii Superbus, violet blue with white spikes.

Excelsior, New Hybrids, 3 ft., splendid, mixed colors.

Sweet-scented Hybrids, 3 ft., fine mixed colors.

Kelway's New Hybrids, magnificent, superb colors.

Harkness Hybrids, 3 ft., new, art shades, mixed.

Downer's New Hybrids, early, splendid colors.

Sunshine, 3 ft., bright yellow, showy, fine.

Complete Special Mixture of the above.

Primula Veris (Elatior).

Sweet William, Double

PAPAVER ORIENTALIS, Finest Hybrids

The Improved Hybrids of Papaver Orientalis are of the largest and most attractive of garden perennials. The big long fringed leaves are not unlike Fern leaves, and the showy buds that issue from the ground on strong stems three feet high develop into enormous flowers, brilliant in color and graceful in form, and waving in the breeze are amazingly beautiful and attractive. Once started, a bed will last for years. Don't forget these Poppies when you order your perennials. I offer only the huge-flowed, in the richest, most charming colors:

Bracteatum, 3ft. glowing red, large and attractive.
Brilliant, 3ft. vivid fiery-red, one of the brightest.
Colossal, 4ft. giant, enormous flrs. dazzling scarlet.
Apricot Queen, 3ft. salmon or apricot color, charming.
Rembrandt, 3ft. magnificent orange-scarlet, showy.
Princess Victoria Louise, magnificent salmon pink.
Mrs. Perry, 3ft. orange-apricot, rare and handsome.
Queen Alexandra, 3ft. rosy salmon, crimson spots.

Royal Scarlet, 3ft. gigantic scarlet flowers, attractive.
Salmon Queen, new and beautiful shades of colors.
Benary's Finest Large-flowed German Hybrids Mx.
Excelsior English Hybrids, from a choice collection.
Perry's New White-flowered, rare, fine.
Feltham Hybrids, various colors without spots.

Complete Special Mixture of Oriental Poppies.
 Per. Poppies are not always true grown from seeds.

PAEONY, Chinese, dble., Prize Mixed. 5 s.

Officinalls, single, dark red, splendid. 8 s.

PARDANTHUS Silesiensis, 2 ft., Blackberry

Lily; flrs. red and yellow spotted. 10 s.

PENTSTEMON. On Page 60 I offer Mette's

Giant Gloxiania-flowered Pentstemon, a grand perennial blooming the first season and a splendid bedding plant.

Cobaea, 18 in., white shaded purple, large,

Gordoni splendens, 3 ft., blue flrs., big spikes.

Hybrida Gracella, 2 ft., small flrs. in profusion; fine colors; an elegant sort. Mixed.

Pulchellus Hybridus, 2 ft., bell-flrs. in pink,

purple, violet; graceful spikes. Mixed. 200.

Isophyllus Hybridus, 3 ft., free and long-flang.; flowers on long stems, many colors.

Southgate Gem, 2 ft., crimson-scarlet; an outstanding bedding plant; showy.

Complete Special Mixture. 250 s.

PHASEOLUS Caracala, vine, purple flrs. 3 s.

PHLOX Perennial, 2 ft., from the finest collections of new large-flwd. sorts. 50 s.

PHYTOLACCA Decandra, 8 ft., big rich-red

stems and bronzy leaves; white flrs., in

racemes followed by dark red berries relished

by birds. On my grounds the plants

grow in odd nooks to provide food for birds.

Kaempferi, 4 ft., Japan Pokeberry; fine. 50 s.

PINKS, HARDY GARDEN FINEST VARIETIES

These Pinks have been greatly improved, being plain

and fringed, single and double, rich-colored and variegated, summer blooming. We have the finest kinds;

Plumarius Diadematus, single spotted, sweet-scented

Diadematus double mixed.

Pheasant Eye, fringed, richly scented.

Double and semi-double, 1 ft, fine colors in mixture.

Dwarf Erfurt Pheasant Eye, dwarf double, mixed.

Perpetual Pheasant Eye, finest single mixed.

Double White with distinct eye; a fine new variety.

Double Perpetual Red in splendid glowing shades.

Double French Perpetual Cyclops, large, beautiful.

Scoticus fl. pl., splendid French double in fine mixture.

Complete Special Mixture of all above Hardy Pinks.

POLEMONIUM, Jacob's Ladder, 2 ft., lovely

flrs., in fine spikes. Blue, white, or mixed.

PRIMULA, Beautiful Hardy Kinds

The Hardy Primroses are excellent garden flowers and should be better known. Once started most of them will last for years and afford a showy and beautiful display every spring, the clustered flowers appearing in many lovely colors and lasting for weeks. The seeds are often tardy in starting, and the seed-bed should not be disturbed until the seeds have had time to germinate. I offer the finest kinds for garden beds:

Acaulis Grandiflora, 6in. Blue, White, or Mixed.

Auricula, finest strain from prize flowers.

Anisodora, 18in. Rich crimson flowers in whorls.

Beesiana, 1ft. Velvety purple, gold eye, free-blooming.

Briscoei, 2ft. Like Primula Japonica; brick-red flrs.

Bullisiana Hybrida, 18in. Red, Orange, Blue, mixed.

Bulleyana, 2ft. Bright chrome yellow, beautiful.

Cashmeriana, 1ft. Lilac, compact umbels, earliest.

Cockburniana, deep orange-scarlet, very handsome.

Cortusoides, charming deep rose umbels, distinct.

Denticulata Grandiflora, 1ft. White, lilac, rose,

red, in mixture; flowers in dense heads.

Farinosa, 6in, Bird's Eye Primrose, compact umbels

light purple with a gold eye, avoid hot sun.

Floridae, 4ft, new Chinese giant, golden flrs, lovely.

Froncosa, 6in, silver foliage, pretty rosy lilac flowers.

Ipswich Hybrids, 2ft, new strain, many strange colors.

Helodoxa, 3ft, long spikes of golden flrs in whorls, fine.

Japonica, 2ft, splendid, white to crimson in spikes.

Monstead Strain (Veris) big showy umbels in spring,

flowers, largest in size, wonderful shades of colors.

Officinalls Hybridus, 1 ft, sweet scented Cowslip.

Pulverulenta, 2 ft, like Japonica, shining red flowers.

Rosa Grandiflora, 6in, bright rose, gold eye, large in

big umbels, a fine species, beautiful flowers.

Sieboldii, 1 ft, fine large-flowed hybrids, mixed colors.

Sikkimensis, 1ft, yellow, fragrant, drooping flowers.

Veris (Elatior) 1ft, various colors, fine umbels, spring.

Grandiflora, huge flowers, big umbels, mixed colors.

Gold-edged, brown edged gold, beautiful and showy.

Aurea, golden yellow in fine big umbels, superior.

Splendid Mixture of Veris Primroses.

Veitchi, 18 in, umbels of deep rose flowers, distinct.

Verticillata, 1 ft, golden yellow flrs, silver foliage.

Vulgaris, 6in, true yellow Primrose, profuse in spring.

Complete Mixture of Hardy Primroses, 5ets.

Pentstemon, Beautiful Hybrids. See Page 41

Scabiosa Japonica

POLYGONIUM Baldschuanicum, robust vine, 20 ft., rose clusters, free-blooming all summer. Multiflorum, 20 ft., rapid, free-blooming vine. Sachallnetse, 8 ft., yellowish flrs. Sieboldii, 6 ft., pretty foliage, white flrs. 100 s.

POTENTILLA Hybrida, strawberry-like plants; flrs. yellow, rose, brown, scarlet. Mixed. 500 s. Double-flowd. varieties with double flrs. 100 s. Warrensi, new; 2 ft., bright-yellow.

PRUNELLA Grandiflora, 6 in., blue; rockery.

PYRETHRUM Roseum, 2 ft., beautiful Cosmos-like flrs., in many charming rich colors, on strong stems; showy in beds

James Kelway, 3 ft., deep velvet-red. 50 s.

Vis Bros. of Holland make a specialty of these flrs., both single and double, and I offer seeds of their superior collections.

Kelway's Exhibition seeds, single or double.

Cineraria folium, 2 ft., lovely white daisy-like

RHEUM Collinianum, 7 ft., giant foliage.

SCABIOSA Caucasica, 3 ft., fringed, blue; also white; Separate or mixed. 30 s.

House's Hybrids, 3 ft., large, showy, mixed.

Japonica, 2 ft., lavender, fine for cutting.

SENECIO Clivorum, 4 ft., large, decorative foliage and rich orange flrs.; a good perennial

SIDALCEA Rosy Gem, 2 ft., spikes of lovely small "hollyhock" flrs. Award Royal Hort.

SILENE Fortunel, 2 ft., bright rose, feathered.

SOLIDAGO, 6 ft., Golden Rod, hardy native perennial bearing big golden plumes 500 s.

SPIREA Filipendula, Dropwork, 3 ft., rose

SWEET WILLIAMS (*Dianthus Barbatus*) are favorite garden flowers, being showy, fragrant, and long-blooming. The plants stool out and become large clumps, each throwing up a number of strong stems that are surmounted with large, exquisite clusters. They grow readily from seeds, and thrive in any soil or sunny situation. I offer the finest known varieties, both single and double, and they show all the new beautiful colors and variegations. See eng. on page 41.

Single: Pure White, Dark Crimson, Turkey Red, Pink, Beauty, Bright Rose, Scarlet Beauty, Holborn Glory, Darkest Red, Henderson's Perfection (with large eye) Johnson's Diadem (dark scarlet with big white eye), Harlequin (white, rose and red flrs in same cluster), Giant Auricula (big eyes), Separate or mixed, 250 s.

Double: Pure White, Crimson, Margined, Black-red, Rose, Separate or mixed. 250 seeds.

Complete Special Mixture, Single and Double, 250 s.

Annual Sweet William, 1 ft., blooms the first season.

STACHYS Lanata, 2 ft., silvery fol., dark rose

STENACTIS Speciosa, 2 ft., lovely blue, 75 s.

SYMPHYTUM Asperillum, 4 ft., Prickly Comfrey; rosy lilac bells in curved racemes.

TELEKIA Speciosa, 4 ft., golden "Aster" flrs.

THALICTRUM Aquileglaefolium, 3 ft., lovely "Columbine" foliage and pretty rosy flrs.

Dipterocarpum, 4 ft., lilac-rose; fine to cut.

THERMOPSIS Carolinannum, 4 ft., golden Lupin-like flrs., long spikes. 8 s.

TRIFOLIUM Incarnatum, 1 ft., showy Scarlet Clover; annual. 250 s.

Rubens, 2 ft., large carmine elongated heads; upright growth; a handsome perennial. 250.

TROLLIUS Europaeus, 2 ft., Golden Balls.

Ledebouri, 2 ft., bright orange, free. 50 s.

VERATRUM Nigrum; 5 ft., long panicles of purple flrs.; striking. 250 s.

VERBASCUM, Harknes Hybrids, 7 ft., huge spikes of golden bloom; early summer.

Miss Willmot, 5 ft., big spikes, white. 500 s.

Olympleum, 6 ft., golden flrs.; **Pannosum**, 5 ft., sulphur. 500 s.

Phoeniceum Hybrids, 3 ft., white to purple.

Giganteum, 10 ft., silvery foliage, golden flrs.

Wiedmannianum, 3 ft., spikes of violet flrs. Complete Mixture of Verbascum.

VERNONIA Novaboracensis, 6 ft., brush-like purple flrs., in big corymbose heads; showy.

VERONICA Splcata, 2 ft., lovely blue spikes.

Longifolia, 2 ft., compact, blue clusters. 500 s.

Incana, 2 ft., pretty silvery foliage and Ageratum blue flrs.; fine for beds. 500 s.

Virginica, 4 ft., foliage in whorls; cup-like white flrs.; golden anthers; fine. 500 s.

VIOLA Odorata, 4 in., the pretty Sweet English Violet; blooms almost continuously; large, long-stemmed, deliciously fragrant.

Queen Charlotte, large, dark blue, fine for pots or beds; very fragrant. 30s.

The Czar, lovely blue, an old favorite; also Pure White; both fine Violets. 30 s.

WALLFLOWER, FINEST LARGE-FLOWERED

These deserve more attention. They are easily grown from seeds, and in mild climates bloom freely during winter. The flowers are large, of fine colors, and deliciously perfumed. I offer the following splendid sorts:

Eastern Queen, clear bright chamois, very distinct.

Feltham Early, fine red-brown, a market favorite.

Golden Monarch, golden flrs, dwarf compact habit.

Primrose Monarch, like Golden Monarch, but of a lovely Primrose color, large and fine.

Vulcan Improved, deep velvety-red, rich, beautiful.

White Dame, large trusses creamy white, scented flrs.

Kelway's Langportian, huge single flrs 2½ in across, borne on immense trusses, splendid deep red color.

Complete Special Mixture of these Wallflowers.

Benary's Double Dwarf Branching, 1 ft., all colors.

YUCCA Aloifolia, Adams Needle; Variegated foliage; **Quadricolor**; **Filamentosa**, silk grass. **Whipplei** fine, distinct. 8 seeds.

Abutilon, Benary's Giant

Calceolaria, Kelway's Perfect Model

Cineraria Grandiflora

CHOICE WINDOW-GARDEN SEEDS

There is a lot of pleasure as well as economy in growing pot plants from seeds, and the plants are more appreciated than if purchased from some grower. I would, therefore, urge my friends to order a liberal supply of the choice seeds I offer. I especially recommend my seeds of Begonia, Calceolaria, Cineraria, Cyclamen, Carnation, Geranium, Heliotrope, Lantana, Primrose, Stock, and Wallflower. My strains of these are unsurpassed.

ABRUS Præcatorius, Prayer Bean, 15 ft. vine—beautiful foliage, large purple clusters of bloom; seeds bright scarlet. 30 seeds.

ABUTILON, 3 ft., Benary's Giant, big, showy bells of various colors; blooms in six months. Hibiscus-flowered, large hibiscus-like flrs., of various shades; fine for pots; 25 seeds.

New Hybrids, from a fine collection, 30 seeds.

ACACIA Arabica, 18 ft., the source of gum arabica; has pretty foliage; 25 seeds.

Dealbata, Silver Wattle, 5ft., pinnate foliage.

Decurrens, Black Wattle, 5 ft., floriferous.

Farnesiana, 8 ft., blooms early spring; yellow.

Longifolia, 10 ft., Golden Wattle; yellow flrs.

Lophantha Speciosa, 5 ft., elegant pot plant.

Complete Special Mixture of all, 30 seeds.

ACHIMENES, 6in, fine showy flrs akin to Gloxinia; requires same treatment; small seeds, mixed colors. 100.

AGAPANTHUS Umbellatus, 2 ft., a splendid flowering pot plant; umbels of big blue bells.

AGATHEA Amelloides, 1 ft., the lovely winter-blooming Paris Daisy. 50 seeds.

AGAVA Americana, Century Plant, hardy South. pot plant North; graceful foliage, beautiful. 8 seeds.

AGERATUM Conspicuum, 1ft., white clusters; winter-blooming pot-plant, fine for cutting. 100 seeds.

Lassauxii, 1ft., fine pot-plant, mauve flrs, 100 seeds.

ASPARAGUS Plumosus Nanus, 2 ft., lovely plumey foliage; for pots. 10 seeds.

Plumosus Robustus, 10 ft., vine, fine foliage.

Tenuissimus, 5 ft., rare; very fine for pots.

Spinosus, 30 ft., for pillars; white sweet flrs.

Sprengerl, 5 ft., Emerald Feather; baskets.

Verticillatus, 15 ft., hardy; fine out-doors. 10 seeds.

Special Fine Mixture, 15 seeds.

BEGONIA Gracilis, 1 ft., graceful, free and ever-blooming pot plants for winter; mixed

Luminosa, 1 ft., bronze foliage, fiery scarlet flrs.; free-blooming; for pots or beds. 200 s.

Gloire Louveciennes, 1 ft., white flushed rose, very fine for pots and beds. 250 s.

Semperflorens, 1 ft., Bedding Queen, giant flrs. of lovely pink. 250 s.

Compacta Atropurpurea, 6 in., compact, free-blooming, splendid for beds. 250 s.

Triumph, 1 ft., lovely, big white flrs. 250 s.

Vernon, 1 ft., blood-red flrs., bronze fol. 250 s.

Rosea, 1 ft., charming rose, floriferous. 250 s.

Complete Mixture of all the above 500 s.

Erfordia Superba, 1 ft., charming pale rose.

BEGONIA, Tuberous-rooted. I offer only the finest quality of Tuberous-rooted Begonias—seeds that will afford the largest and most beautiful flowers.

If sown in early Spring, you may expect blooming plants by winter. The seeds are diminutive, but full cultural directions are sent with the seeds.

Orange, Single Mixed, Double Mixed, or Complete Mixture.

BIGNONIA Tweediana, vine from Buenos Aires; big golden trumpets; hardy south.

CALCEOLARIA, Kelway's Perfect Model.

Calceolarias are of easy culture from seeds, and a windowful of the blooming plants is a sight of surpassing beauty. For this reason I offer the seeds of Kelway's Perfect Model, as I am confident that it is unsurpassed by any other. Other choice kinds:

Grandiflora Tigrina, Benary's Strain, 100 seeds.

Olympia, golden yellow blotched brown, 100 seeds.

Clibrani, Profusa, small canary flrs, profuse. 100 s.

Complete Special Mixture of above, 100 seeds.

CALLA Athiopica, the old White Calla. 10 s.

Devoniensis, the large-flowered Calla. 10 s.

CAMELLIA Japonica, 5 ft., Japan Rose.

CAPSICUM, 1 ft., small, fancy, mixed. Page 20.

CASSIA Floribunda, 3 ft., annual; golden flrs. in clusters, abundant; pretty foliage; showy.

CENTROSEMA Grandiflora, vine, blue flrs.

CHRYSANTHEMUM, Comtesse de Chambord, 2 ft., Paris Daisy; good pot plant; white

Indicum fl. pl., the hardy fall Chrysanthemum.

Japonicum, fl. pl., Jap. Chrysanthemum, double mixed.

CINERARIA, Improved Large-flowered.

Really the most showy and beautiful of all window plants are the Improved Large-flowered Cinerarias.

A windowful of the blooming plants is beautiful beyond description. I am pleased to offer Kelway's

Model as the finest of all strains. It is the result of years of skillful effort by the Kelways, and the plants

are compact, free-blooming, and graceful, while the flowers are of great size, fine form, and of wonderful

colors and variegations. Mr. Benary's strain is also fine. Why not get a packet of each, for you cannot

have too many of these magnificent flowers. See eng.

Kelway's Perfect Model Single, splendid mixed. 50 s.

Perfect Model Double, splendid mixed, 50 seeds.

Benary's Superb Strain, Single, mixed, 50 seeds.

Kelway's Stellata, 3 ft., small flrs of many fine colors in profusion, showy and fine for cutting, 100 seeds.

Kelway's Stella, dwarf, 1 ft., fine for pots, flrs small.

Vilmorin's Fine French Cinerarias, mixed. 100 s.

Vilmorin's Fine Cinerarias in separate colors: Royal Blue, Antique Rose, Striped, White, Glowing Scarlet.

Complete Special Mixture, all varieties, 100 seeds.

CLIANTHUS Dampieri, 2 ft., red and black.

Punicus, 5 ft., brilliant red, spotted, fine.

CLITORIA Ternatea, 6 ft., vine, rich blue. 25 s.

COLEUS, Finest Varieties. Plants are readily grown from seeds, and if the strain is good the colors and markings will be beautiful.

Kelway's Unique, 2ft. Elegant twisted foliage. 50 s.

Pyrenean Giant, 3 ft. Elegant giant sorts mixed.

Striped Empel, 2ft. Laciniated leaves striped with green, white, gold, and brown; from Vilmorin.

Benary's Exhibition, 2ft. Extra; the finest of Coleus saved from Benary's splendid collection. 20 seeds.

Vilmorin's Large-leaved, large, variegated, fine.

Complete Special Mixture of the above. 100 seeds.

CONVOLVULUS Mauritanicus, trailer; a lovely vine for baskets; rich blue flrs. 25 s.

Aureus Superbus, a rapid vine with golden flrs.; beautiful. 12 seeds.

FREESIA, NEW TUBERGENI

Here is a grand novelty, easily grown from seeds and bloom in five months. The richly-scented flowers far surpass those of other varieties in size and range of color, length and strength of stem, and lasting beauty when cut. A child could grow this splendid flower. It is the top-notch of hybrid Freesias, produced after years of hybridization by the famous Dutch florist whose name it bears, and should be a "must have" by every lover of sweet and beautiful flowers. Don't fail to add this glorious flower to your list. See engraving.

Cyclamen Persicum
Giganteum

Mediola Smilax

GESNERIA, NEW HYBRIDS

These are very elegant plants akin to Gloxinias. They are as easily grown from seeds as Gloxinias, and spring seedlings bloom in late autumn. Cover the soil with chopped tobacco stems to ward off insects and to act as a fertilizer. Shade from hot sun in summer. Both foliage and flowers are beautiful, the flowers in many fine colors, often spotted. Found in Brazil and other So. American countries. In a general way they should be treated as Gloxinias. Cultural directions sent with seeds. 100 seeds. See engraving.

CYCLAMEN PERSICUM GIGANTEUM

These are beautiful plants for the window in winter, the exquisite flowers being of many lovely colors and produced in great abundance for many weeks. Seeds show plantlets in about four weeks, and plants begin blooming in 18 months. Every seed, as a rule, will produce a plant. My seeds are of Vilmorin's Surpassing Strain, and can be depended upon for the finest giant flowers. The foliage is often as beautifully marked as a Begonia. Colors: Bright Rose, Pure White, White with red eye, Salmon Rose, Carmine Red; packets of 10 seeds any color sets. Giant sorts in fine special mixture, 12 s. Grandiflora, fine mixed, 15 seeds; Papilio Fringed, 10 s. Complete Special Mixture, all varieties, 12 seeds.

DASYLIRION Longifolium, 5 ft., for pots. 20
DOLICHOS Lignosus, 6 ft., lilac flrs. 25 s.
DRACAENA, 2 ft., fine for spots; mixed. 30 s.
EPACRIS Hybrida, 3 ft., fine sorts mixed. 30 s.
ERYTHRINA Crista Galli, 6 ft., red spikes, 4 s.
EUCALYPTUS Globulus, elegant for pots. 50 s.
Ultridora, 3 ft., sweet foliage; pots. 50 s.
Resinifera, Red Gum, hardy sort. 50 s.

Complete Mixture all varieties. 75 seeds.

EUPATORIUM Grandiflora, 2 ft., white.
FERNS, Greenhouse varieties in mixture.
FRANCOA Ramosa, Bridal Wreath, 2 ft., 50 s.
Ramosa Rosca, 18 in., rose clusters. 50 s.
FUSIA, 2 ft., Single Hybrids, mixed. 15 s.
Double Hybrids, finest mixed. 15 s.
Corymbiflora, 2 ft., red. **Coccinea**, 2 ft., hardy scarlet. **Fulgens**, 2 ft., crimson. **Pro-cumbens**, for baskets. 10 seeds.

Complete Mixture all varieties. 15 seeds.

GLOXINIA Hybrida, 1 ft., splendid pot plants; flrs. large, rich-colored, showy. I offer only the finest strains. See Pages 16 and 50.
Crassifolia, large-fl., extra mixed. 75 s.
Vallerand's Spotted and Margined, splendid.
Vilmorin's Extra Fine mixed. 75 s.
French Hybrids, superior mixture. 100 s.
Complete Special Mixture, Extra, 100 s.

HEDYCHIUM Gardnerianum, 4 ft., pretty foliage and terminal clusters of sweet-scented white and lemon flrs. Hardy South.

HELIOTROPE, 2 ft., easily-grown free-blooming plants for pots or beds; flrs. small, in big clusters, in colors from white to royal blue, and deliciously scented.

White Lady, pure white; **Queen Margaret**,

dark blue; **Peruviana**, light blue; **Roi-des Noirs**, dark violet; **Louis Delaux**, rose; **Triumph de Liege**, dark lilac; **Mme. Bruant**, fine deep lilac. Separate or Mixed. 200 s.
Cyclope, 1 ft., dwarf; robust, bearing big cluster of large flrs. of the prettiest shades.
Lemoine's Giant, mixed, large-flwd. and large-clustered; superb. 250 s.

HIBISCUS Manihot Sunset, 4 ft., splendid. flrs. 6 in. across, yellow with showy crimson center; either for pot or beds. 40 s.

ISOLOMA Hybrida, 1 ft., splendid new compact pot plants; rich colors; treat as Gloxinia.

INDIGOFERA Tinctoria, 5 ft., leguminous; **JACARANDA Mimosifolia**, 5 ft., ferny foliage. red flrs. in axillary racemes; pinnate foliage. blue, clusters; hardy in Florida. 25 s.

KALANCHOE Kewensis, 3 ft., fine pot plant, scarlet flrs., good to cut.

KENNEDYA Comptoniana, vine, big clusters of blue flrs., very beautiful. 25 s.

Bimaculata, vine, lovely azure flrs., fine.

LANTANA, Choice New Hybrids, 3 ft., fine clusters, free-blooming, good for beds. **Nana Compacta**, see Page 50.

LAVATERA Variegata, 5 ft., splendidly variegated white yellow and green; plants improve with age; hardy South

LISIANTHUS Russellianus, 2 ft., large purple flrs. in terminal cluster; beautiful. 30 s.

MACKAYA Bella, lilac bell flrs. 10 s.

MANDEVILLEA Suaveolens, Vine, robust hardy South; flrs. large, white, sweet

MEDEOLA Asparagoides, Smilax Vine; very handsome; shining foliage; a pretty window vine for a pot trellis; fine to cut. See eng. **Myrtifolia**, the Baby Smilax; small in leaf and vine; charming. 25 s.

MELIANTHUS Major, 7 ft., handsome silver-ed "pinnate" foliage and spikes of pretty brown-orange; honeyed flrs.; hardy South.

MUSA Ensete, 5 ft., Banana Plant. 2 s.

NERIUM Oleander, 10 ft., mixed colors. 50 s.

NICOTIANA Glauca, 9 ft., big glaucous leaves; golden flrs.; showy garden or pot plant.

OXALIS Floribunda, 9 in., a fine window plant; flrs. in big clusters on long stems. White, Rose, or Mixed. 50 s.

Primula Obconica Gigantea

Chinese Primrose, Giant Fringed

Chinese Primrose, Vilmorin's Star Sorts

PRIMULA OBCONICA, NEW GIANT-FLOW'D

The recent great improvements in this flower have really placed it at the head of the list of Primroses. The plants are readily started from seeds, begin to bloom early, and are in bloom for weeks, eliciting the admiration and praise of all beholders. My seeds of these splendid New Giant Primroses are from Mr. Benary, Hurst, Vilmorin and other reliable growers; and can be depended upon to produce the largest, richest-colored and most beautiful frs. They cannot be surpassed in quality or vitality. See engraving. Colors: Lilac, Salmon Queen, Crimson, Pure White, Apple Blossom, Deep Lilac, Blood Red, Deep Rose, Blue, Fire Red, Fringed, Mixed, 50 seeds; all Mixed, 75 seeds. These are all Giant Varieties; very superior.

Chinese Primrose, Giant Fringed, Finest Varieties

The Chinese Primrose is perhaps the most desirable of all plants for winter-blooming in the window. Any person can grow it successfully from seeds, and a windowful of the blooming plants is an object that arrests the attention and admiration of all who see it. I offer the finest strain of giant-flowered, developed and grown by Vilmorin of Paris, and my seeds are all of the new crop, and sure to grow. Separate colors 20 seeds; Complete Special Mixture 25 s. Seeds germinate in about three weeks. Following are the finest named varieties:

Lady Randolph Churchill , white.	Emperor , splendid copper color.	Exquisite , beautiful pale pink, fine.
Coerulea , exquisite blue, very fine.	Empress , new red-magenta.	Coccinea , glittering red, attractive.
Kermesina , Vilmorin's new crimson.	Marquis of Lorne , rose, charming.	Soleil de Empel , white, gold eye.

Other Choice Fringed Varieties

Filicifolia the beautiful Fern-leaved Primrose, showy, one of the finest. Pure White or Mixed Colors. 25 s.	Morganrote , beautiful morning-red colors, handsome.
Alba Magnifica , very large white flowers, gold eye.	Sedina , brilliant dazzling red, very showy, beautiful.
Azurea , magnificent light blue flowers; very rare.	Defiance , rich carmine-red with a large brown eye.
Duchess Hybrids , various rich colors with dark center.	Enticelante , rich scarlet, large-flowered, finely fringed.
Striata , white striped with carmine-mauve, odd, fine.	The Duchess , white with a big bright carmine center.
	Above Choice Varieties in Splendid Mixture . 30 seeds.

Vilmorin's Improved Star Primrose

Vilmorin's Fine Strain of Star Primroses are more free-blooming than the Giant Fringed, embrace as many colors, and are more easily cared for. They will succeed even under adverse conditions and are as attractive as the Giant Primroses, and more satisfactory. I offer the finest seeds, direct from Vilmorin.

Purity , Dark stems and foliage, giant white flowers.	Ruby Star , the darkest blood-red, large clusters, fine.
The Bride , pure white, grows and blooms freely, fine	Coral , rich creamy pink; very beautiful, one of the best.
Celestial , fine porcelain blue, green foliage, distinct.	Giant Carmine , very large carmine frs, bronze foliage.
King of the Blues , rich dark blue, striking color, fine.	Lord Roberts Star , fiery red, one of the most showy.
Vesuvius , brilliant red, the brightest of Star Primulas.	All Varieties , choicest new-crop seeds, direct from Vilmorin, any variety 25 seeds 5cts. Complete Special Mixture, packet of 50 seeds 5cts., 200 seeds 15cts.
Auricula , white with distinct mauve eye, very showy.	
Harlequin , light rose with pink flakes, always admired.	

Double Chinese Primrose

These are showy plants when in bloom, but are not as admirable as the Fringed Single Primroses as they lack the graceful form of those varieties. I can supply the finest seeds of the various colors: White, Striped, Pale Pink, Bright red. Separate, 15 seeds. Mixed, all colors, 20 seeds.

THE BEAUTIFUL PRIMULA MALACOIDES

Here is a lovely Primrose that starts readily from seeds, and seedlings bloom in about four months. The frs are not large, but are produced in compound whorls, and from a good strain of seeds; the plants are showy and beautiful. Varieties: **Fraicheur**, large-flowered light lilac; **Superba Rose**, a superb rose color; **Kermesina**, dazzling Red, large-frs; **Snowflake**, double white frs. Separate colors 100 seeds; All mixed 200 s.

OTHER CHOICE PRIMROSES

Floribunda Grandiflora , 1ft, an improved variety bearing beautiful golden yellow flowers, an excellent winter-bloomer, remaining in bloom for a long time.	blooming in three months after sowing; free-blooming, graceful, beautiful lilac frs in abundant clusters.
Forbesi , Baby Primrose, 1ft, a lovely little Primrose	Kewensis , 1ft, a new hybrid; splendid foliage and large golden yellow flowers; a choice winter-bloomer.
PASSIFLORA Alba , hardy vine; lovely white frs.; admirable for a trellis. 15 s.	PELARGONIUM, Pansy Geranium , 2 ft., Fancy and Spotted. 3 seeds. Mixed colors.
Coerulea , Vine, hardy South; fine showy blue frs.; easily grown. 30 s.	Odoratissimum , 8 in., Apple-scented Geranium, valued for its fragrant foliage. 50 s.
Edulls , blue and white, edible. 15 s.	Zonale , see Page 49. Sluis Bros. choice seeds Mixed colors. 15 seeds.
Gracilis , fine for pot trellis; white. 15 s.	Extra Choice , from named sorts. 8 s.
Superb Special Mixture . 30 seeds.	

SAINTPAULIA IONANTHA

This is the beautiful African Violet, a gesneraceous plant allied to Gloxinias, and requires the same treatment. The flowers are an inch across, produced in clusters, and are a charming deep rich blue: not unlike a large sweet Violet in appearance. Seeds are small, pkt. 100 seeds.

TETRANEMA MEXICANA

Here is a very beautiful window plant, known as Mexican Foxglove; it forms elegant tufts of graceful foliage from which the scapes arise bearing the fine clusters foxglove-like purplish-violet flowers, blooms freely and for a long period. This is a magnificent pot plant. pkt. 100 seed.

PETUNIA, McDonald's New Dwarf Ramona Strain, Compact, free-blooming, giant fringed flrs.; the best for pots and beds; surprising array of rich colors. 100 seeds.

PHALANGIUM Lineare fol. Variegatis, 2ft., a beautiful striped grass-like plant with white Lily-like flrs.

PHORMIUM Veitchii, 2ft., white striped leaves.

PHYSIANTHUS Aibens, Vine, red-tinged white bladder-like flrs.; easily grown Asclepiad.

PITTIOSPORUM Undulatum, 6ft., a choice evergreen; leathery foliage; clusters of white fragrant flrs. 30 s.

Tobira, 8 ft., a fine evergreen pot-plant North; hardy South; sweet white flrs. in clusters. 20 s.

POINCIANA Gillesii, 3 ft., hardy South, pot-plant North; showy scarlet bloom; beautiful.

Pulcherrima, 3 ft., flrs. orange; very attractive; a hedge in Cuba; splendid. 5 seed.

POINSETTIA Pulcherrima, 6 ft., the beautiful scarlet Christmas flr.; started in Spring seedling blooms for Christmas. To prevent leaf-dropping avoid chills. 2 s.

REHMANIA Angulata, 2 ft., large, free-blooming rose shades with golden yellow throat; spotted purple. 250 seeds.

RHAGODIA Nutans, Australian Red-berry; grayish green foliage, pretty clustered fruits; see page 51.

RHODOCHITON Volubilis, vine, purple-rose with dark crimson corolla; free-blooming.

RIVINA Humilis, 2 ft., a pretty pot plant of easy culture; flrs. white followed by scarlet berries, in handsome racemes, showy. 15 seeds.

Humilis Aurantiaca, 2 ft., white flrs. followed by golden yellow berries. 15 seeds.

ROCHEA Falcata, 18 in., splendid scarlet flrs.; succulent; pretty pot plant. 15 s.

RYNCHOSPERMUM Jasminoides, variegated foliage, sweet-scented flrs.; fine pot plant.

SANTOLINA Tomentosa, Lavender Cotton, 2 ft., silvery foliage and showy yellow flowers. 100 seeds.

SAXIFRAGA Sarmentosa, Aron's Beard or Creeping Sailor, 1ft., white, very useful for hanging baskets.

SCHOTIA Latifolia, Elephant Hedge Bean, page 51.

SEQUOIA Sempervirens, Calif. Red Wood, page 51.

SKIMMIA Japonica, evergreen pot-plant, see pg 51

SINNINGIA Hybrida, (the Improved Glox-

inia) Benary's finest dark-leaved, mostly erect-flwd; very beautiful pot plants allied to Gloxinia; treat as Gloxinia; flrs of various fine colors, often spotted.

SOLANUM Capsicastrum, Star Capsicum, 1 foot, small white flrs, pretty red cherry-like fruits. 50 seeds

Arboreum, 6ft, broad leaves, violet-scented flrs, red fruits.

Marginatum, 4ft, flrs white with purple center, see pg 51.

Pseudo-capsicum, 3 ft., Jerusalem Cherry.

STEPHANOPHYSUM Longiflorum, 3 ft., an

Seafortianum, lovely vine; blue flrs. 25 s.

elegant winter-blooming pot plant; showy

scarlet flrs. 15 s.

STEPHANOTIS Floribunda, Clustered Wax Flower,

pure white flrs, deliciously fragrant, freely produced

in large bunches, excellent for cutting. 2 seeds.

STREPTOCARPUS Hybrids, See Page 7.

STREPTOSOLEN Jamesoni, 4 ft., orange clusters. 5 s.

SUTHERLANDIA Frutescens, 3 ft., scarlet

flrs in showy racemes, beautiful silvery foliage. 40 s.

SWAINSONIA Grandiflora, vine, large flwd.

white, pink, etc., in racemes; free-blooming.

Winter-blooming. Mixed. 25 seeds.

TACSONIA Van Volxemi, vine, showy and

beautiful; flrs. large, scarlet; edible fruits.

TECOMA Smithii, Trumpet Flower, greenhouse

vine; winter-blooming, trumpet-like flrs; yellow with

a spotted throat, free-blooming, showy. 25 seeds.

TEMPLETONIA Retusa, Coral Bush, see page 51

TEPHROSIA Grandiflora, 2ft, greenhouse shrub

blooming freely from spring till fall, flrs red; see pg 51

THEA Sinensis, 6 ft., a beautiful hardy shrub

South; large, showy flrs. The leaves treated

become the tea of commerce. 2 s.

TROPAEOLUM Speciosum, vine, hardy perennial

with large, bright scarlet flrs. Known

as Flame-flwd. Nasturtium. 5 seeds.

Minus, 1 ft., small orange flrs., tinged red.

Coccineus, scarlet, showy pot plant.

TYDAEA Grandiflora, 1 ft., a beautiful Gesneraceous

plant; large, rich-colored bloom.

Treat like Gloxinias. Finest-mixed from a

choice collection. 150 seeds.

VERBENA Clitridora, 3 ft., Lemon Verbena;

scented foliage; white bloom; hardy South.

VERONICA, 3 ft., splendid Greenhouse, sorts

mixed. 250 seeds.

WIGANDIA Macrophylla, beautiful pot plant, see pg 51.

A Few Floral Notes and Suggestions

A RARE VINE.—I want to ask attention to a robust climber from Asia that should be better known—*Benincasa Cerifera*. It is an unusual vine of easy culture, and will appeal to those who like something novel and out of the ordinary. It has a wealth of foliage; the leaves are 10 in. broad with indented margin; the big long-stemmed axillary wide-open flowers four inches across composed of five broad, emarginate petals, and of a rich golden yellow or orange color, freely and continuously produced, and very attractive. These are succeeded by thick seed vessels, nearly one and a half feet long, snowy white-waxy and covered with hairs. These big fruits are edible, and in China are prepared as pickles and conserves for a table delicacy. Could you ask more of a vine? If you are interested don't fail to get a packet of the long smooth, white seeds and grow the attractive foliage, flowers and fruits. You will have a "Wonder Vine", and the common enquiry of admirers will be "Where did you get seeds of such a plant, and was it hard to grow?" Seeds 5 cts. a packet.

☞ When ordering please name extras for substitutes; otherwise cards will be sent instead.

THE NEW VIOLET.—Benary's "Eureka", Violet should be one of the first on your list. It is not only easily started from seeds, but the seedlings quickly come into bloom; the bloom is perpetual until the ground freezes up. It is a rare and beautiful novelty. It is offered on the Title page. Don't overlook it. 5c.

SOME GOOD THINGS OMITTED

ANEMONE Sulphurea, 1 ft, a lovely species with large sulphur-colored fls and pretty foliage.

AQUILEGIA, Barr's Glory Strain, large, elegant, long-spurred fls; in the greatest variety of colors; superb shades; very superior.

LYCHNIS Flos Cuculi, 15 in., lovely rose-purple; the pretty Ragged Robin, a fine perennial.

Fulgens Grandiflora, 1 ft. fls 2 inches across, brilliant vermilion; fine for borders.

PAPAVER Pearls of Dawn, 1 ft, a very beautiful new Nudicaule, the fls. large, satiny, crinkled, in delicate shades of pink shaded glowing salmon, orange shaded blush, and salmon shaded pink.

PAPAVER Double Queen, 1 ft. Barr's Extra Selected Shirley type, 3 ft, double fls, delicate and brilliant colors, White with salmon, pink or crimson margins, Orange shaded white, with Fiery rose-scarlet shaded white, Brilliant scarlet with white center.

☞ As a rule I can supply everything, but will you kindly name some extras to use in case of shortage?

MISCELLANEOUS THINGS

CACTUS, splendid mixture of many fine species and varieties, a liberal packet 5 cts.

CATERPILLARS, leguminous plants with Caterpillar-like seed-pods. Large, Small, Striped, Hairy, etc.

CROTALARIA Argyrea, 10 ft, very showy terminal spikes of golden flowers; pretty foliage. I can also supply *C. Juncea*, 10 ft, golden flowers, tree-like.

DAUBENTONIA, hhs, 6 ft, very beautiful shrub; rich scarlet Wistaria-like racemes, 4-winged seed-pod.

MEDICAGO, Calvary Clover, 1 ft, ha beautiful foliage, green with a distinct red cross at the center, the seed-ball unwrapped resembles a crown of thorns.

PALM, Cocoa Plumosa, a most graceful and easily grown Palm, lovely pot plant north, hardy in Florida.

ERYTHROXYLON Coca, 5 ft, a half-hardy shrub with small axillary flowers; foliage chewed by South Americans as a stimulant.

ANGELONIA GRANDIFLORA, 3 feet. A beautiful branching pot plant with square stems, and terminal spike-like racemes of very pretty violet-blue deliciously scented fls with white charming tinged throat. Seedlings start readily and the plants soon come into bloom, and are blooming and attractive for many weeks. A window plant of rare beauty. Per pkt. 5 cts.

VILMORIN'S SEEDS.—The name "Vilmorin" has been favorably known in Parisian Horticulture for more than a century, and always stands for the best in seeds, bulbs and plants. The Vilmorin's are progressive people, and some of the most instructive of horticultural books have been published by them. Some very valuable new flowers and vegetables have been introduced by them. Their strains of Carnations, Pinks, Gloxinias, Calceolarias, Cinerarias, Cyclamens, Primroses, etc. are hardly equalled, always dependable. My experience for scores of years prove the quality of their seeds.

PHLOX DRUMMONDII.—The improved semi-dwarf strain of this old annual is hardly excelled as a free continuous and rich-blooming summer bedder. The compact plants, show a wonderful array of bloom, new and beautiful colors and variegations, far in advance of the old varieties. If you want a showy and charming mass of bloom that will call forth enthusiastic words of praise from your friends, have a bed of these lovely Phloxes. See page 29.

STAR PRIMROSES. I freely recommend Vilmorin's Strain of Star Primroses. Spring seedlings begin to bloom on the approach of winter and are a wealth of big showy clusters of many rich colors until spring. The plants are vigorous, healthy, and free-blooming under conditions that many others would not endure.

SEMI-TROPICAL FRUITS

These are hardy in the South, but must be grown as pot plants North, as they will not endure freezing.

CARICA Papaya, 5 ft, large, edible, Tree Melon, eaten with sugar, salt and pepper when ripe, lovely, waxy, fragrant flowers; elegant pot plant.

GUAVA, 6 ft, hardy South, a pot plant North, pretty white flowers and delicious fragrant fruits, as large as a duck-egg.

ERIABOTRYA Loquat, cherry-like southern fruit produced in terminal panicles, fine stewed or in pies; golden, size of a large cherry; hardy south of Va.

SURINAM Cherry, 6 ft, pretty foliage and beautiful scarlet fruits size of a cherry; jelly, pies, stewing.

PASSIFLORA Edulis, vine 15 ft, beautiful large flowers and palatable fruits as large as a duck egg.

POMEGRANITE, a rather hardy shrub with scarlet fls and large edible fruits, yellow, gold cheek.

Novelties of Special Merit

AGERATUM BLUE CAP

Unquestionably the finest of all Dwarf Ageratums. The plants are very dwarf and compact, the foliage is small, and the bloom profuse and continuous, thus forming an edging or bed that seems as a carpet of fluffy bloom, deep rich blue unsurpassed by any other variety. It is easily grown, and desirable for pots as well as beds. It is a novelty of high merit and deserves a place in every garden, so be sure to add this to your order.

MARIGOLD, NEW FIRE CROSS

Mr. Hurst of London, who has introduced many of our finest novelties truly says "Fire Cross Marigold is decidedly the best plant for edging that we have ever listed. It is much more effective and attractive than Legion of Honor, flrs deep orange-yellow, each petal showing a large crimson-maroon blotch. In our opinion Fire Cross is definitely one of the finest introductions, in annuals, of many years."

ANTIRRHINUM Mammoth Malmalson, 2 ft., declared by experts to be the most beautiful of all Snapdragons; flrs. charming silvery pink, huge in size and borne in blg strong-stemmed trusses; splendid.

ARGEMONE Grandiflora Isabel, 2 ft., a showy hardy annual; flrs. large, golden yellow, freely produced; fine in groups and beds.

CALCEOLARIA, Albert Kent, 2 ft., a beautiful plant for pots or beds; flrs. very graceful, in immense trusses, and of the most charming colors and markings.

CALENDULA Golden Beam, 1 ft., a glorious novelty; flrs. rich golden yellow, double to the center, quilled and of immense sizes. **Sunshine**, 2 ft., an entirely new species, altogether different from others, taller, more graceful, more showy; long incurved petals, like a Jap. Chrysanthemum, bright canary yellow; good to cut.

CAMPANULA Olympica, 8 in., a hardy Bell-flower, the large nodding bells clear blue; an enlarged Scotch Hairbell.

CHRYSANTHEMUM Mawii, 1 ft., a hardy perennial with silvery foliage and rich pink flrs., 2 inches across; ideal for beds

CLARKIA Albatross, 2 ft., new compact hardy annual with spikes of double snow-white flrs. **La France**, 18 in., the most attractive of Clarkias; ideal for beds or to cut; flrs. silvery-pink with lighter edge, very double.

COLLINSIA Bicolor Salmon Beauty, 2 ft. purest salmon-rose, very bright and beautiful

DAHLIA Paeony-flowered Miniature, 3 ft., semi-double flrs. in many fine colors; fine for beds and to cut.

DIMORPHOTHECA, Lemon Queen, 18 in., chrome yellow with blue center; compact. "EUREKA," finest of Violets. See title page.

GERANIUM, Buxton's Blue, 3 ft., a fine hardy perennial; bears freely beautiful Nemophila-blue cup-shaped flrs.; choice.

GODETIA Pelargonium, 18 in., big clusters of blush-pink single flrs., each petal showing a distinct carmine blotch, giving the effect of a fine show Pelargonium.

LARKSPUR, Exquisite, 3 ft., new; big spikes of exquisite pink flrs.; hardy annual.

LUPIN Hartwegii, Tom Thumb, 1 ft., a fine free-blooming annual—showy spikes of white, blue, rose, lilac, etc.; excellent for beds. Mixed.

LYCHNIS Forestii Hybrids, 2 ft., a rich strain of showy perennials; colors crimson, white, pink and other fine colors; blooms in June;

MARIGOLD, Guinea Gold, 2 ft., a very showy large-flwd. African Double Marigold; golden yellow, very free-blooming.

MESEMBRIANTHEMUM, Crialflorum, 4 ft., a hardy annual of great beauty; flrs. an inch across, borne in profusion on spreading plants; colors delightful shades of white, rose, crimson, buff, apricot and variegated; fine for rockery and beds.

NASTURTIUM, Golden Gleam, 1 ft., trailer, a beautiful semi-double sort, the flrs. golden yellow, sweet-scented; a desirable novelty.

PETUNIA, Erfurt Large-flwd. Double-ruffled, 1 ft., Benary's new strain for pots and beds; very free-blooming, and compact; splendid.

PETUNIA, All Double, Large-flwd. Fringed, 2 ft. This is Hurst's Great Novelty; all plants produce fully displayed flrs. in many splendid colors; entirely new; seeds direct from Hurst of England. Pkt. 25 seeds 5c.

PRIMULA Burmanica, 1 ft., a fine hardy perennial, vigorous and free-blooming; flrs. large, rosy purple, with distinct gold eye; very effective.

Obcon'ca Gigantea, Red Chief, a charming pot plant; flrs. of great size produced in giant clusters, the color rich dark red, the darkest color.

VIOLET "Eureka," finest of all. Title Page.

SCABIOSA Flery Scarlet, 18 in., a free-blooming annual or biennial, the large globular double flrs. being of the richest scarlet, and produced on long stems. Showy in beds

VISCARIA, Blue Bouquet, 1 ft., a grand upright Viscaria, a hardy annual, every plant becoming a bouquet of intense blue flrs., beautiful and effective in beds.

Additional New and Rare Annuals

- ARTEMISIA Argentea**, 15 in. A pretty rock plant, foliage white-haired, flrs pale yellow; dense, likes sun.
- CASTILLEJA Indivesa**, 1 ft. Indian Paint Brush; hardy annual; flrs. yellow, surrounded by red bracts.
- CHRYSANTHEMUM White Queen**, 2 ft. Annual; lovely, showy pure white flrs with pale yellow band.
- CLARKIA Firesheaf**, 1 ft. A fine novelty; copper-red, full-double in elegant sprays a foot long; fine.
- DIANTHUS Latifolius atrococcineus**, fl. pl., 18 in. An everblooming pink with clusters like Sweet William, but flrs twice as large; color intense velvety crimson-scarlet. I can also supply mixed colors.
- HELENIUM Praecox Luteum**, 9 in. A handsome perennial blooming first season; flowers yellow, of unusual size, very showy; fine rock plant.
- LINARIA Canon J. Want**, 3 ft. Hardy perennial; long spikes of flesh-pink flrs, fine for beds and cutting.
- LINARIA Hendersoni Ericoides**, 8 in. A pretty rock perennial; blooms first season; flrs. deep purple, like little Snapdragons in appearance; fine for pots.
- LINARIA Triornithophora**, 2 ft. Beautiful bird-like purple flrs. in clusters; perennial, plants branching, free-blooming the first season; rare.
- LOASA Hispida**, 2 ft. A very pretty annual from Lima: flowers lemon, variegated center, in profusion.
- MYOSOTIS Distinction Praecox**, 8 in. The new early and everblooming Forget-me-not; lovely blue semi-double flrs. in big clusters, blooms in 10 weeks.
- MYOSOTIS Marga Sacher**, 1 ft. The new giant-flowered Forget-me-not; flowers deep sky blue, an inch across; fine for pots and the rockery.
- MYOSOTIS Semper-florens Rosea**, 1 ft. New, everblooming from early spring till winter, beautiful pure rose flowers in clusters; a lovely forget-me-not, likes shade and moisture, fine to edge a pond, and other uses.
- NEMESIA Grandiflora Tigrina**, 1 ft. Very large flrs. richly scented and charmingly spotted and blotched, magnificent.
- PENTSTEMON, Mette's Giant Gloxinia-flowd**, 2 ft.

A grand perennial blooming freely first season; flrs. large, Gloxinia-like, rich in color, borne in large racemes. Splendid for beds. Illustrated on page 42.

PENTSTEMON Sensation, 3 ft. New giant-flowd hybrids; long spikes of big Gloxinia-like flowers in colors from pink to crimson, richly blotched, mixed.

PETUNIA Sensation. The grower of this Petunia calls it "the aristocrat of the Petunias, and the most beautiful royal purple Petunia in the world, a true Elk's Pride." I take his word for it. His price is 50cts. a packet. Do you want to try it? 100 seeds 5cts.

POLYGONIUM Ruby Queen, 4 ft. Bold, Cannalike tuft plants, highly decorative covered with big vivid crimson spikes; blooms till winter, beautiful.

POPPY Nudicaule Fakenham Hybrids, 18 in. The finest of all Iceland Poppies; gigantic flowers on long stems, come in a wonderful range of colors, bloom continuously from May till frost if kept from seeding.

POPPY Rhoëas Fire King, 18 in. A grand annual, very free-flowering; flrs orange-scarlet, gold stamens.

POPPY Giant Aristocrat, 4 ft. A distinctive annual, not like others; compact, with satiny grey foliage, branching, each showing 15 or 20 big rich dark red double flrs.; a grand acquisition. Start early and set in a sunny bed, or sow direct in the bed. 250 seeds.

RHODANTHE Atrosanguinea, 1 ft. An elegant branched pot plant for marketing or for beds; flrs. an inch across, blood-red, fine for bouquets green or dry.

VIOLA W. H. Woodgate, 6 in. New; finest of all Cornutas; flrs. charming blue, so abundant as to almost hide the compact plants; blooms continuously, and far surpasses all others in exquisite beauty; cannot be too highly praised; you surely want it.

Additional New and Rare Perennials

- AETHIONEMA Pulchellum**, 6 ft. An elegant hardy rock plant; needle-shaped foliage; flrs lovely pink.
- AETHEOPAPPUS Pulcherrimus**, 3 ft. New, from Caucasia; hardy; superb fluffy pink flrs. 3 in. across.
- ANTIRRHINUM Asarina**, 6 in. A procumbent perennial rock plant; blooms first year, the flowers are cream, tinged with red; freely produced.
- AQUILEGIA Cuprea**, 2 ft. Copper-red with straw corolla; long spurs; an excellent Benary introduction.
- ARMERIA Gigantea Rubra**, 2 ft. New; a beautiful hardy perennial; lovely deep rose flowers.
- CAMPANULA Glomerata Acaulis**, 4 in. A pretty rock plant; large close heads of deep blue flowers.
- CHRYSANTHEMUM Japonicum Improved**, 2 ft. A splendid perennial; flrs single, in wide range of colors.
- COREOPSIS Verticillata**, 18 in. A rare perennial; plants clothed with whorls of deep-cut leaves, freely-branched, each branch bearing erect a large, rich golden flower; fine for beds and for cutting.
- DRYAS Octopetala**, 6 in. A fine perennial rock plant; flrs Anemone-like, white with golden stamens.
- ERYNGIUM Planum**, 2 ft. Globular heads of cornflower blue flowers; fine for borders and cutting.
- GENTIANA Asclepiadea**, 2 ft. Excellent hardy border plant; beautiful blue flrs; showy; lasts well.
- GEUM Sibericum**, 8 in. A fine creeping rock plant; flrs orange in great profusion; a rare perennial.
- HELIANTHUS Mollis**, 5 ft. A stately, very free-blooming perennial; flrs. pure yellow, and borne throughout the Autumn.

LUPINUS Moerheimi, 3 ft., hardy intense pink.

MECONOPSIS Integri-folia, 3 ft. The hardy Primrose Poppy from Thibet; flrs. 6 in. across.

MECONOPSIS Wallichii, 4 ft. A charming species; fine foliage and beautiful pale blue flowers; likes moist shade.

NEPETA Grandiflora Souv. Chaudron, 2 ft. A new and much improved sort; flowers bright blue, freely borne.

OENOTHERA Speciosa Grandiflora, 2 ft. A fine

perennial open in daytime; flowers large, white and pink, sweet-scented, very beautiful.

OENOTHERA Youngi, 2 ft. A glorious long-blooming day primrose; plants branch, bloom profusely, flrs. large, golden yellow, exceedingly showy in beds; a good tenacious perennial for beds, borders.

SENECIO Clivorum Othella, 4 ft. An attractive autumn-blooming hardy perennial; flrs. rich orange.

SIDALCEA Stark's Hybrids, 8 ft. A noble hardy perennial; throws up Hollyhock-like spikes of flowers in color blush to deep rose and carmine; splendid.

STATICE Caspia, 2 ft. The most beautiful of all perennial Sea Lavenders; big sprays of lavender flrs.

STATICE Fr. Kampf, 3 ft. Intense indellible blue everlasting; full, strong perfect spikes; earliest and finest of the Sinuata hybrids.

TRITOMA Tuckii May Queen, 3 ft. The earliest of Kniphofias; blooms continuously; yellow to rose.

VERONICA Amethystina, 2 ft. A fine hardy perennial of tufted habit; flrs. deep blue in long racemes.

VIOLA Odorata Emperor William, 4 in. A new Sweet Violet, hardy; fine for forcing; excellent.

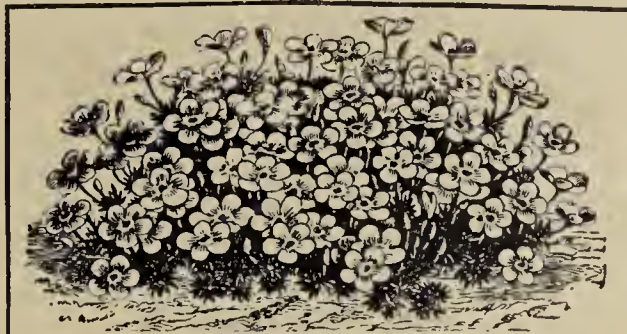

VIOLA Odorata Rose Pearl, 4 in. New; compact flowers large, bright rose; fragrant; very beautiful.

Seeds of Viola Odorata, often lie dormant a year.

Additional New and Rare Plants

ASPARAGUS Virgatus, a remarkably elegant feathery-looking shrubby pot plant from S. Africa. 3s.

BEGONIA Glory of Erfurt, 1 ft. Compact, ever-blooming; flowers 3 in. long, almost 2 in. across; color intense flaming crimson; very beautiful.

A BEAUTIFUL GILIA

Gilia micrantha is a rare but very beautiful annual. Seeds start quickly, and the plants spread out and are soon smothered with innumerable vivid rose flrs, eliciting the most ardent expressions of admiration and praise; fine for beds or pots. 1000 seeds 5cts.

D
EICHEVERIA, 1 ft. Mixed varieties, 25 seeds.

Succulents with urn-shaped leaves and various-colored flowers, House-leek, Hen and Chickens, etc.

EICHEVERIA Secunda Glauca, 1 ft. Rosettes of succulent leaves; yellow and red urceolate flowers.

ERIODENDRON Anfractuosum, a Florida tree 70 feet high, with magnificent flowers resembling a Speciosum Lily, in clusters, in bloom for weeks. It is not known how far north the tree will be hardy. It has withstood the freezes of Florida. This is the most beautiful blooming tree I ever saw. Starts promptly.

GERBERA, Adnet's Giant Hybrids, 15 in. Fine pot plants, blooming for weeks; flowers Aster-like on long stems; fine to cut; good border plant South. Colors rich and range from white to orange, and through flesh to crimson. Mixed. Seeds start in 10 to 15 days.

GLORIOSA Superba, 6 ft. A bulbous, Lily-like plant from tropical Africa; very beautiful. Don't order this unless you know how to treat it.

GLOXINIA, Benary's New Giant. These are the largest and finest Gloxinias in existence, and seeds sown in Spring or early Summer will bloom the next Winter. My seeds are direct from Mr. Benary, and can be relied upon for vitality and quality. Gloxinias are one of his specialties. I can supply the following:

Cyclops, wine red, bordered white, spotted throat.
Danube, pure white with heavenly blue border.
Frederick Benary, brilliant scarlet with white throat.
Goliath, violet with blue border, spotted throat.
Rhine, pure white with lovely pink border.

Complete Mixture, 100 s. 5c,
100 s. of any above 5cts.

MUSA Rosacea, an elegant pot plant with long strong-ribbed leaves and large bright rose-colored flowers. 3 seeds.

NAEGELIA Zebrina Discolor, 18 in, a magnificent Gesneraceous plant from Brazil; foliage richly variegated; fls. fiery red and yellow, spotted with brown; treat as Gloxinia.

OCHNA Multiflora, 4 ft. odd and handsome; fls. golden; fruits the size and color of a Strawberry, bearing little pea-like black "seeds" on their surface. 2 seeds.

OXALIS Rosea Delicata,

6 in., a charming compact plant covered Summer or Winter with lovely clusters of salmon-pink flowers; splendid for borders, pots, or baskets.

PRIMULA Malacoides Gayety, 1 ft. New large-flowered, double dark red; most showy and desirable of *P. Malacoides*; beautiful; blooms in six months.

SOLANUM Darmstadtia, 1 ft., compact, covered with large glowing scarlet berries throughout Winter; finest of all Jerusalem Cherries; entirely new.

SOLANUM Fra Diavolo, 2 ft. A splendid new globular pot plant; a mass of rich scarlet berries.

Additional New and Rare Shrubs

CELTIS Occidentalis, tree 50 ft., known as Sugar Berry, fruits sugary, a handsome ornamental tree.

CEPHALANTHUS Occidentalis, 6 ft. A bushy hardy shrub with globular heads of white bloom.

CORNUS Florida, 15 ft. The well-known Dogwood; large white flowers in Spring; beautiful.

GRAPE, Chicken, 40 ft. A wild grape bearing masses of palatable fruits; put up in sugar for pies.

GRAPE SCUPPERNONG, 30 ft. Branches freely and bears delicious large pinkish fruit in clusters.

ILEX Verticillata, 10 ft., most gorgeous of all the shrubs; long rods of rich red berries till New Years.

OREGON FLOWERING CURRANT, 10 ft. A beautiful shrub completely covered in Spring with lovely pink drooping racemes, followed by edible fruits. 50s.

Other Novelties and Rarities

ANODA Hastata, 10 ft. A new Mallow with lovely pink fls., and glaucous, almost evergreen, foliage; per.

AMARANTHUS Molten Fire, 2 ft. A flaming red foliage annual; for pots or beds; called Combustion.

ARISTOLOCHIA Tomentosa, 30 ft. A handsome hardy herbaceous vine; with semi-tropical foliage and golden flowers, followed by pretty seed-vessels.

CAMPANULA Latifolia Brantwood, 5 ft. A hardy perennial; fls. long trumpet-shaped, violet-purple.

CANTERBURY BELLS, New Annual, 2 ft. A strain blooming first season, white, blue, rose, striped, mxd.

CASSIA Corymbosa, 10 ft., very handsome pinnate foliage and a profusion of golden fls. in corymbs.

CENTAUREA Gymnocarpa, 2 ft., silvery foliage and lavender flowers, desirable for pots and beds.

CHRYSANTHEMUM Japanese Mountain, 2 ft. Very pretty single fls. in many fine colors; free-blooming.

CODONOPSIS Meleagris, 1 ft. A charming rock plant; handsome bell-shaped flowers, pale blue with chocolate pencillings; new Himalayan plant.

HELIANTHUS Sutton's Red, 6 ft. A red Sunflower with golden margin, a showy easily-grown annual.

HUNNEMANNIA Sunlite, 18 in. New semi-double Mexican Poppy; yellow, showy, peculiar in shape.

LACINARIA Acidota, 2 ft. A slender hardy perennial with spikes of pretty purple fls., like *Liatris*.

LARKSPUR Giant Imperial, Crimson King, 4 ft., new, dense upright; big double rich crimson fls. on three-foot spikes; showy in beds, fine to cut. 250 s.

LAVATERA Cashmeriana, 6 ft., hardy; handsome large rosy-mauve flowers; fine for beds and cutting.

Olbia, 5 ft., showy rose flowers; hardy; splendid.

OSTROWSKIA Magnifica, 4 ft., the beautiful giant Bellflower; a glorious hardy perennial; big lilac bells.

PETUNIA Netted Blue Gem, the finest of blue Balcony Petunias, good for beds, porch boxes, or pots; first-class.

POPPY Cavalcade, 1 ft. New Double Begonia-flowered Shirley Poppy; flowers flaming orange-scarlet, very showy.

PRIMULA Lissadel, 1 ft. "Red Hugh," fiery red flowers in large whorls, a handsome perennial.

ROMNEYA Trichocalyx, a new Bush Poppy; fls.

very large, snow-white with golden stamens; hardy.
SCABIOSA Cattleya, 2 ft., a splendid novelty; great double fls. of rosy-lilac, an orchid shade.

ANTIRRHINUM Praecox, 2 ft. A wonderful improvement; fine spikes in bloom a month before other Snapdragons, and more free-blooming. Colors: pink, bright yellow, pure white, rich scarlet; separate or mixed. A novelty you should have. 100 seeds 5cts.

CANDYTUFT, Miniature Gem, 4 in. A lovely rock plant; each plant branches and makes a compact mass of white spikes; beautiful. 100 seeds 5cts.

ARCTOTIS Hybrids, 1 ft., lovely garden fls. of easiest culture; free-blooming in hottest sun; shades of cream, yellow, bronze, and red; beautiful.

GYPSOPHILA Pacifolia, 3 ft. Plants branch and are smothered with thousands of exquisite little pink flowers after others have bloomed; extra for cutting.

PETUNIA Miniature, 8 in. A fine novelty; each plant becomes a globe of small flowers, white, flesh, rose, carmine, pink, crimson, striped and blotched; makes a lovely border or bed, edged with dwarf *Ageratum*; unequalled for pots, porch boxes, rockery and window-culture in winter; blooms freely and continually; splendid mixture of all colors, 500 seeds 5cts.

LUPINUS Giant Hartwegi, 4 ft., big, branched plants, each branch a huge spike of rich oxford blue, striped pure white. This splendid new annual rivals in size and beauty the fine perennial sort; a good one.

STOCK, Giant Old Rose, 4 ft. Big trusses of rich-scented double fls.; 2 inches across. A fine novelty.

VERBENA Compact Ball, 10 in. The finest, most showy of all for beds and pots; each plant carries 50 or more rich carmine trusses, and the bloom is continuous; a fine rock plant; a rare novelty. 50 seeds 5c.

A GLORIOUS BED

Made with Mette's Petunia Compact Magnifica. Plants dwarf, compact and become a sheet of rich colors, indistinguishably beautiful, and continuing so all summer; flowers from white to lilac, rose carmine, crimson, with white or light throat, some bordered, starred or marbled; splendid for borders, pots, baskets, or porch boxes. 1000 seeds 5cts.

Geraniums and Asparagus. Dear Mr. Park: I have a beautiful Pelargonium, or Geranium, from your seeds. It has seven clusters of bloom, and each flower larger than a quarter. The Asparagus Plumosus also did well. I am well pleased. Mrs. A. C. Fares, Albany, Co., N. Y.

Geraniums and Coleus. Dear Mr. Park: I certainly am pleased with your seeds, I have such good luck with them. I have a fine lot of Geranium and Coleus plants from your packets. I shall always deal with you and shall recommend you to my friends. Mrs. Ruhman, Genesee, N. Y.

Fine Large-flowered Geraniums

Glorious Ever-blooming Flowers for Pots or Showy Beds on the Lawn.

SLUIS & BRO. of Holland, where Geraniums grow and bloom to perfection, have a fine strain of choice large-flowered Geraniums, and I take pleasure in offering the seeds direct from them this season, 15 seeds for 5cts. Their collection embraces a great variety of shades, colors and variegations, as white, rose, scarlet, crimson, salmon and flesh, some more or less marked with other colors. The seeds are of the new crop, and will germinate in from two to eight weeks, not all appearing at the same time.

We all know how beautiful and easily grown are the Zonale Geraniums, and how free, continuous-blooming and showy are the charming big clusters in a bed. Then why not grow them from seeds, when you can get a fine strain at a bargain price? 15 seeds in fine mixture for 5cts. They will surely please you.

Pansies, Poppies, Sweet Peas. Dear Mr. Park: My Swiss Giant Pansies were incomparable. The stems were long and strong, and the beautiful flowers were of immense size. The Oriental Poppies were the largest I ever saw or heard of. They measured from ten to eleven inches across. Many people came to see them and inquired where I got these seeds, and I was only too glad to tell them. My winter-blooming Pansies were large and lovely, and were as fragrant as violets. Sweet Peas were also large, and all had four blossoms to the stem. Mrs. Katherine Gardner, Garfield Co., Colo., March 11, 1932.

Additional Window-garden Seeds, New and Choice Kinds

GLOXINIA, BENARY'S GIANT

Mr. Benary's Improved Strain of Giant Gloxinias is of surpassing beauty. The flowers are of enormous size, and the new, rich colors and variegations are amazing. They are altogether unrivalled. I offer the new-crop seeds direct from Mr. Benary, 100 seeds, enough to raise from 50 to 100 plants, according to your skill and care, for only 5cts. Don't forget these splendid Gloxinias.

DEAR MR. PARK: I wish to express how wonderful I think your flowers are. I have ordered seeds and bulbs from different places for years, but have never had such happy results as from your seeds this year. My pot plants are delightful. My Gloxinias and all are so beautiful I can't praise them enough to my friends. I shall get my seeds from you next year. Mrs. Thos. Beyke, Davies Co., Ky.

DEAR MR. PARK: I can very highly recommend your seeds. From one packet of seeds I have four different colors of Gloxinias; large beautiful flowers, and another which has not bloomed yet. I also have the largest leaved and largest flowered rose Cyclamen I ever saw. Mrs. Sarah Bixler, Richland Co., Wis.

LANTANA, NEW DWARF COMPACT

The New Dwarf Compact Large-flowered Ever-blooming Lantana is hardly known, although of superior merit. The plants grow a foot high, dense and bushy, and are splendid for either beds or pots, as they become globes of rich bloom of the most varied and brilliant colors. Started in spring they bloom freely the entire season, defying rain and drouth, and even withstanding the early pinchings of Jack Frost. New-crop seeds, finest mixed colors, 5cts.

DEAR MR. PARK: From two packets of your Persicum Cyclamen I have 15 nice young plants; and from one packet of Lantana I have 12 husky plants. Also from the packet of Poinsettia I have 2 plants, one of which is 7 inches high. Eleven Freesias came from the two packets of Freesia seeds. How happy I am watching those infants grow. I wonder sometimes if you do not feel my thankfulness toward you for making these things possible; for every time I water them I am reminded that it was your graciousness that enabled me to have them. Mrs. J. Garhorana, Camden, Co., N. J.

ACACIA Podalyrifolia, 3 ft., very early flowering, silvery foliage, magnificent golden flrs.
ADANSONIA Digitata, 40 ft., the African Baobab Tree; leaves five-fingered; flrs. 6 in. across, white with purple anthers.

AGATHAEA Coelestis Monstrosa, 14 in., new, vigorous, winter-blooming pot-plant.

ALTERNANTHERA, 6 in., rich foliage, red, yellow; likes hot sun; fine for borders.

AMARYLLIS Hybrida, 1 ft., large lily-like flrs., finest mixed colors; splendid.

ANTIGONON Leptopus, Queen's Wreath; beautiful perennial summer vine; free-blooming; lovely rose-pink flrs..

ANTIRRHINUM Volcano, 18 in., brightest dazzling scarlet, the richest-colored Snapdragon known; new.

AQUILEGIA Flabellata Nana Alba, 9 in., nodding pure white flrs.; charming for either pots or beds.

ARALIA Sieboldii, 3 ft., a fine foliage pot-plant; semi-tropical.

Moserl, compact pot-plant; large, handsome
ARDISIA Crenulata, 6 ft.; red flrs.; bright red tenacious berries.

ASCLEPIAS Curassavlea, 2 ft.; a beautiful ever-blooming pot and garden plant; lovely red and gold clusters; a fine winter-blooming window plant of easy culture.

ASPARAGUS Scandens Deilexus, new, charming plant for suspended baskets.

Falcatus, beautiful vigorous vine; large, shin-

ing dark green leaves; new.

BASELLA Tuberosa Alba, 1 ft., a pretty basket plant; white flrs.; very handsome

BEGONIA Christmas Cheer, brightest and best fibrous-rooted Begonia for beds in Summer and pots in Winter. See Page 7. A patron writes of it as follows:

DEAR MR. PARK: I find Christmas Cheer Begonia by far the finest of its class. I have a bed by my house that has been a sheet of dark rose all summer. It attracts more notice than anything I have, and I have many other fine things. Many flowers were of a size a dollar would not cover. G. C. Rinker, Greenwood Co., Kans., Aug. 22, 1952.

BORONIA Megastigma, 2 ft., flrs. purple and gold, bell-shaped, drooping, fragrant.

BOSEA Yervamora, dense clusters of red berries.

BOUSSINGAULTIA Baselloides, red-tinged stems, twining, quick-growing; flrs. white, very sweet; shining foliage.

BOUVARDIA Jacquinii, 3 ft., scarlet flrs. for pots.

BRUGMANSIA Suaveolens, Angel's Trumpet, 5 ft., flrs. 7 in. long, white, drooping, free-blooming, richly scented; blooms several times during summer; hardy South, needs protection North. Splendid.

CALCEOLARIA, New Dwarf Compact, 1 ft., Vilmorin's Unequaled Strain; lovely clusters of many colors, selfs and spotted, beautiful.
Racemosa Hybrida, 2 ft., free-branching; flrs. canary and intense red with many shades; new, showy.

**ANTIGONON LEPTOPUS**

Splendid vine, hardy south, but needing protection north; beautiful foliage and flowers.

**SOLANUM MARGINATUM**

A grand pot-plant; showy foliage and clusters of fine white flowers starred blue.

**BEGONIA, CHRISTMAS CHEER**

A fine Begonia for pots and beds. In pots it blooms at Christmas; very beautiful.

CARDULOVICA Palmata, 5 ft., big Palm-like leaves, 2 ft. across, cut into graceful segments, and held upon long 4 ft. stems.

CASUARINA Equisetifolia, 15 ft., from Australia; an ornamental evergreen pot plant.

CELSIA Arcturus, 4 ft., lovely half-hardy plant for pots; long spikes of fine golden yellow flrs. July to September.

Cretica, 18 in., flrs. rich yellow spotted brown.

CHORIZEMA Illeffollum, 3 ft., Holly-leaved; flrs. yellow striped red; March till October.

CINERARIA Berlin Market, 1 ft., new; each plant becomes a bouquet of medium flrs. in richest colors; for house or market.

Nana Multiflora, 1 ft., Benary's splendid new varieties, remarkable for its compact habit and glorious mass of bloom; small flrs.

Polyantha Radlata, 1 ft., a fine window plant; small st ary flrs. in great profusion.

COLEUS Thyrsoides, 2 ft., pretty foliage and lovely spikes of azure bloom in winter; rare.

CORDYLINE Anstralls, 8 ft., hardy South, an elegant pot-plant North; leaves long, striped, handsome; flrs. white, sweet-scented, in branched panicles. A beautiful Palm-like plant of easy culture.

DATURA Golden Queen, 2 ft., beautiful golden flrs., deliciously scented; blooms first season; perennial; protect over winter North.

DIOCLEA Glycnoides, beautiful climbing pot plant; large racemes of scarlet flrs.

DOLICHOS Lignosus, an evergreen twining plant; rosy flrs. in umbels; summer.

EUCALYPTUS Amagdalena, Pepper-mint Tree, Giant Gum; hardy; the largest tree in the world, 470 ft. tall.

EUSTOMA Russelliana, 2 ft., elegant pot-plant; flrs. large, showy, purple with gold stamens; new; very beautiful.

EXACUM Affine, 6 in., compact, free-flowering, of Gentian family; flrs. blue with golden stamens; finely scented.

FABIANA Imbricata, 3 ft., pure white, funnel-shaped flrs., in great profusion; hardy evergreen, but needs protection North.

FREESIA Ragioneri, 1 ft., beautiful hybrids; flrs. large, of many fine colors; blooms in Autumn from Spring-sown seeds.

Tubergenii, new, fine, see offer elsewhere.

HEBECLINIUM Macrophyllum, 4 ft., large, branching plants from tropical America; lilac flrs. in big corymbs, very profuse.

HELIANTHELLE Uniflora, flrs. erect, light yellow, Aster-like, very pretty.

HELIOTROPE Fire Queen, charming new crimson-red, giant-flowd.; dark foliage, compact habit, free-flowering, sweet-scented.

HIBISCUS Coccineus, 5 ft., flrs. large, Althea-like, rich scarlet; splendid.

HYPERICUM Canariensis, 18 in., a handsome pot-plant; flrs. golden yellow; admirable.

LAVENDULA Pinnata, 15 in., a valued pot-plant; bushy, graceful pinnate foliage; fragrant rich blue flrs.; hardy.

LOBELIA Fulgens, 18 in., very handsome half-hardy sort, fine for pots; blooms first season; flrs. large, rich scarlet in showy terminal racemes; splendid.

Illumination, 2 ft., grand new perennial sort; big vivid glossy scarlet flrs. on a monstrous single scape; start with care.

LOTUS Tetragonolobus, 1 ft., Asparagus-winged Pea; trailing annual; scarlet flrs.

Jacobaeus, 2 ft., from Cape Verde Islands; attractive Pea-like flrs., dark purple.

MALVA Capensis, 10 ft., an African plant; flrs. purple, large, showy; profuse; half-hardy; of easy culture.

METROSIDEROS Tomentosa, a fine pot-plant; red flrs. in terminal crowded racemes.

MIKANIA Scandens, a vigorous trellis-climber; flrs. yellowish white in large heads.

MYRTUS Romana, 5 ft., white flrs. and pretty evergreen, richly-scented foliage.

NERTERA Depressa, 4 in., hardy perennial for shade, covered with scarlet Berries.

PETUNIA Infilata Sapphire, 1 ft., the new small-flowd. Petunia for beds and baskets; extremely free-flowering.

PHALANGIUM Lineare fol. Variegatis, 2 ft., a beautiful striped grass-like plant from Africa; bears white Lily-like flrs.

PHORMIUM Veltchii, 2 ft., an elegant variegated-leaved pot-plant of easy culture.

RHAGODIA Nutans, Australian Red-berry; grayish green foliage; for hanging baskets; valued for its pretty clustered fruits.

SCHOTIA Latifolia, Elephant Hedge Bean Vine, 25 ft., handsome rose flrs. in terminal panicles; pods edible when roasted; rare.

SEQUOIA Sempervirens, California Red Wood, evergreen; largest tree in America.

SKIMMIA Japonica, 3 ft., beautiful evergreen pot-plant; white sweet flrs., scarlet berries.

SOLANUM Arboreum, 6 ft., broad semi-tropical leaves; violet scented flrs. and beautiful red fruits.

Marginatum, 4 ft., flrs. white with purple centers; pretty yellow pendulous fruits an inch in diameter; handsome.

TEMPLETONIA Retusa, 3 ft., Coral Bush; flrs. red, axillary, pea-shaped. A charming pot-plant.

TEPHROSIA Grandiflora, 2 ft. Erect ever-blooming plant, with red pea-like flrs.

WIGANDIA Macrophylla, 5 ft. An elegant pot-plant with big showy leaves and beautiful lilac cup-shaped flrs. in attractive spikes.

Snapdragons. Dear Mr. Park: I had the prettiest Snapdragons that were ever raised in this town. They were the largest flowers and brightest colors I have ever seen, and were grown from your seeds. Mrs. Chas. Holland, Pickaway Co., Ohio.

Snapdragons. Dear Mr. Park: You should see my bed of Snapdragons with Petunias and Sweet Alyssum growing with them. They make a gorgeous display. I surely thank you for your wonderful seeds. Mrs. Frank McGlathery, Chester Co., Pa.

New Giant Majestic Fragrant Antirrhinums

THE LARGEST AND HANDSOMEST OF ALL SNAPDRAGONS

Plants 18 inches high, Compact, very free-blooming, of immense size; richest colors and variegations.

The Giant Majestic Fragrant Snapdragons are of a New Race that surpasses all others in showyness of plants, size of flowers, form of spikes, and rich shades of colors. If you want the finest do not fail to get a packet of Majestic. The Mixture will yield flowers that in size and vivid colors, and combinations will surprise you. 500 seeds, 5cts. Following are Majestic sorts.

Avalanche, pure white, in snowy masses, 50 seeds.
Eldorado, deep golden yellow; big spikes, 150 seeds.
Golden Dawn, golden buff, overlaid salmon, 150 seeds.
Delight, salmon pink, shading to apricot, 100 seeds.
Orange King, terra-cotta and deep orange, 150 seeds.
Red Chief, rich deep scarlet; fine for beds, 200 seeds.

Sunset, bright terra-cotta shading to rosy-salmon, 200 s.
Twilight, delicate apricot, old gold center, 200 seeds.
Rose Marie, new rich rose, gold center, 50 seeds.
Rose Beauty, big spikes of fine rose flowers, 50 seeds.
Victory, chamois with copper, very showy, 100 seeds.
Complete mixture of Majestic sorts, 500 seeds 5cts.

Other Magnificent Snapdragons. The following were certificated by the English Royal Horticultural Society, the highest mark of superior merit that can be given. All are of surpassing beauty and the collection embraces a fine range of colors; none finer:

Eclipse, brilliant fiery crimson, ideal habit, 100 seeds.
Exquisite, soft silvery pink, broad cream lip, 100 seeds.
Golden Queen, large fl's, rich gold, ex. select 150 seeds
Maize Queen, salmon maize, yel. lip, improved, 150 s.
Morning Glow, orange-scarlet, pink throat, 150 seeds.

Prima Donna, terra-cotta, cream and yellow, 150 seeds.
Spitfire, vivid orange-scarlet, 100 seeds.
Wild Rose, fine light pink, white throat, 100 seeds.
White Wonder, the best white, very large, 100 seeds.
Complete Mixture, magnificent sorts, 500 seeds.

VIS BROS. GIANT DELPHINIUM

VIS BROTHERS' NEW Mastodon Delphiniums

The Hybrid Delphiniums have recently become popular as garden flowers as well as for cutting. They have been greatly improved in many ways. The plants are more vigorous and free-blooming, while the flowers are larger, the trusses longer, and the colors and variegations are more varied and attractive. The various strains are hard to excel, and all are good, but I here offer a strain developed by Vis Brothers which is the top notch, and in plants as well as in flowers is the last word in improved Delphiniums. The plants grow from 5 to 7 feet high, bearing gigantic spikes of bloom, the large single and double flowers showing a wonderful range of colors from white to rich blue, many flowers with shadings of pink and violet and red in the most exquisite contrast. If the trusses are freely cut, so that seeds are not developed the plants will keep in bloom throughout the season. This splendid strain of Hybrid Delphiniums can hardly be surpassed, and I am glad to offer new-crop seeds direct from the Vis Gardens,

saved from their best plants and flowers. Packets of 75 seeds 5cents. I can also supply Hurst's Monarch Delphinium, 75 seeds 5cts., also Blackmore and Langdon strain, 75 seeds 5cts. The seeds require from a month to six weeks to germinate, and the seed-bed should be well cared for.

Dear Mr. Park: In April I got Zalil and Iceburg Delphinium seed from you and they came real well, also Eureka Violets. Mrs. J. W. Anderson, Henrico Co., Va.

Dear Mr. Park: The Tuberosus Begonias and Gloxinias from you last Spring are blooming fine. Cyclamens from seeds planted last October are full of buds, so they will not take 18 months to bloom, as per your catalog. I have more than 40 plants from three packets of seeds. Dr. G. C. Rinker, Greenwood Co., Kans., Oct. 25, 1933.

Dear Mr. Park: When we moved into our new home three years ago some of my friends gave me a Garden Shower of seeds. Among them was a packet of your Delphinium seeds. I planted the seeds and had 5 clumps the first year, and last Spring I had 17 clumps of blooming plants which began in May and lasted until Nov. 15, and such lovely flowers. They were admired all summer. Mrs. F. B. Ebersole, Scott Co., Iowa, May 10, 1933.

Dear Mr. Park: The Delphiniums I got from you are beautiful, all shades of blue. I also have a lovely white Primula Obeonica, on which I counted 30 flowers today. Mrs. Effie Copeland, Wood Co., Ohio, March 24, 1933.

Dear Mr. Park: I am much pleased with your flower seeds. I have 24 Freesias from about 28 seeds. Anna M. Phelps, Park Co., Wyo., Aug. 26, 1933.

Dear Mr. Park: I can't begin to tell you how beautiful my Oriental Poppies are. So far I have had three shades of pink and about 50 plants. I'm always successful with your seeds. Mrs. J. Geither, Genesee Co. N. Y.

Dear Mr. Park: The Pansy seeds I got from you germinated the best of any I have ever planted, and the colors were lovely. Miss L. Raab, Fort Bend Co., Tex.

Dear Mr. Park: The Ageratum and Water Lily seeds came up fine. I certainly am pleased with your seeds. Lillian Sell, Wabash Co., Minn., June 22, 1933.

Hollyhock Disease. This is fungus known by black raised spots on the under side of the leaves. Remove and burn all affected and dust the underside of remaining leaves with a mixture of powdered tobacco $\frac{1}{2}$ oz. of finely powdered sulphate of copper, well mixed. Apply on a still, dull day every two or three weeks. This is a very effective remedy.

Polygonum Baldschuanicum. This is a beautiful rapid-growing perennial vine that blooms freely in the summer. It thrives in a deep rich moist soil, and rather sunny situation. Avoid a high dry place and poor soil. Under such conditions it will make a stunted growth and prove a source of disappointment rather than of pleasure. It is readily started from seeds, and is quite hardy. A handsome Vine for a pagoda or summer house.

A Novel Adornment. Have a shelf constructed on the side of the house, three feet from the ground, on which place boxes eight inches deep and a foot broad. In the bottom fill in well rotted manure to the depth of three inches, then a compost of equal parts, rich loam, stable litter and sand, all well mixed. Now in this plant *Tropaeolum Lobbianum*, scarlet with green foliage. The vines will droop to the ground, forming a beautiful curtain of red and green that will be admired throughout summer and autumn.

The Maiden Pink. This is *Dianthus deltoides*, easily started from seeds, growing eight inches high and blooming for a long period with great freedom. For the rockery it is well adapted, being hardy and sending up new plants from the fallen seeds. The flowers are not large, come in rose and scarlet shades and pure white.

The Carnation-like Marigold. This is Guinea-gold. It is different from other Marigolds, lacks the strong Marigold odor; and the large double flowers are prized for cutting. The color is rich golden, and the first keep well when cut. It is a new annual that will soon become popular. Why not be the first to have it in your neighborhood. 25 seeds 5cts. See page 48.

The Bush Balsam. On page 19 I offer the new Bush Balsam. The plants grow a foot high and throw up their spikes of bloom above the foliage. They are as valuable for pots as for beds. The plants thrive in any soil, and in sun or shade. A child can grow it, and the display of bloom is continuous for weeks. 30 seeds 5cts., White, Rose, Red, or Mixed. See page 19.

Propagating Paeonies. In early Spring cover your Paeony plants eight inches deep with a compost of woods earth, rich friable loam, and sand, equal parts, thoroughly mixed. The Paeony stems will push through somewhat tardily, but in time to bloom, and in September, when ripened, remove the soil formerly placed and you will find resting buds on the stems, and below them a mass of roots; then detach the stems below the roots and set these at once carefully where they will become growing young plants. This will not seriously impair the old plant, which will bloom next Spring.

A Rich Blue Flower. For a showy rich blue flower get *Phacelia Campanularia*. Seeds start in 10 days, and the little plants come quickly into bloom, the bright little bells appearing in great abundance. See page 30.

Eutoca Viscida (Phacelia) 6 in. is also a lovely rich-blue free-blooming annual for rockery or edgings.

Additional Annuals, New and Choice Kinds

ASTER Improved Giant Crego, 2 ft., branching habit; flrs. large, double, well-formed; Bodger's Wilt-resisting; White, Deep Rose, Shell Pink, Violet.

American Branching, Bodger's Selected Wilt-resisting Stock, 30 in., robust plants; flrs. large, double, of fine form; saved from the finest strain known; new-crop direct from Bodger. Finest Mixed colors.

Improved Queen of the Market, Bodger's New Wilt-resisting, 20 in. Early, very double, long stems, finest for cutting and market. All colors mixed.

NOTE ABOUT ASTERS. Of late years many Asters have been troubled with a fungus that causes the plants to turn yellow and die just before the flowers develop. This is a serious disease, and I am pleased to state that those progressive seed-growers, the Bodgers, of California, have, by dignified and skillful experiments developed several races immune from the disease. The seeds I offer above are of their new Wilt-resisting Asters. The seeds cost more because of the special care required in growing, but the extra price is well deserved, and I am gladly including them in my regular list, offering packets of 100 seeds at 5 cts. If you want to make sure of a fine Aster bed you should get seeds of Bodgers' Wilt-resisting. You will thank me for this advice.

BELLIS, Double Daisy, Monterosa, 6 in., huge double quilled flrs.; rich rose; new and beautiful; like loamy soil.

BROWALLIA Viscosa, 1 ft., new, beautiful, free-blooming pot and bedding plant; flrs. bright violet blue, in clusters; good winter bloomer.

Viscosa Sapphire, 10 in., blue white eye.

COREOPSIS Grandiflora Auriculata Superba, 3 ft., hardy perennial blooming first season; the long, strong-stemmed flrs. large, golden yellow, a distinct red band encircling the eye; splendid for beds or cutting.

EMMENANTHE Pendulifolia, 2 ft., Whispering Bells, plants branching, bearing loose racemes of pendulous golden bells; somewhat resembles Phacelia.

ESCHCHOLTZIA Compacta, Moonlight, 1 ft., new, charming chrome-yellow, neat little bushes with metallic foliage.

EUCNIDE Bartonoides, 2 ft., branching plants bearing long-stemmed sulphur flrs., having masses of long, pretty stamens.

FELICIA Bergeriana, 4 in., trufy plants, flrs. daisy-like, nearly an inch across, a lovely rare shade of blue, easily grown from seed.

GOETIA Sweetheart, 18 in., plants branching compact and covered with large, exquisite shell-pink flrs., the effect being that of a well-grown blooming Azalea. Splendid for pots and beds.

HELIOPHILA linearifolia, 1 ft., Cape Stock, from South Africa, rare, flrs. bright blue with white eye in handsome racemes.

LOBELIA Compacta Golden Queen, 6 in., golden foliage, flrs. rich dark blue, very effective.

MECONOPSIS Paniculata, 3 ft., Golden Himalayan Poppy. A glorious plant, the flrs. bright-golden yellow, large, showy and beautiful Biennial.

MIMULUS Ringens, 2 ft., erect hardy perennial blooming first season, lavender-blue axillary flrs.; handsome.

MYOSOTIDEUM Nobile, 18 in., New Zealand Forget-Me-Not, flrs. large, deep blue edged white. Sow in heat, transplant to a shady bed. New seed ready in March.

MYOSOTIS, new compact blue, an improvement on Sutton's Royal Blue; a superb variety; masses of rich bloom.

OENOTHERA Rosea Mexicana, 6 in., a pretty dwarf species with large deep rose flrs.

PANSY American Beauty Blend, 6 in. This is the finest blend of Pansies that can be made. It contains seeds of Vis Extra Giant-flowd., Roggi Swiss Giant and Bugnot's Mammoth, including all the rich colors and exquisite variegations of these surpassing strains. These are all new crop seeds saved from selected plants, grown in Holland, the home of Pansies, by Vis Bros., whose great specialty is Pansies. The flowers will be eye-openers to those unacquainted with these magnificent strains.

PETUNIA Hybrida Cockatoo, 8 in., Benary's new Petunia, dwarf compact, producing a mass of small flrs., rich purple, distinctly marked with pure white, fine for beds or pots, very attractive.

Grandiflora Theodoshia, 2 ft., extra large flrs., fringed, brilliant rose with distinct golden throat. Took first prize at Boston Flower Show. An American introduction.

SCABIOSA Giant Loveliness, 3 ft., big double flrs., soft delicate salmon-rose, on long, stiff stems, fragrant; showy in the garden and fine for cutting.

STEVIA Purpurea, 2 ft., a Mexican branched plant with numerous heads of purple flrs., excellent for bouquets.

SWEET WILLIAM, Newport Pink, 18 in. A very bright, beautiful variety, flrs. large, in massive clusters, excellent for summer beds and for cutting. Color, shades of salmon or watermelon-pink; splendid.

SWEET WIVELSFIELD, 18 in., few plants can compare with this wealth of color and length of blooming-season; sweet-scented flrs. Not unlike Sweet William.

TITHONIA Speciosa, 12 ft. Giant Mexican Sunflower. Tall, many branched plants bearing in autumn numerous long-stemmed flaming-scarlet flrs., not unlike single Dahllias. Showy, easily grown, new.

VIOLA Cornuta, Puck, 6 in., sage-violet and canary yellow, bicolor, new, beautiful, plants compact, very free-blooming.

ZINNIA New Scabiosa-flowered, 3 ft. A new branching Zinnia, free and continuous-blooming, flrs. of medium size, full-double, crested, reminding one somewhat of a large Scabiosa; many rich colors, endures sun and is fine in beds; good for cutting. Mixed

Additional Perennials, New and Choice Kinds

ACONITUM Napellus Praecox, 3 ft., an early-flowering, beautiful new blue sort, very desirable.

AGRIMONIA Eupatoria, 2 feet, flowers white in elongated spikes, profuse; serrated leaves.

ANEMONE Narcissiflora, 1 ft., white; Narcissus-like flowers in fine large umbels; distinct and good.

AQUILEGIA, Benary's Improved Long-spurred, 2 ft., a special strain surpassing all others, splendid.

ASPERULA Hexaphylla, 2 feet, the leaves small, in whorls, flowers white, tubular panicle.

ASTER Sub-coerulea Floribundus, 2 feet, flowers heavenly blue with orange center; free-blooming.

ASTILBE Arendsii Hybrida, 2 feet, rose shades; splendid large graceful plumes; very beautiful.

ATROPA Belladonna, 3 ft., flrs purple, drooping, bell-shaped; berries purple cherry-shaped, very poisonous.

BOEHMERIA Nivea, 3 ft., large leaves, under side covered with dense white hairs, flrs white in spikes.

CAMPANULA Lactiflora, 3 ft., fine border species, flowers light blue in terminal clusters, beautiful.

Glomerata Superba, 2 ft., large clusters of deep rich violet flowers of extra fine form, very beautiful.

CERASTIUM Boissieri, 1 ft., stems and leaves silvery flrs white, large, profuse, in regular cymes; summer.

CHELONE Torreyi, 4 ft., flowers tubular, rich scarlet-red, profuse; plants are slender and graceful.

CONVALLARIA Japonica, 8 inches, used in hot climates instead of lawn grass.

DATISCA Cannabina, 5 ft., a very ornamental perennial, foliage fern-like, beautiful, flowers golden yellow in splendid axillary spikes.

EPILOBIUM Fleischeri, 18 in., a handsome perennial large rosy purple flowers, like Evening Primrose.

EUPATORIUM Purpureum, 3 ft., branching plants, flowers wine-red in showy corymbs, very pretty.

EUPHORBIA Myrsinites, gray trailer, large heads of yellow bloom in umbels; very ornamental, hardy.

GALEGA Duchess of Bedford, 2 ft., flowers lavender and white, in terminal racemes; floriferous; showy.

GENTIANA Lutea, 3 ft., a showy perennial with very fine trumpet-like yellow flowers.

GUNNERA Manicata, 5 feet, a waterside or moist-ground plant with prodigious leaves 12 to 20 feet in circumference, borne by huge foot-stalks; majestic.

GYPSOPHILA Acutifolia, 4 feet, a pretty species; pale pink, fine for cutting; much like Gypsophila Paniculata except in color.

HELIANTHEMUM Rotundifolium, 1 ft., fine sun-loving plant with pretty deep earmine flrs in summer.

HELICHRYSUM Angustifolium, 2 ft., showy white foliage and handsome yellow flrs, a good everlasting.

HELIOPSIS Compacta Floribunda, 2 ft., free and rich flowering; golden yellow, if started early it will bloom the first season; fine.

HEMEROCALLIS, Betscher's Hybrids, 2 ft., new.

KNAUTIA Arvensis, 3 ft., Gypsy Rose; lilac.

ONONIS Spinosa, 18 in., a leguminous plant, pinnate foliage, flrs pea-shaped, purple in clusters, handsome.

ORNITHOGALUM Thyrsoides Alba, 18 in., Star of Bethlehem; dense, erect clusters of very pretty white Star-like flowers, early flowering, splendid.

PAPAVER Nudicaule, Giant Tangerine, 18 in, huge fiery-orange flowers, true to color; a grand novelty.

PYRETHRUM Parmicaeflorum, 6 in, silvery white graceful, feathery foliage; fine for pots and rockeries.

SALVIA Nemorosa Superba, 2 ft., plants branching with spikes of superb dark violet flowers; rare.

SISYRINCHIUM Aneeps, 6 inches, Blue-eyed Grass; lovely deep blue flowers in April.

SOLANUM Dulcamara, 15 ft., hardy vine; flowers in purple clusters in summer, scarlet berries in autumn.

STACHYS Alpina, 2 ft., silvery foliage; flrs campanulate, dark rose, in terminal spikes; many-flowered.

TEUCRIUM Chamaedryis, 8 in., gray foliage, spreading habit, flrs rose, in leafy spikes; fine for rockery.

ZAUSCHNERI Californica Microphylla, 2 ft., a good border plant, flowers funnel-shaped, large, erect bright red in terminal spikes, "California Fuchsia,"

Culinary and Medical Garden Herbs

EVERY kitchen garden should contain a bed of the herbs I offer to be used in flavoring and making more palatable the food prepared for the table; also to be used for teas as remedies for the various ills to which the family is subject. Do not fail to add a few of these herbs to your order. Some of the plants are well worth growing as flowering or ornamentals, and will last for years when once established.

ANGELICA Archangelica, 5ft., biennial, large leaves, big umbels of small white flowers. When steeped the roots and seeds yield an aromatic tonic. In Lapland it is used as a condiment.

ANISE, 1ft., annual, umbels of white bloom, seeds used for flavoring also for tea to relieve colic; very fragrant.

ARTEMISIA Vulgaris, 4ft., recommended for poultry yards to promote the health of fowls.

BASIL, Sweet Purple Bush, 1ft., handsome as a pot-plant, fragrant. Used as a flavoring in soups.

BALM Melissa, 2ft., perennial, whitish bloom, lemon flavor; used for tea in sickness. A bee plant.

BORAGE, 2ft., perennial, flowers blue, panicle, drooping, leaves used for flavoring, bee plant.

CARAWAY, 1ft., biennial, white umbels, fragrant seeds, used for flavoring bread, meats, liquors.

CATNIP, 3ft., perennial, tea from leaves aids digestion.

CORIANDER, 2ft., annual, white, seeds used to flavor.

CUMIN, 6in., annual, rosy-white, seeds for flavoring.

DANDELION, 6in., common, very showy golden bloom, salads in spring.

Improved Broad-leaved, larger leaves and larger flowers, early, fine winter salad when forced.

Thick-leaved, more prolific, desirable.

DILL, Anethum, 2ft., biennial, yellowish umbels; leaves used for pickles and flavoring sauces.

ELECAMPANE, 3ft., perennial, golden bloom, tea made from the roots used in bronchial troubles.

FENNEL, 4ft., biennial, fine, fragrant foliage for salads.

HOREHOUND, 2ft., per., tea of leaves good cough remedy. magnificent.

HYSSOP, 2ft., per., a pretty flowering plant, blooming throughout summer, pot herb. A tea of the leaves used as an expectorant.

LAVENDER, 2ft., per., flrs fine blue, in spiked whorls, used to dry for perfume, which is delightful.

LOVAGE, 1ft., per., pot herb, yellow umbels, aromatic s.

LIQUORICE, 4ft., flowers pale blue in spikes, roots long and sweet, edible, the Licorice of commerce.

MAJORAM, Sweet, 2ft., annual, flrs purple, in spikes, in June, dried leaves used for seasoning meats.

Pot, 2ft., perennial, flrs purple in panicles. Branches used for culinary purposes.

PENNYROYAL, European, 1ft., flowers purple, in whorls, during autumn, aromatic.

ROSEMARY, 3ft., hardy evergreen shrub. Flrs pale blue in axillary spikes. Leaves used for seasoning, also for a tea to relieve headaches.

SAGE, Broad-leaf, 1ft., sub-shrub. Flrs blue in whorls, profuse. Leaves and stems used for seasoning.

SAVORY, Summer, 1½ft., flrs lilac in sub-spicate whorls.

Winter, 1ft., dwarf hardy evergreen perennial, flrs and uses similar to Summer Savory.

TANSY Macrophyllum, 4ft., dense yellow flower heads, a perennial with mossy foliage, aromatic and medicinal.

THYME French, 6in., handsome dense perennial often used as an edging. Flrs lilac in dense head-like clusters. Leaves used for seasoning and tea for headache.

Winter, Broad-leaf, English or German, used in cooking.

WORMWOOD, Absinthum, 1ft., very bitter, tea of the leaves used as a vermifuge in children.

HERBS, Separate or in Complete Mixture, 5ets.

A Novelty of Merit, Cyphomandra Fragrans

I offer the rare and beautiful Cyphomandra Fragrans, 20 seeds for only 5 ets. Almost every seed will produce a plant. It is a perennial, hardy South, but must be protected North. Cyphomandra is an easily-grown plant with massive semi-tropical leaves, and bearing in Autumn big racemes of deliciously scented and beautiful pink flowers. Given a frost-proof room the leaves will drop, but early in spring it will be re-clothed with new richly colored foliage, and later with the showy pink bloom which will be succeeded by rich scarlet palatable fruit the size of a duck-egg, valuable as a nutritious and tasty vegetable. This is new from Brazil, and will be the wonder and admiration of all who grow it and the talk of the town. Give it a trial.

Rock Garden Seeds, New and Choice Kinds

ABRONIA Umbellata Grandiflora, large flowered, a rapid-growing trailer with Verbena-like clusters; very fragrant; rosy blooms; likes sun and sand.

ACHILLEA Fomentosa Aurea, 6 in., bright golden repeated corymbs of bloom; glaucous, fine-cut foliage; dense habit; a splendid perennial for rock-work.

ACONITUM Fischeri, 3 ft.; an attractive perennial, with big dense spikes of deep blue

ADONIS Vernalis, 1 ft.; large golden flrs.

ALYSSUM Minimum, an effective edging and rockery annual; creeps on the ground; ever-blooming; white clusters of sweet flrs.

Saxatile Compactum, Gold Dust, 1 ft.; fine hardy perennial; golden clusters early

Silver Queen, like Saxatile, but has sulphur yellow flrs.; perfectly hardy.

Montanum, 6 in.; yellow clusters, silvery

Rostratum, dwarf, golden clusters, free-

Serpyllifolium, 6 in.; earliest pigmy rock plant; yellow bloom.

AGERATUM Scarlet Gem, 3 in.; small, dark rose, fine foliage.

ANCHUSA Blue Bird, 1 ft.; vivid indigo blue.

Sempervirens, 2 ft., rich blue in shirt axillary spikes; hardy perennial.

ANDROSACE Coroniflora, pretty rosettes of white flrs., in summer; charming annual.

ANEMONE St. Bridgid, 1 ft., large flowers of various rich colors; easily grown; mixed.

Pulsatilla, 8 in., bears violet flrs., in April; plant covered with silky hairs.

ANTIRRHINUM Rock Hybrids, 8 in., high. A **Glutinosum** crossed with **A. Majus**; fine new plants for the rockery.

AUBRIETIA, hardy perennial blooming in early spring; spreading, pretty and showy.

Hybrida Grandiflora, 6 in., large flrs. of various colors, as white, rose, lilac, dark red, blue and violet; very useful for borders

AURICULA, Kelway's Perfect Model, 1 ft., very beautiful hardy spring blooming perennial

BELLIS, Double Daisy, **Monstrosa** mixed extra large flowers in splendid variety; a hardy perennial; free and long-blooming

CALANDRINIA Umbellata, a trailing hardy perennial producing pretty vivid crimson flowers, likes sun; blooms first season.

CALLIRHOE INVOLUCRATA

CAMPANULA CARPATICA

CALLIRHOE Involucrata, trailer; large crimson cup-shaped flrs.; showy hardy perennial

CALAMINTHA Alpina, 6 in., very pretty dwarf rock-plant; flrs. purple in whorls; mint-like, in tufts.

CAMPANULA Carpatica, 1 ft., very free-blooming perennial; flowers bell-shaped, graceful, beautiful; blue, white, mixed.

Garganica, trailing; a gem for the rockery.

Rotundifolia Superba, the Giant Harebell of Scotland; rich blue flowers

Sarmatica, 1 ft., sprays of graceful blue drooping flrs. from June till August; fine

Barbata, 1 ft., Queen of the Alpine Meadows.

Grayish-blue bells; excellent for the rock-

Pusilla, 4 in., a fine miniature rock-plant; azure, shining leaves.

CANDYTUFT Sempervirens, spreading; white racemes in spring and summer; hardy

Semperforens, 1 ft., large pure white sweet-scented flrs. in corymbs; late autumn.

CARNATION Early Dwarf Vienna, a lovely free-flowering Pink for rock-work; flowers very double; white, rose, violet or mixed.

CERASTIUM Blebersteini, a low perennial with grayish foliage and masses of white

Tomentosum, a valuable creeping plant with attractive silvery white foliage and showy white star-shaped flowers, covering

CHEIRANTHIUS Allioni, an early-flowering perennial with gorgeous orange flowers.

Unifolius, 9 in., compact perennial covered with clear mauve flowers during May

CINERARIA Diamond, 1 ft., very handsome silvery foliage plant of easy culture; flowers yellow, showy; foliage almost white

CORYDALIS Chellanthifolia, 8 in., a hardy perennial; foliage dense, fern-like, decorated with abundant spikes of clear yellow

CRUCIANELLA Stylosa, 6 in., a pretty hardy perennial; trailing; rose-colored flowers in handsome clusters; free-blooming.

CORONILLA Varia, 2 ft., lovely pink and white flowers in umbels, each umbel containing 16 to 20 flowers; a hardy herbaceous perennial; fine for beds or the rockery.

CYCLAMEN Neapolitanum, 3 in., hardy perennial; numerous red and white flowers.

DRACOCEPHALUM Ruyschianum Japonicum, 1 ft., hardy perennial; bears whorls of violet flowers in June.

AQUILEGIA COERULEA

AUBRIETIA HYBRIDA

AQUILEGIA Alpina, 1 ft., large beautiful blue-flrs.; splendid rock plant; hardy; perennial

Coerulea, 1 ft., splendid big blue and white flowers with long spurs during June.

Siberica, 1 ft., double flrs., blue, rose, red.

ARABIS Alpina, a splendid early-blooming white perennial; fine for beds and rock-

Alpina Rosea, very handsome rose-colored

Racemosa, 1 ft., white, dwarf, large-flowered

ARENARIA Laricifolia, 6 in., a pretty white-flowered rock plant from Switzerland.

Montana, 6 in., large white flrs. very freely produced on long stems; fine perennial

ARMERIA Maritima Rosea, 1 ft., tufts

Maritima Splendens, bright rosy-magenta.

Dianthoides, 6 in., light pink in close heads.

Lancheana, 6 in., tufts; brilliant rose; fine.

ARNICA Montana, 8 in., golden flowers 2 in. across; fine for the rockery; hardy perennial

Sub-Coerulea, 15 in., a hardy perennial from India; flrs., blue, gold center.

ASPERULA Odorata, 6 in., small, snow-white flrs., in May and June; very sweet when dried; very pretty; a useful, hardy perennial for the rockery. 100 seeds.

ASTRANTIA Major, 2 ft., a hardy perennial with pretty rose and white flrs.; fine border or rock plant; flrs. in umbels.

DELPHINIUM, Tom Thumb, 1 ft., very free-flowering, compact plants; ultra-marine Pumilum Blue Butterfly, 1 ft., branches freely and become a globe of blue flrs.; blooms during autumn. 40 seeds 5 cents. I can also supply White Butterfly or Mixed at same price.

DIANTHUS Deltoides, 8 in., Maiden Rock Pink; a mass of bright flowers

Barbatus, 1 Ft., Dwarf, a new class of Sweet Williams; flowers of many shades and variegations; borne in fine clusters.

Caesius, 8 in., Cheddar Pink, a superior rock plant; bright rose flowers

Plumarius, 9 in., Garden Pink; double and semi-double flowers, richly scented.

Rock Species of Pinks in splendid mixture.

Granitius, 8 in., a fine hardy Pink for rock gardens; branching habit; small red fl.

Neglectus, 6 in., a charming little hardy Pink; cherry-red flowers abundant.

Highland Queen, 8 in., free-growing Pink, rich red flowers.

ERINUS Alpina, 6 in., hardy violet flowers in profusion; seeds small and need care

ERPETION Reniforme, 4 in., Australian violet; pretty violet flowers; charming for suspended baskets, beds or the rockery.

ERYSIMUM Pulchellum, 6 in., new dwarf species, compact, forming dense tufts; flowers sulphur yellow in racemes in spring; a fine rock plant.

FRAGARIA Indica, trailer, hardy; golden flowers, followed by handsome scarlet insipid strawberry-like fruit; good for baskets and the rockery.

GENTIANA Acaulis, 4 in., a hardy perennial for edgings and rock-work; rich ultramarine blue with gold spots; trumpet-shaped flowers.

Septentida, 6 in., easily-grown Alpine with trumpet-like blue flowers; June till August.

GERANIUM Traversi, 1 ft., a beautiful hardy perennial with woolly, silvery-grey foliage; bright pink flowers from New Zealand.

GEUM Urbanum, 6 in., hardy perennial, orange flowers.

GLOBULARIA Trichosantha, 9 in., hardy perennial; small blue flowers in large globular heads in Summer; neat border

GYPSOPHILA Muralis, 9 in., tuft-like plants covered with small rose-colored flowers.

Repens, trailer; an everblooming hardy perennial; flowers pinkish white in great abundance. 50 seeds.

Jonopsidium Acaule

JONOPSIDIUM Acaule, 2 in., Violet Cress, a lovely little carpet annual; flowers pale mauve, exceedingly pretty; self-sows.

HELIANTHEMUM Mutabile, 1 ft., indispensable rock plants for sunny places; cup-like flowers in many colors; new and beautiful sorts mixed. 50 seeds.

HESPERIS Matronalis Nana, 1 ft., a hardy perennial with clusters of sweet-scented Phlox-like flowers; very handsome.

HEUCHERA Sanginea, 2 ft., graceful spikes of bright crimson flowers; long-stem

HYPERICUM Polyphyllum, a pretty trailing hardy perennial; silvery foliage; golden **Oriente**, 9 in., hardy perennial; large golden yellow flowers, showy and handsome.

Reptans, prostrate hardy perennial; silvery foliage and numerous bright golden flowers.

HIERACIUM Villosum, 1 ft., hardy perennial; foliage covered with dense down; golden

HORMINUM Pyrenaicum, 1 ft., rosettes of large green leaves; spikes of violet flowers; fine for edgings and rock-work.

LEPTOSIPHON Rosea, 6 in., hardy annual; beautiful rose-colored flowers in profusion.

Aureus, like Rosea, but has golden flrs

LINARIA Cymbalaria, a hardy perennial trailing plant with light green foliage and small lilac-blue flowers; very attractive.

Alpina, a hardy trailer; foliage silver-green; flowers small Snapdragon-like; orange

LYCHNIS Alpina, 6 in., hardy perennial; flowers brilliant rose, in clusters.

Lagascae, 3 in., a charming rock-plant; forms tufts issuing numerous showy flowers; bright rose, white eye; evergreen

MIMULUS Moschatus, 6 in., a hardy perennial with little golden bells; very fragrant.

Prince Bismarck, 1 ft., a free-blooming showy annual with coppery scarlet-red flowers; likes sandy soil and partial shade.

MESEMBRIANTHEMUM Cordifolium Variegatum, 6 in., handsome variegated foliage, rosy purple flowers; highly valuable for beds and the rockery.

NIEREMBERGIA Gracilis, 1 ft., branches and blooms profusely; flowers cup-like, light blue, beautiful; very desirable. 150 seeds.

MATRICARIA Golden Ball, 1 ft., a beautiful hardy plant covered during summer and fall with golden double flowers.

Mesembrianthemum Tricolor

Mimulus

MESEMBRIANTHEMUM Tricolor, 6 in., very pretty; showy annual; flowers crimson and white with dark eye; likes sand and sun.

MYOSOTIS Palustris Semperflorens, 9 in., the true Water Forget-Me-Not; blue clusters produced freely from spring till late fall.

Ruth Fischer, compact little plants bearing a wealth of large azure flowers in fine clus.

Star of Love, dense little plants smothered with clusters of rich blue flowers; fine for the rockery, also for pots

NEPETA Mussini Superba, 1 ft., a new large-flowered sort, thrifty in growth; deep blue.

OENOTHERA Macrocarpa, 8 in., prostrate plant bearing large golden flowers.

Drummondii Nana, 1 ft., hardy annual of dwarf habit; large pale yellow flowers.

OXALIS, Cloth of Gold, 6 in., masses of golden clusters in summer; bulbous.

Tropaeoloides, 4 in., a pretty, easily grown annual; flowers yellow, foliage brownish.

OROBUS Vernus, 1 ft., Pea-like blue and lilac flowers freely produced in spring; hardy.

PAPAVER Alpinum, 6 in., a hardy perennial; blooms freely in summer; plain and fringed in many rich colors mixed. 150 seeds.

PARNASSIA Palustris, 6 in., an elegant hardy perennial for moist or boggy soil; charming white flowers, blooming in mass.

POLEMONIUM Prima Donna, 1 ft., a new variety; hardy, long sprays of azure blue fl.

Richardsoni, 1 ft., hardy perennial; flowers large, blue in drooping panicles in summer; foliage slightly musk-scented.

POTENTILLA Gibsoni, 1 ft., an Improved Scarlet hardy perennial developed by Mr. Gibson; a lovely scarlet-flowered creeper.

Miss Willmott, 1 ft., an exceedingly free-flowering creeper; glossy magenta rose.

Nana Multiflora, 1 ft., showy, easily grown little plants becoming a mass of semi-double flowers; very pretty.

Pyrenaica, 1 ft., hardy perennial; canary flowers, early; distinct and good.

Apennina Aurea, 6 in., yellow; pretty.
Calabra, 8 in., yellow flowers; hardy
PRIMULA Auricula, 6 in., handsome free-
 blooming perennial; masses of varied
 bloom in spring.

Garden Pink, Double and Semi-double

Cashmeriana, 1 ft., bears heads of lilac flow-
 ers very early in spring; hardy per.
Froncosa, 1 ft., hardy plant with silvery foli-
 age, producing lovely rosy-lilac flowers
Rosea Grandiflora, 4 in., flowers bright rosy
 carmine with golden eye; nearly 1 in.
Veltehi, 9 in., from China; like *Cortusoides*
 but larger and handsomer; rich rose.
Vulgaris, the early yellow Primrose; hardy
 very showy and beautiful; seeds tardy
PYRETHRUM Selaginoides, 6 in., fern-leaved
 tufts of golden foliage; a good edging.
Tehhatchewii, 6 in., hardy perennial with
 numerous white flowers with gold disk; in
 early summer handsome, the plant forming
 dense tufts; sow in pots and transplant;
 thrives on dry slopes, shade or in other
 conditions unfavorable to most plants.

Ranunculus

Queen Ann's Thimble

PINK, 1 ft., very sweet, profuse, double.
QUEEN ANN'S THIMBLE, 1 ft., blue flrs.; in
 clusters; fine for bouquets.
RANUNCULUS Claremont Hybrids, 2 ft. First
 offer of seeds of the new Claremont Hy-
 brids, the finest Ranunculus known; start
 readily from seeds; the big 5 in. double
 flowers showing a glorious riot of color,
 so numerous as to literally hide the plant.
RANUNCULUS Giant Florentine, 2ft. Large
 flowers of the most varied colors held on
 long stems; a great improvement
RANUNCULUS Gramineus, 9 in., an easily
 grown hardy perennial with long narrow
 silvery foliage and large golden buttercup
Asiaticus Superbissimus, 1 ft., very vigorous.
 handsome plants easily grown from seeds.
SANVITALIA Procumbens fl. pl., a trailing an-
 nual bearing golden button-like flowers.
SAPONARIA Oeymoides splendens, an elegant
 trailing perennial with rose colored flowers
SAXIFRAGA Encrusted Sorts, 8 in., a fine
 mixture of these handsome rock plants
Bedding Queen, 8 in., deep carmine clusters
Mossy Sorts, 8 in., lovely varieties, with
 mossy foliage and numerous pretty flow-
Decipiens, *Grandiflora Hybrida*, 1 ft., charm-
 ing hybrids, the flowers campanulate.
 large, of many shades from white to rosy

crimson; plants dense, tufted.

SEDUM Coerulcum, 3 in., a charming half-
 hardy annual; pale blue flowers, freely
Acre, 3 in., Stone-crop; low spreading hardy
 perennial; golden flowers in three-parted
Middendorfil, 6 in., an excellent rock plant;
 fleshy brown foliage and golden flowers in
 summer; thrives under the most adverse
 conditions.

Spectabile, 1 ft., hardy perennial; numerous
 pink flowers in flat-topped clusters during
 September; a robust, free-blooming species.
SEDUM Spurium Coelneum, 6 in., large
 umbellate cymes; color brilliant deep rose;
 blooms in Autumn or late Summer.

SEMPERVIVUM, Mixed Hardy Species—These
 are admirably adapted for rockeries or to
 cover old walls; succulents.

SILENE Alpestris, 6 in., a hardy perennial of
 easy culture; shining white flowers in
 large panicles; May to July; likes shade.
Schafta, 6 in., a beautiful little hardy peren-
 nial, the branches gradually becoming cov-
 ered with rosy-purple flowers.

Asterias Grandiflora, 18 in., hardy perennial;
 large, globular, crimson-scarlet heads.

SOLDINELLA Alpina, 3 in., hardy perennial;
 leaves roundish, radical; flowers pale blue,
 fringed, drooping, four clustered

SPERGULA Piliifera Aurea, 2 in., a charming
 little plant for edging and rock-work; foli-
 age golden yellow; flowers small, white.

STELLARIA GRAMINEA Aurea, 6 in., hardy
 perennial; flowers white, numerous.

Sweet William Dwarf

Viola Bosniaca

SWEET WM., New Dwarf, 9 in., large flrs.

VIOLA BOSNIACA, 4 in., hardy, free-bloom.
Cyclops, 6 in., hardy; deep purplish violet
 with large, showy white eye; compact,
 free-blooming, and ever-blooming.

Viola Gracilis Purple Robe, 6 in., deep pur-
 ple-violet; very free-flowering; charming
 rock or border species; tufted habit; spring.

Papillo, 8 in., hardy; the Butterfly Violet;
 flowers bi-colored, blue and white; profuse.

Thuringia, 8 in., hardy; flowers rich blue
 with fine contrasting white center.

Blue Gem, or Jersey Gem, 8 in., hardy violet
 blue; compact; continuous-blooming.

WAHLENBERGIA Grandiflora Mariesi, 1 ft.
 dwarf, the plants blooming freely the first
 season; flowers blue and white.

SCUTELLARIA Balcensis Coelestina, 18 in.,
 hardy; dense bushy habit; very free and
 long blooming; fine for beds and cut flow-
 ers.

TUNICA Saxifraga, 6 in., hardy perennial cov-
 ered with starry pink flowers.

TRIFOLIUM Repens, 6 in., dark red leaves,
 white heads of bloom; hardy; handsome.

TRADESCANTIA Virginica, 18 in., hardy,
 flowers bright blue in clusters; fine per-
 ennial.

VALERIANA, Pretty Betsy, 1 ft., clusters of
 red, white and scarlet flowers, sweet-
 smelling.

UROSPERMUM Delechampi, a magnificent
 rock plant with double golden flowers.

VERBENA Verosa, 1 ft., a handsome hardy
 perennial producing purple flowers

VERONICA Repens, 2 in., hardy perennial;
 the plants compact mats of green, studded
 in spring with pretty azure flowers.

Prostrata, prostrate perennial; compact, be-
 coming a sheet of lovely blue flowers

Tenerum, *Royal Blue*, 1 ft., hardy peren-
 nial, the flowers clear blue in long spikes;

PERENNIAL Species—Mixed in great variety.

ZINNIA, Double Lillput, 1 ft., button-like lit-
 tle flowers; very double; colors .

AQUATIC SEEDS, FINEST VARIETIES

I take pleasure in presenting this descriptive list of plants, many of which are rare and beautiful. Those who have lakelets or water gardens will find this list of interest. The seeds were all obtained this season.

Alisma Plantago, 2 ft. a graceful bog plant; leaves all radical; frs. 3-petaled, rose, in whorls in July.

Butomus Umbellatus, 2 ft., a very handsome, easily-grown bog plant, known as Water Gladiolus, rosy frs in umbels on naked stems; leaves narrow.

Caltha Palustris, 6 in., tufts of pretty foliage adorned with lovely golden cups in early spring; for bogs.

Carex Pendula, 4 ft., a graceful Sedge; leaves broad; frs in long, drooping, cylindrical spikes; fine.

Cyperus Alternifolius, 2 ft, Umbrella Plant; an elegant Sedge, fine for pots as well as water-margins.

Papyrus, 6 ft., Egyptian Paper Plant; tall graceful plumes; hardy South; protect at North.

Drosera Rotundifolia, 4 in., circular leaves encircled by red hairs; frs white on erect scapes; hardy.

Iris Pseud-acorus, Water Flag, 2 ft, a hardy bog plant; frs large, bright yellow and orange; splendid.

Juncus Vulgaris, 5 ft., a beautiful Rush; fluffy red plumes in autumn; hardy; likes water.

Lycopus Europaeus, 2 ft, Marsh Horehound a broad serrated-leaved perennial, naturalized from Europe; inconspicuous flowers; a hardy marsh plant.

Mentha Aquatica, Water Mint, 2 ft, a hardy mint; ovate; leaves and dense terminal spikes of frs.; naturalized from Europe; foliage very aromatic.

Menyanthes Trifoliata, Bog Bean. A handsome plant formed in the marshes of England; frs white suffused with pink and beautifully fringed; hardy.

Myosotis Palustris, 6 in., a pretty, continuous-blooming hardy perennial marsh Forget-me-not; the flowers are lovely blue, in pretty clusters.

Nelumbium Speciosum, 3 ft., the great Egyptian Bean of Pythagoreus; elegant umbrella foliage held above the water, and huge rosy-tipped, tulip-like, richly-scented flowers a foot in diameter, the king of hardy water plants; the one "must have" aquatic.

Nuphar Luteum, big fleshy round leaves and showy golden flowers the size of a duck-egg; both foliage and flowers held well above the water; hardy.

Nymphaea Alba, the well-known white Water Lily; both leaves and flowers lie upon the surface of the water; very fragrant, beautiful

Lotus, a tender Water Lily, the true Egyptian Lotus, sacred to their god, Isis, and engraved on ancient coins. Seeds ground and made into bread was an Egyptian food.

Coerulea, the blue Water Lily; a beautiful, free-blooming plant; very handsome but needs winter-protection.

Pygmaea, a handsome hardy species from Central Asia; frs white, fragrant, blooming from June till September; leaves cordate, entire, slightly nerved.

Rose Hybrids and Blue Hybrids, two fine races of Water Lilies supplied by Vilmorin, of Paris. I supply either Hybrid or both Hybrids in mixture.

Splendid Special Mixture of many sorts.

Parnassia Palustris, 6 in., an elegant bog plant, grass-like, with showy white, veined flowers; a hardy perennial of easy culture; a fine marsh plant.

Sagittaria Sagittifolia, 1 ft., erect racemes of showy white flowers; leaves arrow-shaped, graceful; hardy, handsome; a splendid marsh or bog plant.

Scirpus Lacustris, 5 ft., a showy stream-loving Bullrush with red-brown spikelets in branched cymes; the stems largely used in Europe for making chair-seats and mats; a hardy marsh or bog plant.

Scoparius, very ornamental Rush; bog plant.

Sium Latifolium, 5 ft., Water Parsnip, an umbelliferous plant; flowers white, in compound umbels.

Stachys Palustris, 18 in., a hardy perennial Marsh Mint, known as Hyssop Hedge Nettle; flowers are small, purple, in small heads; a hardy marsh plant.

Typha Latifolia, Cat-o-nine-tails, 5 ft., a handsome hardy water plant; flowers in dense spikes, brown, showy, attractive in groups. The pollen of Typha is made into bread by natives in New Zealand.

THE FINEST ORNAMENTAL GRASSES

All grasses are more or less graceful and beautiful, but the following are among the finest and most admired. A bed of the choicer ones will afford much satisfaction and pleasure.

Agrostis Laxiflora, 2 ft., slender, wide panicles, fine.

Nebulosa, 1 ft., Cloud Grass, cloud-like panicles, pretty.

Pulchella, 1 ft., Hair Grass, splendid bouquet, annual.

Anthoxanthum Odoratum, 1 ft., Sweet Vernal, fine.

Gracile 9 in., fine for edging of beds or borders.

Avena Sterilis, 2 ft., drooping spikes, an elegant grass.

Arundo Donax Variegata, 10 ft., big striped leaves.

Brachypodium Gracile, 1 ft., trembling lovely grass.

Briza Maxima, 2 ft., Big Quaking Grass, elegant nodding panicles, good to cut or dry, a fine annual for beds.

Media, 1 ft., filmy panicles of shining purple spikelets, tremulous with the slightest breeze, handsome.

Gracilis, 8 in., spikelets on hair-like stems, very pretty.

Brizopyrum Siculum, 1 ft., annual, many-flwd, two-ranked, flat awless spikelets on decumbent stems.

Bromus Brizaiformis, 2 ft., fine biennial for bouquets.

Madritensis, 2 ft., long dense panicles of small spikelets.

Brachypodium Gracile, 2 ft., a fine graceful annual.

Bromus Macrostachyus, 2 ft., long ornamental spikes.

Ceratochloa Pendula, 3 ft., panicles 10 inches long.

Chloris Barbata, 1 ft., spikes 2 in. long, from India.

Chrysurus Cynosuroides, 6 inches, a low annual with silken plumes that become golden as they mature.

Coix Lachryma, 3 ft., Jobs Tears, seeds used for heads.

Aurea Zebrina, massive foliage blotched golden yellow.

Diplachne Fascicularis, 2 ft., a marsh grass, pretty.

Eleusine Oligostachia, 1 ft., fine for winter bouquets.

Elymus Giganteus, Giant Bunch Grass, big clumps.

Eragrostis Abyssinica, 3 ft., fragrant, panicles loose, open, the many hair-like drooping branches tipped with spikelets. Seeds used in Africa for bead making.

Elegans, 10 in., Love Grass, white spikelets for bouquets.

Maxima, Giant Love Grass, big diffuse panicles set with pretty small spikelets, excellent for bouquets.

Erianthus Ravennae, 6 ft., Plume Grass, an elegant hardy plant, leaves long and graceful, feathery plumes.

Euchiaena Luxurians, 12 ft., a very handsome annual with 20 stems springing from a single seed, each tipped by a dense panicle, the leaves long, broad, graceful.

Ornamental Grasses, in complete special mixture, for bouquets and borders 5 cts.

Eulalia Zebrina, 4 ft., pretty striped hardy perennial

Festuca Glauca, 1 ft., a fine grass for edging or border

Rigida, 10 inches, tufted grass, fine for rockeries.

Stipoides, 2 ft., the Feather-grass-like Fescue, handsome.

Gymnothrix Latifolium, 10 ft., a noble perennial, big clumps, graceful nodding spikes, a splendid grass.

Japonicum, 3 ft. 6 in., silvery spikes, purple anthers, long prominent bristles, a splendid hardy perennial.

Gynerium Argenteum, 2 ft., Pampas Grass, elegant hardy perennial, immense silvery plumes, silky, hairy.

Roseum, exquisite big fluffy rosy plumes; hardy.

Hordeum Jubatum, Squirrel-tail, spikes long, fine.

Isolepis Gracilis bog plant; drooping, slender foliage, hiding the pot; a splendid plant.

Koeleria Setacea, 2 ft., a tufted perennial grass with spikelets in panicles, good for bouquets, green or dry.

Lagurus Ovatus, 1 ft., Hare's-tail, fluffy white heads, showy in garden patches from July to September, fine.

Lasiagrostis Gracilis, 2 ft., annual, very pretty.

Melica Altissima, 3 ft. Tall Pearl Grass, Atropurpurea.

Oryza Sativa, 2 ft., Rice, chief food of China.

Panicum Altissimum, 6 ft., Guinea Grass, decorative.

Capillare 2 ft., panicles large, numerous, for bouquets.

Plicatum Variegatum, an exquisite basket plant, creeping.

Sulcatum, 3 ft., Palm-like foliage, used for pots.

Virgatum, 5 ft., hardy, very ornamental, panicles graceful, drooping, purple, admirable for borders.

Paspalum Elegans, 3 ft., Elegant Millet Grass.

Pennisetum Longistylum, 1 ft., half-hardy annual.

Macroum 4 ft., very ornamental hardy perennial.

Rueppelianum, 4 ft., fine big purple plumes, hardy per.

Poa Pilosa, 1 ft., filmy brown panicles, hardy perennial.

Polygonum Monspelienis, 2 ft., panicles dense, fine.

Setaria Nigra, 4 ft., panicles of small broom heads.

Sorghum Nigrum, 3 ft, Black Millet, fine for bouquets.

Stipa Pennata, 2 ft., per., Feather Grass, for borders.

Tricholaena Rosea, 2 ft., lovely fluffy rosy plumes.

Uniola Latifolia, 3 ft., panicles loose, fine for vases.

Zea Japonica Quadricolor, 3 ft., striped in 4 colors

Gracillima Variegata, 3 ft., a beautiful striped sort.

Perfecta Gigantea, 5 ft., striped in 4 colors. Also Mixed.

REMARKS, NOTES, AND LETTERS

Novelties.—I invite the special attention of my friends to the new and rare flowers briefly described on page 48 and the two pages following. I have nearly all the choice novelties, and offer them at 5cts. per packet. My seeds are all of the new crop, and can be depended upon for vitality and quality, and with every package I mail a little booklet telling just how to sow seeds and treat the little plants. And still more, I guarantee to send you seeds that will grow and be true to name. The booklet accompanying the seeds explains all conditions.

I aim to do an honest business and to please all my patrons. The success and pleasure of my patrons are more to me than their money. This has been my business method since 1868, when I began. Many of my early patrons, some octogenarians, are still buying of me.

Dear Mr. Park: I have been raising your seeds for 35 years and have always had good luck with them. Mrs. Etta McConnell, Columbia Co., Pa., April 8, 1933.

Dear Mr. Park: My mother used your seeds 40 years with great success. Adele Blair, Warwick Co., Va., Feb. 28, 1933.

Dear Mr. Park: For half a century my grandmother has relied upon your seeds for the beautiful garden which she still maintains. Mrs. L. J. Docker, Marion Co., Ind., Mar. 1932.

The Sweet Pinks.—The beauty, fragrance and profusion of the Sweet Pinks, *Dianthus plumarius* fl. pl. (see cut) together with the hardiness and tenacity of the plants should secure for them a prominent place in the flower garden. The plants start readily from seeds, and if set six inches apart in a

sunny bed will stool out and become a carpet of lovely glaucous foliage from which the numerous stems will shoot up bearing a cluster of the richly scented blooms during May and June, and a few in later months. It is one of the good perennials that deserves a place in every garden. See Pinks Hardy Garden, p. 41.

A Good Letter.—My friends will appreciate the following letter which I have just (Oct. 14th) received. Miss Scott is a flower enthusiast who has been my patron for some years, and her place is made famous by the great variety and superior beauty of her flowers, and the artistic manner in which they are arranged. Miss Scott's letters are always an inspiration.

Dear Mr. Park: I wish you could see my flower garden which is the product of your seeds. Never have I had such beautiful Snapdragons—I bought the Majestic varieties, and they are rightly named. The flower spikes are very long and filled with huge flowers of the loveliest colors. Likewise, your *Dianthus* seed displayed a remarkable run of colors and the flowers are easily two and a half inches in diameter. I tried your dwarf large-flowering *Petunias*, and the hues are varied and extremely rich. The *Zinnias* elicit many admiring ahs and ohs. I do not recall ever having such gorgeous colors, and certainly never so large flowers. The *Coxcombs* did not allow their neighbors to outshine them, for there are many reds, pinks and yellows. *Carnations* have always been a favorite flower of mine and I have seventy-seven beautiful plants. Then, too, there are the wilt-resisting *Asters* which have done well in spite of the heat and drought.

In laying out my garden I followed a suggestion found in one of your Catalogues. I placed each variety of Snapdragons in a separate bed. Each bed I bordered with *Blue Cap Ageratum*—I have twenty varieties. Many have come to view my gardens and some have said I should charge for the privilege, for it is well worth while, and all have agreed that they are worth coming to see. I am glad to give flower-lovers the enjoyment of my flowers, and I take not a little pleasure in telling them of whom I bought the seeds and how cheaply. Ours is one of the show places of Brockport, and people look to us to have something extra fine. Well, we have fulfilled all their expectations, and I suspect many go away marvelling at your own good will toward flower-lovers, for many like me would not think, especially in these days that they could afford such an elaborate display were they to depend on most seedsmen with their fancy prices.

It gives me great pleasure to be able to thus express truthfully my appreciation for your graciousness, a part of which I may so heartily enjoy. With best wishes, I am, Sincerely yours, Zella Scott, Brockport, N. Y., Oct. 7, 1933.

Golden Gleam Nasturtium.—The other day a patron came to my seed-house and said, "I want another packet of Golden Gleam Nasturtium. Of the packet I got some weeks ago, every seed grew, and the flowers are beautiful." But I wish you could see the testimony of the many letters about this flower. Here is a sample:

Dear Mr. Park: The Golden Gleams were the prettiest and best Nasturtiums we have ever grown. All of our friends had spells about them. I am well pleased with all your seeds. They grew better than any other seed we planted, gave strong plants, and just what you said they'd be. Our Rock Garden seeds filled the space about 10 by 40 ft., and the garden was beautiful. Mr. W. N. Berry, Ingham Co., Mich., Mar. 1933.

About Freesias.—Freesias are as easily grown from seeds as *Zinnias*, and seedlings started in Spring will bloom freely the following Winter. They are beautiful, delightfully fragrant flowers that grow in a graceful cluster. See pages 44 and 51. A patron kindly writes:

Dear Mr. Park: I believe every seed of the Freesias I ordered from you grew, and the plants flowered this Winter. The *Rosa Fugosa* and *Black Locust* also came up well. Mrs. Anton Johnson, Grant Co., N. Dak., March 4, 1933.

When going through Texas to California in August I was pleased to see beautiful plants of *Euphorbia variegata* decorating the road-side by their showy masses of green and white foliage. They sprung from seeds of plants of

previous year's growth, and of course are perpetuated from year to year. At the north the easily grown plants do well and make a showy bed or border. In good soil the plants grow four feet high, branching freely, and even a single plant becomes a handsome specimen. See engraving, also page 23. 75 seeds 5cts.

Mette's Giant Pentstemon.—This is a splendid *Gloxinia*-flowered perennial that should be in every garden. It blooms the first season, the rich-colored fls. appearing in long spikes.

To Promote Happiness.—Soloman, reputed to be the wisest man, wrote, "A Good Name is rather to be chosen than Great Riches, and Loving Favor rather than Silver or Gold." Now, my friends, in these depressed and troublous times, brought on chiefly by profiteering and greed, would it not promote individual and world happiness if this maxim were generally believed and heeded? Echo answers "Would it not!" "Would it not!" Park.

Dear Mr. Park: You have certainly made this Spring and Summer an enjoyable one for me. The *Clarkias* were beautiful. *Ammobiums*, *Orange Gomphrenas*, *Crimson Bedder Nicotianas*, and *Rose Maria Snapdragons* were new, and proved of interest to many. F. E. Cleghorn, Monona Co., Ia., Aug. 1933.

Dear Mr. Park: I enjoyed your catalogue very much and have read it several times, instead of once or twice as you suggest. *Clarkias* in my garden last year caused much favorable comment. *Nasturtium Golden Gleam* and *Nemophila* were also admired. E. P. Johnson, Kitsap Co., Wash., March 7, 1933.

Dear Mr. Park: I got *Gloxinias*, *Cinerarias*, etc. to germinate for the first time by following your directions. I have one of your glorious New Giant *Petunias* in bloom in a pot from seeds I got last fall, it is gorgeous. Mrs. M. L. McAllister, Washington Co., Utah, Feb. 17, 1933.

Dear Mr. Park: I began using your seeds last year and like them very much. *Gaillardia* plants were all up in seven days, *Aquilegia* and *Passiflora* in ten days. I also have some nice *Gloxinias* raised from your seeds last year. Mrs. Lee Beals, Aroostook Co., Maine, March 3, 1933.

Dear Mr. Park: I ordered 50 pkts of your seeds last year and was well pleased with all. The *Zinnias* took first prize at our flower show. Mrs. B. E. Shaw, Texas Co., Okla.

The Beautiful and Popular Scabiosa

THE above engraving represents flowers of the new and beautiful Sweet Scabiosa, which is a great improvement upon the old-fashioned Scabious formerly seen in our grandmother's garden. The plants grow two feet tall, and become a waving mass of these exquisite flowers borne aloft upon long, strong stems, and exhibiting a great diversity of colors, as White, Rose, Scarlet, Brick-red, Azure Fairy, Red and White, Purple and White. Started from seeds in early spring and set eight inches apart in a bed, the plants make a grand garden display during late summer and autumn. Or, started in autumn, they will endure the winter and begin to bloom early the next season. The flowers are especially adapted for cutting, and the white, blush and pale blue flowers are prized for funeral as well as room decoration. The dwarf sorts thrive in pots, and are fine for winter-blooming in the window. I especially admire these beautiful annuals, and earnestly urge their culture. Price 5cts. per packet, separate or mixed.

Scabiosa Candidissima Flora Plena

This is the handsome Snowball Scabious. The plants grow three feet high, branching freely, each branch tipped with a lovely big double pure white flower. It is beautiful in the garden and fine for cutting. The plants are readily grown from seeds, and easily transplanted. A splendid annual, but little known; of easy culture. 75 seeds 5cts.

TREES AND SHRUBS

I OFFER new seeds of all of the following Trees and Shrubs, but I will say, right here, that many kinds of Tree and Shrub seeds are tardy in starting. Some are nuts and need to be filed before planting; others have an impervious covering which retards germination. All should be sown in a retired bed, which will not be disturbed for two or three years. Some will start in a reasonable time, and these can be removed. Germination, however, is variable and always more or less tardy.

Acacia Julibrissin, Albizzia, 30 feet, a hardy leguminous tree bearing paniculate heads of white flowers; has beautiful pinnate foliage, very handsome.

Acer Pseudo-platanus Rubrum, 50 feet, leaves Sycamore-like, purple beneath, the breeze giving a variable appearance; a rare, handsome Maple.

Sacharinum, the well-known Sugar Maple.

Ailanthus Glandulosa, 40 feet, Tree of Heaven; beautiful massive foliage and greenish-white terminal panicles of bloom; makes a fine specimen.

Akebia Quinata, 30 feet, a fine Japanese evergreen hardy vine; flowers brown, very fragrant; and are very freely produced in Spring; not hardy far north.

Alnus Glutinosa, 50 ft., a quick-growing tree, handsome foliage and pretty flowers in early spring.

Amelanchier Botryapium, 8 feet, a very bushy shrub with masses of showy white flrs in early spring, followed by clusters of palatable fruit in June.

Amorpha Fruticosa, 8 ft., a pretty native; the flowers are purple and grow in spikes.

Ampelopsis Veitchi, a robust hardy woodbine, elings to walls, bright-colored foliage in autumn.

Aralia Spinosa, 10 feet, a handsome native; the flowers are white in big umbels, splendid.

Arbutus Unedo, 8 ft., Strawberry Tree; flrs in drooping racemes; fruit scarlet, edible; blooms in late autumn, at which time the previous year's fruit is ripe; flowers and ripe fruits are very attractive.

Aristolochia Sipho, 40 feet, a hardy vine; leaves semi-tropical, flrs pipe-like, brown, in early spring.

Aucuba Japonica, 5 feet, leathery green leaves spotted white; female plants fruit freely; mixed.

Azalea Mollis, 3 ft., bell-shaped bright colored flowers in clusters; from Japan; hardy.

Berberis Aquifolium, 4 ft., a hardy shrub; flowers are yellow in crowded erect racemes; fine.

Thunbergii, 3 ft, golden pendulous flrs; scarlet berries.

Vulgaris Purpurea, 5 feet, deciduous purple foliage; red autumn fruit, a splendid variety.

Jamesonii, a beautiful hybrid Mahonia; should be in every collection; a rare hardy variety.

Betula Alba, 50 feet, the European Birch.

Bignonia Radicans, Tecoma, native shrubby wall vine; flowers clustered, large, red, showy trumpet.

Buddleia Variabilis, 8 ft., Butterfly Bush, hardy summer-blooming, flrs lilac in showy terminal spikes.

Buxus Sempervirens, a dense hardy evergreen shrub, much used for edging and single specimens.

Calycanthus Floridus, 5 feet, the sweet native shrub; flrs brown followed by large seed-fruits.

Praecox, a beautiful winter-blooming shrub, flowers purple, very fragrant, axillary and terminal.

Caragana Arborescens, 15 feet, a Siberian Pea Tree; golden flrs in April, a hardy leguminous tree.

Carpinus Betulus, 50 ft., European Hornbeam, a good hedge plant if kept pruned, yellowish flrs.

Catalpa Speciosa, 30 ft., a beautiful flowering tree; big terminal panicles of large white flowers; in bloom it is very attractive; blooms when quite young.

Ceanothus Azureus, 10 ft., a fine Mexican shrub, flrs lovely blue in cymes, give a sheltered place.

Celastrus Scandens, 30 ft., hardy shrubby vine, clusters of white flrs in spring, and a rich orange vessel with bright scarlet seeds in autumn, fine native.

Cerantia Siliqua, 30 ft., an evergreen leguminous tree, leaflets shining green, flowers red in Sept.

Cercis Canadensis, 15 feet, Red Bud; a hardy native tree showing masses of little red butterfly-like flowers in early spring, before the foliage, splendid.

Chionanthus Virginica, 15 ft., Fringe Tree, also Grandfather Gray Beard; flrs white in big showy clusters in spring, a native ornamental tree.

Citrus Trifoliata, 20 feet, a hardy orange tree, the fruit small but beautiful flowers white, scented.

Clematis Vines, shrubby, hardy kinds, mixed colors, many beautiful sorts.

Colutea Arborescens, 8 ft. flrs yellow, freely produced during July and August, a hardy shrub.

Callicarpa Americana, 5 ft., a hardy native shrub laden with clusters of purple berries in autumn.

Clethra Alnifolia, 3 feet, a hardy native shrub with lovely, deliciously scented white flowers in spicate racemes from July until September.

Crataegus Pyracantha, 10 feet, Evergreen Thorn, clusters of white bloom in May, and in autumn covered with bright red berries that remain in winter.

Cydonia Japonica, 5 feet, Japan Quince; bright red flrs in spring, fruit green, delightfully fragrant.

Cytisus Laburnum, 20 feet, Golden Chain; flowers are golden yellow in pendulous racemes from April to June, leguminous, very beautiful.

Cotoneaster Microphylla, an evergreen wall plant, preferred to Ivy, a profusion of white bloom in spring, succeeded by scarlet berries, also for rockeries.

Cornus Masculina, 12 ft., Cornelian Cherry; umbels of golden flowers on leafless twigs in February and March, followed by red, edible cherry-like fruits.

Cryptomeria Japonica Elegans, a beautiful evergreen pyramidal tree, branchlets pendulous, very graceful, bronzy crimson in autumn and winter.

Daphne Mezereum, 3 ft., Spurge Olive; a charming shrub, flowers red, fragrant, in clusters during February and March, give it a protected place.

Deutzia Crenata, fl. pl., 8 ft., fine spring-double rose-tinted flowers in terminal panicles.

Diospyros Virginica, 40 feet, Persimmon; seeds from delicious non-astringent fruit, excellent.

Desmodium Penduliflorum, 3 ft., a beautiful pendulous shrub, flowers pea-shaped, purple, free.

Euonymus Americana, 6 feet, green bark, purple flrs, pink strawberry-like fruits, scarlet seeds.

Eleagnus Angustifolia, a handsome deciduous tree prized for its fragrant yellow flowers and red fruit.

Eochorda Grandiflora, 12 ft., Pearl Bush; a lovely, free-blooming, beautiful tree; the flowers like Cherry-blooms and cover the tree in May.

Fraxinus Excelsior Pendula, weeping Ash. **Ornus**, the handsome flowering Ash; very pretty.

Genista Tinctoria, 10 ft., flowers golden, in profusion from July till September; of easy culture.

Gleditschia, Honey Locust, 50 ft., greenish flowers and big red sweet seed pods, pretty foliage.

Grevillea Robusta, a fine tree south, and a beautiful pot plant in the north.

Ginkgo Biloba, 40 ft., Maiden-hair tree, fine.

Gymnocladus, Kentucky Coffee Tree, 75 ft., racemes of white bloom, May to July, big red showy pods in autumn, seeds browned, ground, used for coffee.

Hedera Helix, most beautiful of our evergreen climbers, leaves leathery, graceful and attractive.

Hamamelis, Witch Hazel, 8 ft. golden flrs.

Hazel-nut (Corylus) 8 ft., pretty flowers in March, with ripe brown palatable nuts in autumn.

Hibiscus Syriacus, Althea, Double, mixed.

Hypericum Calycinum, 1 ft., large yellow flowers; one of the handsomest of our shrubs.

Ilex Aquifolia, Holly; green foliage, red berry.

Juglans, the Butternut and White Walnut.

Koelreuteria Paniculata, 15 ft., a beautiful tree with pinnate foliage and big panicles of golden flrs.

Ligustrum Japonicum, 6 ft., an evergreen hardy shrub, with fragrant white flrs and large leaves.

Liquidamber Styraciflua, 50 ft., a Maple-like tree, the foliage fragrant and scarlet in autumn.

Lirodendron, 50 feet, Tulip Tree; bears large beautiful Tulip-like, red-checked flowers in July.

Lonicera Caprifolium, a vigorous twining Honey-suckle; flowers yellow and blush in terminal whorls and highly fragrant, yellow berries in autumn. Other *Loniceras* are *Sempervirens*, *Scarlet Trumpet* and *Japonica*.

Lonicera Tartarica Rosea, 10 ft., Bush Honey-suckle, flrs small, profuse, rose, red berries in summer.

Maclura, Osage Orange, 40 ft., a handsome large-fruited tree, often trained for hedges.

Magnolia Grandiflora, 80 ft., a fine evergreen native tree; big beautiful sweet white flowers in summer.

Soulangeana, 20 ft., big Tulip-like pink flrs in spring.

Acuminata, 50 ft., pyramidal, large-leaved Tulip-like, yellow-tinted flowers, scarlet seeds, handsome.

Melia Japonica Floribunda, Tree of Lilac; blooms early and freely, flowers big lilac; hardy south.

Melia Umbraculiformis, Umbrella Tree, 20 ft., a dense, beautiful shade tree, flowers in big lilac panicles delightfully fragrant, drupes golden, the size of marbles, and hang in clusters in winter; not hardy in the north.

Morus Nigra, 30 ft., Black Mulberry, delicious black fruit in mid summer; fine for birds.

Myrtus Communis, 6 ft., fragrant foliage with pretty white flowers, hardy in the South.

Nandina Domestica, 5 ft., an elegant half-hardy shrub, flowers white in terminal panicles; berries rich scarlet in clusters, remaining through the winter.

Nyssa Sylvatica, 75 ft., Blue Gum, with shining green foliage in summer, rich scarlet in autumn.

Peony Moutan, 3 ft., stem shrubby, branched, flowers are large and of various colors, showy.

Paulownia Imperialis, 40 ft., a splendid early-blooming tree, flrs trumpet-like, violet, in big clusters.

Pomegranite, 10 ft., flowers showy scarlet, fruit orange-size, yellow with pink cheek, beautiful; edible.

Philadelphus Coronarius, 6 ft., Mock Orange, lovely cup-shaped white fragrant flowers, hardy.

Grandiflorus, 8 ft., larger flrs but not fragrant, showy.

Photinia Serrulata, 10 ft., Chinese Hawthorn, a handsome shrub with white flowers in showy flat panicles, leaves stiff, glossy, evergreen, red berries.

Picea Excelsa, Norway Spruce, 30 ft., a splendid evergreen.

Platanus Occidentalis, 50 ft., Sycamore, a very fine tree with white bark, pretty foliage and graceful little fruit-balls that swing all winter.

Pueraria Thunbergiana, Kudzu Vine, vigorous splendid foliage and a wealth of Wisteria-like blue clusters in fall; fine to cover old trees or summer houses.

Quercus Macrocarpa, 60 ft., Burr Oak, large spreading tree with large nuts in mossy cups.

Coccinea, 50 ft., Scarlet Oak, scarlet foliage in fall.

Alba, 60 ft., small, sweet nuts, a handsome tree.

Phellos, 75 ft., a large spreading tree with graceful narrow foliage, a glorious big lasting shade tree.

Palustris, 50 ft., Pin Oak, a beautiful shade tree.

Rhododendron Ponticum, 10 ft., glossy leaves and large, showy flowers in many fine colors.

Arboreum, 20 ft., fine evergreen, big clusters, mixed.

Sterculia Chinese Parasol; half-hardy tree.

Rhodotypus Kerrioides, 3 feet, a graceful shrub with white Kerria-like flowers, admirable.

Rhus Cotinus, 8 ft., Smoke Tree, a handsome hardy shrub, flowers in loose panicles, becoming brown filmy and smoke-like as seeds ripen; curious, attractive.

Robinia, Black Locust, 50 ft., lovely pinnate foliage, exquisite, fragrant, honey-flowers in pendulant racemes, lovely in bloom, later laden with seed pods.

Bessoniana, thornless, otherwise like Black Locust.

Viscosa, 30 ft., pink-colored flowers in erect racemes.

Rosa Canina, 6 ft., Dog Rose, single, pink.

Hybrid Perpetual, in splendid variety mixed.

Rubiginosa, Sweet Briar, pink flrs, fragrant foliage.

Rugosa, 4 ft., Japan Rose, wrinkled foliage and showy red flowers, followed by big red seed-hips.

Ribes Grossularia, Gooseberry, large-fruited.

Aureum, 5 ft., lovely sweet golden flrs in early spring.

Nigrum, 4 ft., Black Currant, edible fruit in clusters.

Rubrum, 3 ft., Red Currant, edible fruits, many sorts.

Rubus Idaeus, 6 ft., Raspberry, edible fruit.

Ruscus Aculeatus, 3 ft, Butcher's Broom, very small flowers followed by bright red berries, hardy.

Sambucus Canadensis, 8 ft., large flat heads of white bloom, lacy and beautiful in June, followed by black berries fine for jelly and pies. Birds like the fruit.

Schinus Molle, 20 ft., Pepper Tree, small white flowers in panicles in July, followed by lovely rose pea-like drupes; flowers and fruits handsome; hardy south.

Saphora Japonica, 30 ft., Chinese Pagoda Tree leguminous, hardy, flowers cream in terminal panicles.

Saphora Japonica Pendula, an exceedingly beautiful and hardy weeping tree of the preceding species.

Sorbus Aucuparia, 20 ft., hardy tree, flrs cream in big compound clusters, fruit scarlet, handsome.

Spartium Junceum, 8 ft., hardy shrub, golden fragrant pea-like flowers in handsome racemes in July.

Staphylea Pinnata, white flowers in drooping racemes, hardy nut tree; very decorative.

Spiraea Lindleyana, 5 ft., white flrs in panicles.

Symphoricarpus Racemosus, 5 ft., pink flowers, followed by showy white berries in winter.

Vulgaris, 5 ft., red flrs, winter-berries crimson, fine.

Syringa, 10 ft., lilac flrs, deliciously scented.

Tamarix Gallica, 8 ft., plummy branches and pink flrs in graceful spikes in autumn, very desirable, hardy.

Thuja Occidentalis, Arbor Vita, fine evergreen. yellow blooms in profusion; a beautiful tree.

Argentea Pendula, 50 ft., graceful, fine shade tree.

Tilia Americana, 60 ft., Linden Bass; honeyed

Ulex Europeus, 3 ft., bushy, blooms young, bright yellow flrs crowded on stems, leguminous, hardy.

Wistaria, hardy vine, 30 ft., flowers in showy drooping racemes in spring; vigorous and beautiful.

Vitis Cognataea, The Beautiful Crimson Glory Vine, a vigorous hardy Grape, scarlet foliage in fall.

Viburnum Opulus, Guelder Rose, 6 ft., hardy shrub; white flowers in globous cymes, followed by lovely red cherry-like fruits; very beautiful.

Vitex Agnus-castus, 6 ft., glomerate clusters of pretty tubular lilac flowers in late summer, hardy south.

Xanthocerus Sorbifolia, 10 ft., Hyacinth Tree; pretty foliage and erect spikes of white red-eyed flrs.

THAT GLORIOUS NEW PERENNIAL THE PURE WHITE DELPHINIUM ICEBERG

PERHAPS the most desired and long-sought of hardy perennials was a white Perennial Larkspur, and flower people were all more than delighted last year, when for the first time that grand white Delphinium, Iceberg, was advertised by seedsmen and introduced. It is a perennial that should be in every garden. The plants soon stool out into handsome clumps from which branching stems push up four feet high, each bearing a huge spike of exquisite white flowers. If these are freely cut to prevent seeding you will have the elegant display continued through the season. Last year small packets were sold at from 25 to 50 cts. each, but the supply of seeds has been increased so that I have the pleasure of offering new-crop seeds of this glorious novelty this season at 5cts. per packet. I would, however, advise my friends to not delay their orders, as the supply of seeds, though large, may become exhausted before the season is over. It's a grand good thing, and you cannot err in obtaining the seeds as early as possible.

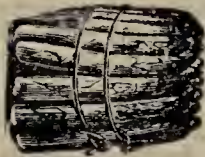

VEGETABLES

I OFFER a select list of the very best Vegetables known. All of these have been tested, and found superior. When you order your flower seeds do not forget the Vegetables, as my seeds are first-class, and are priced to suit the hard times. From me you will get the best seeds and always the most for your money.

Artichoke, Large Green Paris Improved, large broad heads; thick, fleshy, productive; best sort. Pkt. 5c.

Asparagus, Mary Washington, rust-resistant; large, early, decidedly the best Asparagus; tips are large, long, tight and tender. Per Packet 5cts., oz 10cts.

ASPARAGUS TIPS

Broccoli, New Sprouting. A new sort bearing in 90 days a large Cauliflower-like head of fine quality, tender and sweet. When this head is cut numerous branches appear producing heads; these are cut with 3 inch stems and are boiled with the heads for table use. Why not try it? 5cts. a packet.

Bean, Giant-pod English, the best Broad Bean; plant early as it is frost-proof; has flavor of Limas. 5c. $\frac{1}{2}$ lb. 15c.

Bean, Bountiful, the best Snap-bean; pods 7 inches, thick, absolutely stringless, early, hardy, vigorous and continuously bearing and marvelously productive. 5c. $\frac{1}{2}$ lb. 15c.

Burpee's Stringless Green Pod, a popular Snap-bean. 5cts. $\frac{1}{2}$ lb. 15cts.

Pencil-pod Black Wax, the best of the black-wax sorts; pods 7 in. long, round, stringless, fleshy, brittle, clear yellow, vigorous. 5c. $\frac{1}{2}$ lb. 15c.

Webber's Wax, one of the very best; pods long, golden yellow, stringless, productive, fine quality. 5c. $\frac{1}{2}$ lb. 15c.

Kentucky Wonder, the finest pole bean; pods long, green, round, stringless, very productive; beans yellow, fine quality. 5cts. $\frac{1}{2}$ lb. 15cts.

Horticultural Cranberry, a good corn or pole bean; pods long, fleshy, stringless; beans large, oval, white, speckled red; good quality. 5cts. $\frac{1}{2}$ lb. 15cts.

Dreer's Early Golden Cluster, the best wax pole bean; pods long, fleshy, golden; white when shelled; productive and of good quality. 5cts. $\frac{1}{2}$ lb. 15cts.

Striped Creaseback, a vigorous, productive corn bean; pods 7 in., fleshy, fine grained, good. 5cts. $\frac{1}{2}$ lb. 15cts.

Burpee's Improved Bush Lima, an ever-bearing sort, decidedly the best; very productive; long pods and large beans. 5cts. $\frac{1}{2}$ lb. 20cts.

Bean, Pole Lima, Early Leviathon, the earliest Lima; pods long, clustered, with 5 big fat beans; bears freely throughout the season; very prolific; fine quality, only 5c. $\frac{1}{2}$ lb. 20 cts.

Jumbo, largest, most prolific; everbearing. 5cts. $\frac{1}{2}$ lb. 20cts.

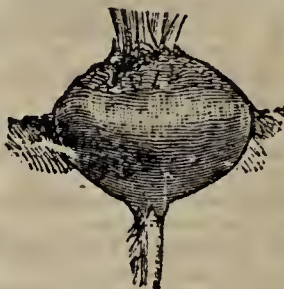

Florida Butter, sure-crop; clusters of big pods; beans cream spotted red; free and continuous bearing; resists bean weevil and drouth. 5c. $\frac{1}{2}$ lb. 20cts.

Sieva Butter, the popular Lima of the South; sure, continuous and heavy cropper; wonderfully prolific. 5cts. $\frac{1}{2}$ lb. 20cts.

EARLY LEVIATHON

Beet, Detroit Dark Red, the best all-round beet; very early, medium size, globular, solid, deep red, sweet and tender, never woody; tops and tap-root small; sure of a crop. Select stock. 5cts. Oz. 8cts. $\frac{1}{2}$ lb. 25cts.

DETROIT DARK RED BEET

Early Wonder, a very superior beet in earliness, globe-shape, uniformity, sweetness, solidity, tenderness, and rich red color; ideal for garden. 5c. oz. 8c. $\frac{1}{2}$ lb. 25c.

Brussels Sprouts, L. I. Improved Dwarf, A superior cabbage, the little tender heads borne along the stem; easily grown. This is the earliest, most compact and dependable sort, and decidedly the best. 5c. $\frac{1}{2}$ oz. 10c.

Borecole, Kale, Dwarf Scotch, a hardy plant, 18 inches high, with handsome curled foliage; used for winter greens. 5c. oz. 8c.

Cabbage, Early Jersey Wakefield select stock. The earliest of cabbages; heads broad, cone-shaped and very solid; sweet, rich, tender and can be eaten raw or cooked; a deservedly popular sort. 5c. $\frac{1}{2}$ oz. 15c.

Copenhagen Market, very fine; as early as Jersey Wakefield; short stem, solid round head, few outer leaves, upright growth. Select stock. 5c. $\frac{1}{2}$ oz. 15c.

Late Flat Dutch, unexcelled for full crop, sure to head, large, solid, finest quality; amazingly productive, even in bad seasons. keeps well. 5c. $\frac{1}{2}$ oz. 15cts.

All Seasons, head round; weighs 12lbs., rich quality; sure to head. 5c. $\frac{1}{2}$ oz. 15c.

Red Dutch, deep red, fine for pickling. 5c. $\frac{1}{2}$ oz. 15c.

Perfection Drumhead Savoy of easiest culture, fine, large crinkly heads, sweet; rivals the Cauliflower. 5cts. $\frac{1}{2}$ oz. 15cts.

Cardoon, Large, smooth, spineless, fleshy stalks; fine when boiled; easily grown, blanch like Celery. 5c. $\frac{1}{2}$ oz. 8c.

Carrot, Danver's Improved, the best; stump-rooted, smooth, orange-red, tender, coreless. productive. 5cts. Oz. 8cts.

Cauliflower, Snowball, early, maturing in 120 days; large, solid, sure to head under unfavorable conditions. 5cts. $\frac{1}{2}$ oz. 15cts.

Dry Weather, easily grown as Cabbage, treatment same; heads large, solid, white, fine quality. 5c. $\frac{1}{2}$ oz. 15c.

Chives, Onion-like, bulbless, tops used for flavoring; stay in bed from year to year. 5cts.

Chicory, Large-rooted, dry and use as coffee. 5c. $\frac{1}{2}$ oz. 10c.

BRUSSELS SPROUTS

LATE FLAT DUTCH

Celery, Golden Self-blanching, disease-resistant, handsome, rich-flavored, excellent. 5cts., $\frac{1}{2}$ oz. 20cts.
Giant Pascal (Winter King), late, large, solid, thick, stringless, heart golden yellow, 5cts., $\frac{1}{2}$ oz. 20cts.
Celeriac, large, early, turnip-rooted, good, 5c., $\frac{1}{2}$ oz. 10c.
Cervil, curled, crisp for flavoring, 5cts., $\frac{1}{2}$ oz. 10cts.
Witloof, a Chicory forming roots; lifted and forced in Winter the tender leaves are a fine salad, 5c., $\frac{1}{2}$ oz. 10c.
Collard, True Georgia, 3ft., a very hardy Cabbage; cut and boil the leaves in Winter; good, 5c., $\frac{1}{2}$ oz. 8c.
Cabbage Collard, a kind forming white, solid heads, cold-resistant, stays out; very fine, 5cts., $\frac{1}{2}$ oz. 8cts.

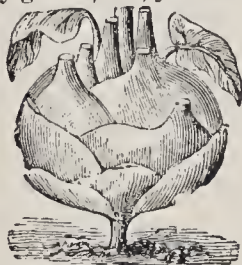

CUCUMBER WOODRUFF'S HYBRID

Corn Salad, large cabbaging Winter-greens; hardy; needs no protection; sow in Fall. 5cts., $\frac{1}{2}$ oz. 8cts.
Corn, Sunshine, 10 days earlier than Golden Bantam; big ears, very sweet; excellent, 5cts., $\frac{1}{2}$ lb 15cts.
 Woodruff's Extra Early, one of the earliest; large, very sweet; often replaces Sunshine; 5cts., $\frac{1}{2}$ lb 15cts.
 Golden Bantam true, very early, sweet, 5cts., $\frac{1}{2}$ lb 15cts.
 Early Mayflower, big white ears; good, 5cts., $\frac{1}{2}$ lb 15c.
 Kendall's Early Giant, fine big sugar-ears, 5c., $\frac{1}{2}$ lb 15c.
 Country Gentleman, mid-season; fine ears, 5c., $\frac{1}{2}$ lb 15c.
 Stowell's Evergreen Improved, late, very sweet, most productive, the best, much improved, 5cts., $\frac{1}{2}$ lb 15cts.
 Long Island Beauty, late, 14inch ears, fine, 5c., $\frac{1}{2}$ lb 15c.
 Extra Early Adams, not sweet, sure crop, 5c., $\frac{1}{2}$ lb 15c.
 Trucker's Favorite, not sweet, big ears, 5c., $\frac{1}{2}$ lb 15c.
 Pop Corn, Golden, big grains, fine ears, 5cts., $\frac{1}{2}$ lb 15c.
 Ensilage Woodruff's Early Wonder, 15 ft., vigorous; big ears and foliage, best cattle food, 5cts., 1lb 18cts.
Cress, Curled, best for salad and flavoring, 5c., $\frac{1}{2}$ oz 8c.
 Water Cress, grows in water, for garnishing, 5c.
Cucumber, Early White Spine, best early, 5c., $\frac{1}{2}$ oz. 10c.
 Woodruff Hybrid, best erop; blight-free, 5c., $\frac{1}{2}$ oz. 10c.
 Jersey Pickling, best for pickles, productive, 5c. $\frac{1}{2}$ oz 10c.
Dandelion, Improved Broad-leaf, early, the best, 5c.
Egg Plant, Black Beauty, earliest, very large, elegant dark purple; the finest sort, 5cts., $\frac{1}{2}$ oz. 20cts.
Endive, Large Green Curled, blanches cream, 5c., oz 8c.
Kale, Dwarf Scotch, hardy winter greens, 5c., oz. 8c.
Kohl Rabi, Early White Vienna, prolific, 5c., $\frac{1}{2}$ oz. 8c.
Leek, American Flag, mild; easily grown, 5c., $\frac{1}{2}$ oz. 15c.

HOT WEATHER LETTUCE

KOHL RABI

Lettuce, Hot Weather, best all-round sort for Spring, Summer, Fall, Winter; heads big, blanched, buttery; finest flavor, tender, sweet, luscious; no sun too hot, no cold too severe for it; sure crop, 5c., $\frac{1}{2}$ oz. 8c., oz. 15c.
 Curled Simpson, earliest, finest leaf-lettuce, 5c., oz. 10c.
 Select Big Boston, sure heading, solid, fine, 5c., $\frac{1}{2}$ oz. 8c.
 New York, huge heads, tender, sweet, sure, 5c., $\frac{1}{2}$ oz. 8c.
 Leeburg, large, late, solid, tender, 5c., oz. 10c., $\frac{1}{2}$ lb. 30c.
 Romaine Cos, self-closing, blanched, fine, 5c., oz. 10c.
 Above Kinds in fine special mixture, 5cts., oz. 10cts.
Muskmelon, Emerald Gem, best for gardens; always sweet; very good; early, sure crop, 5cts., oz. 10cts.
 Hoodoo, wilt-resisting, medium size, sweet, 5c., oz. 15c.
 Early Hackensack, large, sweet, excellent, 5c., oz. 8c.
 Rocky Ford, popular, sweet, fine flavor, 5c., oz. 10cts.
 Market King, largest size, rich, sweet, good, 5c. $\frac{1}{2}$ oz. 8c.
Mustard, Giant Curled, huge plumes, 5cts., oz. 8cts.
Onion, Danver's Yellow Globe, large, early sweet, mild, sure crop first season; keeps well; the best commercial Onion, 5c., oz. 8c. 1lb. \$1.00, Surplus, get price.
 Australian Brown, early, mild, productive, 5c. oz. 8c.
 Ailsa Craig, largest of Onions, mild, sweet, grows quickly from seed; productive; keeps well, 5cts., $\frac{1}{2}$ oz. 10cts.
 White Portugal, medium, best for pickles, 5c., $\frac{1}{2}$ oz. 8c.
 Wethersfield Large Red, sure-crop, keeps, 5c., oz. 10c.
 Southport White Globe, early, mild, firm, 5c. $\frac{1}{2}$ oz. 10c.
Okra, Perkin's Mammoth, long tender pods, oz. 5cts.
 White Velvet, superior flavor, tender, fine, per oz. 5c.
Parsnip, Large Sugar, smooth, tender, best, 5c., oz. 8c.
Parsley, Parterre Beauty, for pots or beds, 5c., oz. 10c.

Pea, Extra Early Alaska, hardy, Earliest Pea; sow in Fall or early Spring; productive, long-bearing, fine, comes in 50 days, 2oz., about 600 peas, 5c., $\frac{1}{2}$ lb. 15cts.
 Model Extra Early, 15inches; masses of pods of 8 to 10 wrinkled Peas, sweet, delicious; several crops, needs no staking, 2oz., about 225 peas, 5cts., $\frac{1}{2}$ lb. 15cts.
 Laxtonian, 18in., medium early, productive, luscious, 2oz., about 225 peas, 5cts., $\frac{1}{2}$ lb. 15cts.

All of Park's Seeds are 5cts. a Packet, and all are Guaranteed.

DIANTHUS Picturatum Splendens

SOME of the Japan Pinks are finely variegated, but none approach the exquisite markings of "Picturatum Splendens." It is the most beautiful of all, the colors rich, distinct, and brilliant; unexcelled for beds. Don't omit it.

DIMORPHOTHECA, New Hybrids

THE new and beautiful African Daisy grows a foot high and bears in great abundance the bright flowers in many lovely hues. A splendid easily-grown annual, and exceedingly showy in beds. It's a "must have."

GIANT

PRIMULA Obconica

THE engraving herewith is a true representation of the up-to-date Primula Obconica, the flrs. of which are as large as those of the Giant Chinese Primulas, and come in as large clusters. Formerly the colors were pale and more or less unattractive, but recently new colors, rich and beautiful, have appeared, and the plants are wonderfully showy, as well as free-blooming. I am pleased to offer seeds of the finest perfected strains of this easily-grown window plant, seeds that produce flrs. of prodigious size, as well as of the most varied and brilliant colors, and at the "hardtimes" price of 5c. a pkt. One packet, under favorable conditions, will afford all the plants you will care to grow for your windows, and cultural directions are sent with the seeds, insuring success. Don't omit this fine Primrose.

Address all orders to **GEO. W. PARK, Greenwood, S. C.**
